PROSPECTUS SUMMARY

You should read the following summary together with the more detailed information and the financial statements appearing elsewhere in this Prospectus. This Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under “Risk Factors” and elsewhere in this Prospectus. Unless the context indicates or suggests otherwise, references to “we,” “our,” “us,” the “Company,” “Terra Tech” or the “Registrant” refer to Terra Tech Corp., a Nevada corporation and its wholly owned subsidiary, GrowOp Technology Ltd., a Nevada corporation.

Overview

Terra Tech Corp. was incorporated on July 22, 2008 in the State of Nevada. Our initial business focus was on development of a software product for call processing through voice-over-Internet protocol, or “VoIP”, technology. On February 9, 2012, Terra Tech entered into an Agreement and Plan of Merger dated February 9, 2012 (the “Agreement and Plan of Merger”), by and among Terra Tech, TT Acquisitions, Inc., a Nevada corporation and a wholly-owned subsidiary of Terra Tech (“TT Acquisitions”), and GrowOp Technology Ltd., a Nevada corporation (“GrowOp Technology”).

Under the terms and conditions of the Agreement and Plan of Merger, Terra Tech offered and sold 33,998,520 shares of common stock in consideration for all the issued and outstanding shares in GrowOp Technology. The effect of the issuance was that GrowOp Technology shareholders held approximately 41.46% of the issued and outstanding shares of common stock of the Company. Separately, TT Acquisitions merged with GrowOp Technology, with the effect that GrowOp Technology became a wholly-owned subsidiary of Terra Tech. Articles of Merger, effecting the merger of GrowOp Technology and TT Acquisitions, were filed with the Secretary of State of the State of Nevada on February 9, 2012.

Our wholly owned subsidiary, GrowOp Technology, was founded in March 2010, in Oakland, California. GrowOp Technology’s business (now the principal business of Terra Tech) is the integration of best of breed hydroponic equipment with proprietary technology to create sustainable solutions for the cultivation of indoor agriculture. We work closely with expert horticulturists, engineers, and scientists, to develop and manufacture advanced proprietary products for the hydroponic industry. Our products are utilized by horticulture enthusiasts, local urban farmers, and green house growers. We believe that the emerging trend of urban and indoor agriculture has fostered an entrepreneurial push by companies to bring their concept to market. Many of these companies lack both the intellectual resources and manufacturing capabilities to bring their idea to fruition. That is where Terra Tech is positioned. We have the team and the resources to help bring indoor cultivation designs from concept to production. Our products can be found through specialty retailers throughout the United States.

Recent Developments

Offer and sale of 6% Senior Secured Convertible Debentures

On March 22, 2013, we entered into a Securities Purchase Agreement (the “Securities Purchase Agreement”) with certain accredited investors (the “Purchasers”) pursuant to which we raised \$825,000 in a private placement financing (the “Offering”). On March 22, 2013, after the satisfaction of certain closing conditions, the Offering closed and we issued to the Purchasers three 6% Senior Secured Convertible Debentures for an aggregate proceeds of \$825,000. Each debenture accrues interest at a rate of 6% per annum and is convertible into shares of common stock of the Company, at any time at the election of the holder thereof, at a purchase price equal to 62% of the lowest daily volume weighted average price (or the “VWAP”) of the Company’s common stock as quoted by Bloomberg L.P. for the ten (10) trading days immediately preceding the conversion date. The Company intends to use the net proceeds from this offering to advance the Company’s ability to execute its growth strategy and to aid in the commercial development of the Company’s wholly-owned subsidiary, GrowOp Technology.

In connection with the Offering, each of the Company and GrowOp Technology also entered into a General Security Agreement, dated March 22, 2013, with the Purchasers (the “Security Agreements”). Under each Security Agreement, we and GrowOp Technology granted security interests in all of their respective assets, rights, interests and after-acquired assets and properties as collateral for repayment of the principal and interest owed under the debentures. Additionally, we entered into Stock Pledge Agreement, dated March 22, 2013, with the Purchasers. Under the Stock Pledge Agreement, we pledged all the shares of common stock we hold of GrowOp Technology as collateral for repayment of the principal and interest owed under the debentures.

Aegis Capital Corp. (the “Placement Agent”) served as the placement agent of the Company for the Offering. In consideration for services rendered as the Placement Agent, the Company agreed to: (i) pay to the Placement Agent cash commissions equal to \$66,000, or 8.0% of the gross proceeds received in the Offering, (ii) issue to the Placement Agent, or its designee, a warrant to purchase that number of shares of common stock of the Company equal to 5% of the aggregate number of shares of the Company’s common stock underlying the debentures sold in the offering, at an exercise price equal to the purchase price of the common stock underlying the debentures, for a term of 5 years, (iii) pay \$5,250 in expenses of the Placement Agent, and (iv) pay \$15,000 in legal fees of the Purchasers.

On April 19, 2013, the Company offered and sold an additional 6% Senior Secured Convertible Debenture for aggregate proceeds of \$250,000 (the “Additional \$250,000 Debenture”). The Additional \$250,000 Debenture was made pursuant to a Securities Purchase Agreement with one purchaser, who also was one of three Purchasers. In consideration for services rendered as the Placement Agent, the Company agreed to: (i) pay to the Placement Agent cash commissions equal to \$20,000, or 8.0% of the gross proceeds received in the additional \$250,000 offering, and (ii) issue to the Placement Agent, or its designee, a warrant to purchase that number of shares of common stock of the Company equal to 5% of the aggregate number of shares of the Company’s common stock underlying the debentures sold in the offering, at an exercise price equal to the purchase price of the common stock underlying the debentures, for a term of 5 years, and (iii) pay \$1,000 in legal fees of the Purchasers.

On May 3, 2013, the Company offered and sold an additional 6% Senior Secured Convertible Debenture for aggregate proceeds of \$250,000 (the “Additional \$200,000 Debenture”). In connection with the sale, the purchaser of the Additional \$200,000 Debenture became a party to the Security Agreements. In consideration for services rendered as the Placement Agent, the Company agreed to: (i) pay to the Placement Agent cash commissions equal to \$16,000, or 8.0% of the gross proceeds received in the additional \$200,000 offering, and (ii) issue to the Placement Agent, or its designee, a warrant to purchase that number of shares of common stock of the Company equal to 5% of the aggregate number of shares of the Company’s common stock underlying the debentures sold in the offering, at an exercise price equal to the purchase price of the common stock underlying the debentures, for a term of 5 years, and (iii) pay \$1,000 in legal fees of the Purchasers.

Share Exchange Agreement with Edible Garden Corp.

On April 23, 2013, we entered into a Share Exchange Agreement, dated March 23, 2013 (the “Share Exchange Agreement”), by and among the Company, Edible Garden Corp., a Nevada corporation (“Edible Garden”), and the holders of common stock of Edible Garden. The principle holders of the common stock of Edible Garden consisted of Ken VandeVrede, Mike VandeVrede, Steve VandeVrede and Dan VandeVrede, each of whom held 23% of the issued and outstanding shares of common stock of Edible Garden. Additionally, Beverly Willekes and David VandeVrede each held 4% of the issued and outstanding shares of common stock of Edible Garden. Ken VandeVrede, Mike VandeVrede, Steve VandeVrede, David VandeVrede and Beverly Willekes are siblings. Dan VandeVrede is the father of the five siblings.

Under the terms and conditions of the Share Exchange Agreement, we offered and sold 1,250,000 shares of common stock of the Company in consideration for all the issued and outstanding shares in Edible Garden. Separately, Amy Almsteier, our majority shareholder, and an officer and director, offered and sold 6,750,000 of her 12,500,000 shares of Series B Preferred Stock to Ken VandeVrede, Mike VandeVrede, Steve VandeVrede and Dan VandeVrede, Beverly Willekes, and David VandeVrede (collectively, the “Edible Garden Shareholders”), each of whom acquired the Series B Preferred Stock on a pro-rata basis, based on their respective parentage equity interest in Edible Garden immediately prior to the consummation of the Share Exchange Agreement.

Each share of Series B Preferred Stock is convertible, at any time, at the option of the holder, on a 1-for-5.384325537 basis, into shares of common stock and has voting rights equal to 100 shares of common stock. The 6,750,000 shares of Series B Preferred Stock is convertible at any time into 41,290,091 shares of common stock and have voting power equal to 675,000,000 shares of common stock. The effect of the issuance of the 1,250,000 shares of common stock of the Company and sale of the 6,750,000 shares of Series B Preferred Stock is that Edible Garden Shareholders now hold approximately 25.7% of the issued and outstanding shares of common stock of the Company and approximately 43.3% of the voting power of the Company. Articles of Exchange, consummating the share exchange, were filed with the Secretary of the State of Nevada on April 24, 2013.

As a result of the share exchange Edible Garden is now a wholly-owned subsidiary of the Company. Edible Garden is a retailer seller of its line of locally grown hydroponic produce, which is distributed throughout the Northeast United States. Edible Garden, a premier brand of sustainably grown produce, has rapidly expanded its product availability from just over 100 retail stores to covering close to 400 retailers throughout New Jersey, Connecticut, Delaware, Maryland, New York and Pennsylvania in less than a year. The Company believes that this rapid expansion has been due to consumers demanding fresher produce grown locally using environmentally sustainable methods.

Common Stock Purchase Agreement with Hanover Holdings

On April 29, 2013 (the “Closing Date”), the Company entered into a Common Stock Purchase Agreement dated as of April 26, 2013 (the “Purchase Agreement”) with Hanover Holdings I, LLC, a New York limited liability company (the “Investor”). The Purchase Agreement provides that, upon the terms and subject to the conditions set forth therein, the Investor is committed to purchase up to \$5,000,000 (the “Total Commitment”) worth of the Company’s common stock, \$0.001 par value (the “Shares”), over the 36-month term of the Purchase Agreement.

From time to time over the term of the Purchase Agreement, commencing on the trading day immediately following the date on which the initial registration statement is declared effective by the Securities and Exchange Commission (the “Commission”), as further discussed below, the Company may, in its sole discretion, provide the Investor with draw down notices (each, a “Draw Down Notice”) to purchase a specified dollar amount of the Shares (the “Draw Down Amount”) over a 10 consecutive trading day period, commencing on the trading day specified in the applicable Draw Down Notice (the “Pricing Period”), with each draw down subject to the limitations discussed below. The maximum amount of Shares requested to be purchased pursuant to any single Draw Down Notice cannot exceed 300% of the average daily trading volume of the Company’s common stock for the ten trading days immediately preceding the date of the Draw Down Notice (the “Maximum Draw Down Amount”).

Once presented with a Draw Down Notice, the Investor is required to purchase a pro rata portion of the applicable Draw Down Amount on each trading day during the applicable Pricing Period on which the daily volume weighted average price for our common stock (the “VWAP”) equals or exceeds a floor price determined by the Company for such draw down (the “Floor Price”). If the VWAP falls below the applicable Floor Price on any trading day during the applicable Pricing Period, the Purchase Agreement provides that the Investor will not be required to purchase the pro rata portion of the applicable Draw Down Amount allocated to that trading day. The per share purchase price for the Shares subject to a Draw Down Notice shall be equal to 92.5% of the arithmetic average of the lowest VWAPs that equal or exceed the applicable Floor Price during the applicable Pricing Period; provided, however, that if the VWAP does not equal or exceed the applicable Floor Price for at least five trading days during the applicable Pricing Period, then the per share purchase price shall be equal to 92.5% of the arithmetic average of all VWAPs that equal or exceed the applicable Floor Price during such Pricing Period. Each purchase pursuant to a draw down shall reduce, on a dollar-for-dollar basis, the Total Commitment under the Purchase Agreement.

The Company is prohibited from issuing a Draw Down Notice if (i) the amount requested in such Draw Down Notice exceeds the Maximum Draw Down Amount, (ii) the sale of Shares pursuant to such Draw Down Notice would cause the Company to issue or sell or the Investor to acquire or purchase an aggregate dollar value of Shares that would exceed the Total Commitment, or (iii) the sale of Shares pursuant to the Draw Down Notice would cause the Company to sell or the Investor to purchase an aggregate number of shares of the Company’s common stock which would result in beneficial ownership by the Investor of more than 4.99% of the Company’s common stock (as calculated pursuant to Section 13(d) of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder). The Company cannot make more than one draw down in any Pricing Period and must allow 24 hours to elapse between the completion of the settlement of any one draw down and the commencement of a Pricing Period for any other draw down.

If the Company issues a Draw Down Notice and fails to deliver the shares to the Investor on the applicable settlement date, and such failure continues for 10 trading days, the Company agreed to pay the Investor, in addition to all other remedies available to the Investor under the Purchase Agreement, an amount in cash equal to 2.0% of the purchase price of such shares for each 30-day period the shares are not delivered, plus accrued interest.

Additionally, the Company paid to the Investor a commitment fee equal to \$125,000 (or 2.5 % of the Total Commitment under the Purchase Agreement) in the form of 595,239 restricted shares of the Company’s common stock (the “Initial Commitment Shares”), calculated at a price equal to \$0.21 per share. The Initial Commitment Shares are registered for resale and being offered under this Prospectus.

The Purchase Agreement also provides for indemnification of the Investor and its affiliates in the event that the Investor incurs losses, liabilities, obligations, claims, contingencies, damages, costs and expenses related to a breach by the Company of any of its representations and warranties under the Purchase Agreement or the other related transaction documents or any action instituted against the Investor or its affiliates due to the transactions contemplated by the Purchase Agreement or other transaction documents, subject to certain limitations.

The Company agreed to pay up to \$15,000 of reasonable attorneys' fees and expenses incurred by the Investor in connection with the preparation, negotiation, execution and delivery of the Purchase Agreement and related transaction documentation.

Registration Rights Agreement with Hanover Holdings

In connection with the execution of the Purchase Agreement, on April 29, 2013, the Company and the Investor also entered into a Registration Rights Agreement dated as of the Closing Date (the "Registration Rights Agreement"). Pursuant to the Registration Rights Agreement, the Company has agreed to file an initial registration statement ("Registration Statement") with the Commission to register an agreed upon number of Shares, on or prior to April 29, 2013 (the "Filing Deadline") and have it declared effective at the earlier of (A) the 90th calendar day after the earlier of (1) the Filing Deadline and (2) the date of which such initial Registration Statement is filed with the Commission and (B) the fifth business day after the date the Company is notified by the Commission that such Registration Statement will not be reviewed or will not be subject to further review (the "Effectiveness Deadline").

If at any time all of the Registrable Securities (as defined in the Registration Rights Agreement) are not covered by the initial Registration Statement, the Company has agreed to file with the Commission one or more additional Registration Statements so as to cover all of the Registrable Securities not covered by such initial Registration Statement, in each case, as soon as practicable, but in no event later than the applicable filing deadline for such additional Registration Statements as provided in the Registration Rights Agreement.

The Company also agreed, among other things, to indemnify the Investor from certain liabilities and fees and expenses of the Investor incident to the Company's obligations under the Registration Rights Agreement, including certain liabilities under the Securities Act of 1933, as amended (the "Securities Act"). The Investor has agreed to indemnify and hold harmless the Company and each of its directors, officers and persons who control the Company against certain liabilities that may be based upon written information furnished by the Investor to the Company for inclusion in a registration statement pursuant to the Registration Rights Agreement, including certain liabilities under the Securities Act.

(1) The Selling Shareholders are offering 13,211,144 shares of common stock underlying the Debentures at the market price or at negotiated prices.

Purchase Agreement

This offering relates to the resale of up to an aggregate of \$5,000,000 in put shares ("Put Shares") that we may put to Hanover Holdings pursuant to the Purchase Agreement. Assuming the resale of all 30,303,031 shares offered in this prospectus as Put Shares, this would constitute approximately 34.8% of our outstanding common stock. It is likely that the number of shares offered in this registration statement is insufficient to allow us to receive the full amount of proceeds under the Purchase Agreement.

At the average of the high and low prices of the common stock of the Company as reported on the OTCBB on May 6, 2013 of \$0.165 per share, we will be able to receive up to \$5,000,000 in gross proceeds, assuming the sale of the entire 30,303,031 Put Shares being registered hereunder pursuant to the Purchase Agreement.

The amount of \$5,000,000 was selected based on our potential use of funds over the effective time period to acquire targeted businesses, including their intellectual property, and scale our business at a rapid rate. Our ability to receive the full amount is largely dependent on the daily dollar volume of stock traded during the effective period. Based strictly on the current daily trading dollar volume up to December 2012, we believe it is unlikely that we will be able to receive the entire \$5,000,000. We are not dependent on receiving the full amount to execute our business plan and in February 2012 we made our first major intellectual property acquisition by issuing 3 million shares of our common stock instead of paying cash. We believe that we can negotiate similar deals in the future and although our ability to receive the full \$5,000,000 would possibly speed our rate of growth, it is not essential for us to achieve our long-term business objectives over time.

On April 29, 2013, we entered into the Purchase Agreement with Hanover Holdings pursuant to which, we have the right, for a thirty-six-month period, commencing on the date of the Purchase Agreement (but not before the date which the SEC first declares effective this registration statement) (the “Commitment Period”), of which this prospectus forms a part, registering the resale of the Put Shares by Hanover Holdings, to resell the Put Shares purchased by Hanover Holdings under the Purchase Agreement. As a condition for the execution of the Purchase Agreement, we issued 595,239 shares of our common stock to Hanover Holdings as a commitment fee.

In order to sell shares to Hanover Holdings under the Purchase Agreement, during the Commitment Period, the Company must deliver to Hanover Holdings a written put notice on any trading day (the “Put Date”), setting forth the dollar amount to be invested by Hanover Holdings (the “Put Notice”). For each share of our common stock purchased under the Purchase Agreement, Hanover Holdings will pay of the arithmetic average of the lowest VWAPs reported by Bloomberg Finance L.P. in a ten consecutive trading day period commencing with the date a put notice is delivered (the “Valuation Period”). The Company may, at its sole discretion, issue a Put Notice to Hanover Holdings and Hanover Holdings will then be irrevocably bound to acquire such shares.

The Purchase Agreement provides that the number of Put Shares to be sold to Hanover Holdings shall not exceed the number of shares that when aggregated together with all other shares of the Company’s common stock which Hanover Holdings is deemed to beneficially own, would result in Hanover Holdings owning more than 4.99% of the Company’s outstanding common stock. The Purchase Agreement provides that any provision of the Purchase Agreement may be amended or waived only by an instrument in writing signed by the party to be charged with enforcement. The Company and Hanover Holdings have entered into an enforceable oral agreement that neither will amend or waive any provision in the Purchase Agreement that alters the pricing mechanism or the 4.99% ownership cap which will result in the transaction becoming ineligible to be made on a shelf basis under Rule 415(a)(1)(i).

If, during any Valuation Period, the Company (i) subdivides or combines the common stock; (ii) pays a dividend in shares of common stock or makes any other distribution of shares of common stock; (iii) issues any options or other rights to subscribe for or Debenture Shares of common stock and the price per share is less than closing price in effect immediately prior to such issuance; (iv) issues any securities convertible into shares of common stock and the consideration per share for which shares of common stock may at any time thereafter be issuable pursuant to the terms of such convertible securities shall be less than the closing price in effect immediately prior to such issuance; (v) issue shares of common stock otherwise than as provided in the foregoing subsections (i) through (iv) at a price per share less than the closing price in effect immediately prior to such issuance, or without consideration; or (vi) makes a distribution of its assets or evidences of its indebtedness to the holders of common stock as a dividend in liquidation or by way of return of capital or other than as a dividend payable out of earnings or surplus legally available for dividends under applicable law (collectively, a “Valuation Event”), then a new Valuation Period shall begin on the trading day immediately after the occurrence of such Valuation Event and end on the fifth trading day thereafter.

We are relying on an exemption from the registration requirements of the Securities Act and/or Rule 506 of Regulation D promulgated thereunder. The transaction does involve a private offering, Hanover Holdings is an “accredited investor” and/or qualified institutional buyer and Hanover Holdings has access to information about us and its investment.

Assuming the sale of the entire \$5,000,000 in Put Shares being registered hereunder pursuant to the Purchase Agreement, we will be able to receive \$5,000,000 in gross proceeds. Neither the Purchase Agreement nor any rights or obligations of the parties under the Purchase Agreement may be assigned by either party to any other person.

There are substantial risks to investors as a result of the issuance of shares of our common stock under the Purchase Agreement. These risks include dilution of stockholders, significant decline in our stock price and our inability to draw sufficient funds when needed.

Hanover Holdings will periodically purchase our common stock under the Purchase Agreement and will, in turn, sell such shares to investors in the market at the market price. This may cause our stock price to decline, which will require us to issue increasing numbers of common shares to Hanover Holdings to raise the same amount of funds, as our stock price declines.

RISK FACTORS

You should carefully consider the risks described below together with all of the other information included in our public filings before making an investment decision with regard to our securities. If any of the following events described in these risk factors actually occurs, our business, financial condition or results of operations could be harmed. In that case, the trading price of our common stock could decline, and you may lose all or part of your investment.

RISKS RELATING TO OUR BUSINESS AND INDUSTRY

We are a development stage company with a limited operating history on which to evaluate our business or base an investment decision.

Our business prospects are difficult to predict because of our limited operating history, early stage of development and unproven business strategy. We are a development stage company that has generated nominal revenues. In particular, we have not proven that we can supply hydroponic growing equipment in a manner that enables us to be profitable and meet customer requirements, develop intellectual property to enhance Terra Tech product line, develop and maintain relationships with key manufacturers and strategic partners to extract value from our intellectual property, raise sufficient capital in the public and/or private markets, or respond effectively to competitive pressures. If we are unable to accomplish these goals, our business is unlikely to succeed and you should consider our prospects in light of these risks, challenges and uncertainties.

We have insignificant revenues and have incurred losses.

Our auditors have expressed uncertainty as to our ability to continue as a going concern as of our fiscal year ended December 31, 2011. Furthermore, since inception we have generated nominal revenues. For the year ended December 31, 2012, we had an accumulated deficit of \$8,688,967. We anticipate that our existing cash and cash equivalents will not be sufficient to fund our longer term business needs and we will need to generate revenue or receive additional investment in the Company to continue operations. Such financing may not be available in sufficient amounts, or on terms acceptable to us and may dilute existing stockholders.

If we fail to raise additional capital, our ability to implement our business model and strategy could be compromised.

We have limited capital resources and operations. To date, our operations have been funded entirely from the proceeds from debt and equity financings. We expect to require substantial additional capital in the near future to develop our intellectual property base and to establish the targeted levels of commercial production of Terra Tech. We may not be able to obtain additional financing on terms acceptable to us, or at all. Even if we obtain financing for our near term operations, we expect that we will require additional capital beyond the near term. If we are unable to raise capital when needed, our business, financial condition and results of operations would be materially adversely affected, and we could be forced to reduce or discontinue our operations.

We face intense competition which could prohibit us from developing a customer base and generating revenue.

The industries within which we compete, are highly competitive with companies that have greater capital resources, facilities and diversity of product lines. Additionally, if demand for Terra Tech's hydroponic growing equipment continues to grow, we expect many new competitors to enter the market as there are no significant barriers to hydroponic growing equipment production. More established hydroponic growing equipment companies with much greater financial resources which do not currently compete with us may be able to easily adapt their existing operations to production of hydroponic growing equipment. Due to this competition, there is no assurance that we will not encounter difficulties in obtaining revenues and market share or in the positioning of our products or that competition in the industry will not lead to reduced prices for Terra Tech's hydroponic growing equipment. Our competitors may also introduce new hydroponic growing equipment which could also increase competition and decrease demand for Terra Tech's hydroponic growing equipment products.

Inability to protect our proprietary rights could damage our competitive position.

Our business will be heavily dependent upon the intellectual property we develop or acquire. Any infringement or misappropriation of our intellectual property could damage its value and limit our ability to compete. We will rely on patents, copyrights, trademarks, trade secrets, confidentiality provisions and licensing arrangements to establish and protect our intellectual property. We may have to engage in litigation to protect the rights to our intellectual property, which could result in significant litigation costs and require a significant amount of our time. In addition, our ability to enforce and protect our intellectual property rights may be limited in certain countries outside the United States, which could make it easier for competitors to capture market position in such countries by utilizing technologies that are similar to those developed or licensed by us.

Competitors may also harm our sales by designing products that mirror the capabilities of our products or technology without infringing our intellectual property rights. If we do not obtain sufficient protection for our intellectual property, or if we are unable to effectively enforce our intellectual property rights, our competitiveness could be impaired, which would limit our growth and future revenue.

A successful claim of infringement against us could result in a substantial damage award and materially harm our financial condition. Even if a claim against us is unsuccessful, we would likely have to devote significant time and resources to defending against it.

We may also find it necessary to bring infringement or other actions against third parties to seek to protect our intellectual property rights. Litigation of this nature, even if successful, is often expensive and disruptive of a company's management's attention, and in any event may not lead to a successful result relative to the resources dedicated to any such litigation.

The effects of the recent global economic slowdown may continue to have a negative impact on our business, results of operations or financial condition.

The recent global economic slowdown has caused disruptions and extreme volatility in global financial markets, increased rates of default and bankruptcy, and declining consumer and business confidence, which has led to decreased levels of consumer spending. These macroeconomic developments have and could continue to negatively impact our business, which depends on the general economic environment and levels of consumer spending. As a result, we may not be able to maintain our existing customers or attract new customers, or we may be forced to reduce our service fees. If the global economic slowdown continues for a significant period or continues to worsen, our results of operations, financial condition, and cash flows could be materially adversely affected.

If we need additional capital to fund our growing operations, we may not be able to obtain sufficient capital and may be forced to limit the scope of our operations.

If adequate additional financing is not available on reasonable terms, we may not be able to expand our production lines and we would have to modify our business plans accordingly. There is no assurance that additional financing will be available to us.

In connection with our growth strategies, we may experience increased capital needs and accordingly, we may not have sufficient capital to fund our future operations without additional capital investments. Our capital needs will depend on numerous factors, including (i) our profitability; (ii) the release of competitive products by our competition; (iii) the level of our investment in research and development; and (iv) the amount of our capital expenditures, including acquisitions. We cannot assure you that we will be able to obtain capital in the future to meet our needs.

In recent years, the securities markets in the United States have experienced a high level of price and volume volatility, and the market price of securities of many companies have experienced wide fluctuations that have not necessarily been related to the operations, performances, underlying asset values or prospects of such companies. For these reasons, our securities can also be expected to be subject to volatility resulting from purely market forces over which we will have no control. If we need additional funding we will, most likely, seek such funding in the United States and the market fluctuations affect on our stock price could limit our ability to obtain equity financing.

If we cannot obtain additional funding, we may be required to: (i) limit our expansion; (ii) limit our marketing efforts; and (iii) decrease or eliminate capital expenditures. Such reductions could materially adversely affect our business and our ability to compete.

Even if we do find a source of additional capital, we may not be able to negotiate terms and conditions for receiving the additional capital that are favorable to us. Any future capital investments could dilute or otherwise materially and adversely affect the holdings or rights of our existing shareholders. In addition, new equity or convertible debt securities issued by us to obtain financing could have rights, preferences and privileges senior to the units. We cannot give you any assurance that any additional financing will be available to us, or if available, will be on terms favorable to us.

Federal practices could change with respect to providers of equipment potentially usable by participants in the medical cannabis industry, which could adversely impact us.

We are not aware of any threatened or current federal or state law enforcement actions against manufacturers of horticultural equipment that might be used by medical cannabis gardeners. We are, however, aware that more than 20 years ago, law enforcement authorities did initiate raids, at some retail stores where operators evidently knew they were selling hydroponic equipment directly to customers who indicated they intended use it for the cultivation of recreational marijuana, and at the addresses of certain customers of such retail stores. Those raids took place decades ago and in a different legal landscape, well before the legalization of medical cannabis by any state. We are unaware of any threatened or actual law enforcement activity, ever, against manufacturers or retailers of supplies marketed for usage by participants in the emerging medical cannabis industry.

A theoretical risk exists that our activities could be deemed to be facilitating the selling or distribution of marijuana in violation of the federal Controlled Substances Act, or to constitute aiding or abetting, or being an accessory to, a violation of that Act. We believe, however, that such a risk is relatively low. Federal authorities have not focused their resources on such tangential or secondary violations of the Act, nor have they threatened to do so, with respect to the manufacture or sale of equipment that might be used by medical cannabis gardeners, or with respect to any supplies marketed to participants in the emerging medical cannabis industry. We are unaware of such a broad application of the Controlled Substances Act by federal authorities, and we believe that such an attempted application would be unprecedented.

If the federal government were to change its practices, or were to expend its resources attacking providers of equipment that could be usable by participants in the medical cannabis industry, such action could have a materially adverse effect on our operations, our customers, or the sales of our products.

It is possible that federal or state legislation could be enacted in the future that would prohibit us or our customers from selling our products to medical cannabis growers, and if such legislation were enacted, our revenues could decline, leading to a loss in your investment.

There is currently no federal or state regulation that regulates the sale indoor cultivation equipment to medical cannabis growers. We believe that a material portion of our product sales are to medical cannabis growers. If federal and/or state legislation is enacted which prohibits the sale our hydroponic growing equipment to medical cannabis growers, our revenues would decline, leading to a loss of a material portion of your investment.

Continued federal intervention in certain segments of the medical cannabis industry is disruptive to the industry, and may have a negative impact on us.

Following more than two years of a relatively accommodative stance by the federal government regarding state-sanctioned medical cannabis, in approximately October of 2011, the federal government renewed a crackdown against medical cannabis providers, causing the closure of numerous retail dispensaries. The current federal attacks on medical cannabis providers appear to be targeted primarily at retail dispensaries and their landlords, and to a lesser extent at large gardens licensed by local governmental authorities. Those tactics are presumably in use by federal authorities because information regarding dispensaries and licensed entities is easily available or ascertainable, and because such entities are *directly* involved with actual trade in cannabis.

We believe that demand for our products is likely to remain relatively constant despite the recent federal intervention in some segments of the medical cannabis industry. We expect the level of consumption of medical cannabis to remain relatively constant, because as some dispensaries are forced to close, more patients will patronize the establishments that remain open, or more patients will rely on delivery services, which have flourished in areas where a large number of dispensaries have been forced to close, and which are harder targets for federal authorities to identify and attack. Moreover, very few local governments ever licensed medical cannabis gardens. It is our observation that licensed gardens have been readily replaced by unlicensed gardens in the same or other local jurisdictions. Accordingly, we expect the number of gardeners buying our products to remain relatively unaffected despite federal interference in some segments of the medical cannabis industry.

Although we expect minimal impact on the Company from the federal government's renewed crackdown on medical cannabis providers, the disruption to the medical cannabis industry could cause some potential customers to be more reluctant to invest in new equipment, including the Company's equipment, or the federal government's tactics may change or have unforeseen effects, which could be detrimental to the Company.

The failure to hire additional employees could harm our business.

Our future success also depends upon our continuing ability to attract and retain highly qualified personnel. Expansion of our business and the management and operation will require additional managers and employees with industry experience, and our success will be highly dependent on our ability to attract and retain skilled management personnel and other employees. There can be no assurance that we will be able to attract or retain highly qualified personnel. Competition for skilled personnel in our industries is significant. This competition may make it more difficult and expensive to attract, hire and retain qualified managers and employees.

Confidentiality agreements with employees and others may not adequately prevent disclosure of our trade secrets and other proprietary information.

Our success depends upon the skills, knowledge and experience of our technical personnel, our consultants and advisors as well as our licensors and contractors. Because we operate in a highly competitive field, we will rely significantly on trade secrets to protect our proprietary technology and processes. However, trade secrets are difficult to protect. We enter into confidentiality and intellectual property assignment agreements with our corporate partners, employees, consultants, outside scientific collaborators, developers and other advisors. These agreements generally require that the receiving party keep confidential and not disclose to third parties confidential information developed by us during the course of the receiving party's relationship with us. These agreements also generally provide that inventions conceived by the receiving party in the course of rendering services to us will be our exclusive property. However, these agreements may be breached and may not effectively assign intellectual property rights to us. Our trade secrets also could be independently discovered by competitors, in which case we would not be able to prevent use of such trade secrets by our competitors. The enforcement of a claim alleging that a party illegally obtained and was using our trade secrets could be difficult, expensive and time consuming and the outcome would be unpredictable. In addition, courts outside the United States may be less willing to protect trade secrets. The failure to obtain or maintain meaningful trade secret protection could adversely affect our competitive position.

If we are unable to deliver a consistent, high quality hydroponic growing equipment at sufficient volumes, our relationship with our customers may suffer and our operating results will be adversely affected.

Terra Tech customers expect us to be able to consistently deliver our hydroponic growing equipment at sufficient volumes, while meeting their established quality standards. If we are unable to consistently deliver such volumes, our relationship with these manufacturers could be adversely affected which could have a negative impact on our operating results.

Failure to effectively manage growth of internal operations and business may strain our financial resources.

We intend to significantly expand the scope of our hydroponic growing equipment distribution operations activities in the near term. Our growth rate may place a significant strain on our financial resources for a number of reasons, including, but not limited to, the following:

- The need for continued development of our financial and information management systems;
- The need to manage strategic relationships and agreements with manufacturers, customers and partners; and
- Difficulties in hiring and retaining skilled management, technical and other personnel necessary to support and manage our business.

Additionally, our strategy envisions a period of rapid growth that may impose a significant burden on our administrative and operational resources. Our ability to effectively manage growth will require us to substantially expand the capabilities of our administrative and operational resources and to attract, train, manage and retain qualified management and other personnel. Our failure to successfully manage growth could result in our sales not increasing commensurately with capital investments. Our inability to successfully manage growth could materially adversely affect our business.

If we are unable to continually innovate and increase efficiencies, our ability to attract new customers may be adversely affected.

In the area of innovation, we must be able to develop new hydroponic growing equipment and other technologies that appeal to Terra Tech customers. This depends, in part, on the technological and creative skills of our personnel and on our ability to protect our intellectual property rights. We may not be successful in the development, introduction, marketing and sourcing of new technologies or innovations, that satisfy customer needs, achieve market acceptance or generate satisfactory financial returns.

Global economic conditions may adversely affect our industry, business and result of operations.

Disruptions in the global credit and financial market could result in diminished liquidity and credit availability, a decline in consumer confidence, a decline in economic growth, an increased unemployment rate, and uncertainty about economic stability. These economic uncertainties can affect businesses such as ours in a number of ways, making it difficult to accurately forecast and plan our future business activities. Such conditions can lead consumers to postpone spending, which can cause manufacturers to cancel, decrease or delay orders with us. We are unable to predict the likelihood of the occurrence, duration or severity of such disruptions in the credit and financial markets and adverse global economic conditions and such economic conditions could materially and adversely affect our business and results of operations.

Our business depends substantially on the continuing efforts of our executive officers and our business may be severely disrupted if we lose their services.

Our future success depends substantially on the continued services of our executive officers, especially our President and Chief Executive Officer, and Chairman of the Board of Directors, Mr. Derek Peterson. We do not maintain key man life insurance on any of our executive officers and directors. If one or more of our executive officers are unable or unwilling to continue in their present positions, we may not be able to replace them readily, if at all. Therefore, our business may be severely disrupted, and we may incur additional expenses to recruit and retain new officers. In addition, if any of our executives joins a competitor or forms a competing company, we may lose some of our customers.

Litigation may adversely affect our business, financial condition and results of operations.

From time to time in the normal course of our business operations, we may become subject to litigation that may result in liability material to our financial statements as a whole or may negatively affect our operating results if changes to our business operation are required. The cost to defend such litigation may be significant and may require a diversion of our resources. There also may be adverse publicity associated with litigation that could negatively affect customer perception of our business, regardless of whether the allegations are valid or whether we are ultimately found liable. As a result, litigation may adversely affect our business, financial condition and results of operations.

Our officers and directors have significant control over shareholder matters and the minority shareholders will have little or no control over our affairs.

Our officers and directors currently own approximately 12.8% of our outstanding common stock, and through the ownership of preferred stock, have approximately 95% of shareholder voting power, and thus significant control over shareholder matters, such as election of directors, amendments to its Articles of Incorporation, and approval of significant corporate transactions; as a result, the Company's minority shareholders will have little or no control over its affairs.

We may be required to incur significant costs and require significant management resources to evaluate our internal control over financial reporting as required under Section 404 of the Sarbanes-Oxley Act, and any failure to comply or any adverse result from such evaluation may have an adverse effect on our stock price.

As a smaller reporting company as defined in Rule 12b-2 under the Securities Exchange Act of 1934, as amended, we are required to evaluate our internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act of 2002 ("Section 404"). Section 404 requires us to include an internal control report with our Annual Report on Form 10-K. This report must include management's assessment of the effectiveness of our internal control over financial reporting as of the end of the fiscal year. This report must also include disclosure of any material weaknesses in internal control over financial reporting that we have identified. Failure to comply, or any adverse results from such evaluation could result in a loss of investor confidence in our financial reports and have an adverse effect on the trading price of our equity securities. As of September 30, 2012, the management of the Company assessed the effectiveness of the Company's internal control over financial reporting based on the criteria for effective internal control over financial reporting established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") and SEC guidance on conducting such assessments. Management concluded, as of the quarter ended September 30, 2012, that its internal controls and procedures were not effective to detect the inappropriate application of U.S. GAAP rules. Management realized there were deficiencies in the design or operation of our internal control that adversely affected our internal controls which management considers to be material weaknesses including those described below:

- We have not achieved the optimal level of segregation of duties relative to key financial reporting functions.
- We do not have an audit committee or an independent audit committee financial expert. While not being legally obligated to have an audit committee or independent audit committee financial expert, it is the management's view that to have an audit committee, comprised of independent board members, and an independent audit committee financial expert is an important entity-level control over our financial statements.

Achieving continued compliance with Section 404 may require us to incur significant costs and expend significant time and management resources. No assurance can be given that we will be able to fully comply with Section 404 or that we and our independent registered public accounting firm would be able to conclude that our internal control over financial reporting is effective at fiscal year end. As a result, investors could lose confidence in our reported financial information, which could have an adverse effect on the trading price of our securities, as well as subject us to civil or criminal investigations and penalties. In addition, our independent registered public accounting firm may not agree with our management's assessment or conclude that our internal control over financial reporting is operating effectively.

Our insurance coverage may be inadequate to cover all significant risk exposures.

We will be exposed to liabilities that are unique to the products we provide. While we intend to maintain insurance for certain risks, the amount of our insurance coverage may not be adequate to cover all claims or liabilities, and we may be forced to bear substantial costs resulting from risks and uncertainties of our business. It is also not possible to obtain insurance to protect against all operational risks and liabilities. The failure to obtain adequate insurance coverage on terms favorable to us, or at all, could have a material adverse effect on our business, financial condition and results of operations. We do not have any business interruption insurance. Any business disruption or natural disaster could result in substantial costs and diversion of resources.

RISKS RELATED TO AN INVESTMENT IN OUR SECURITIES

Our shares of common stock are thinly traded, and the price may not reflect our value and there can be no assurance that there will be an active market for our shares of common stock either now or in the future.

Although our common stock is quoted on the Over-the-Counter Bulletin Board, our shares of common stock are thinly traded and the price of our common stock, if traded, may not reflect our value. There can be no assurance that there will be an active market for our shares of common stock either now or in the future. Market liquidity will depend on the perception of our operating business and any steps that our management might take to bring us to the awareness of investors. There can be no assurance given that there will be any awareness generated. Consequently, investors may not be able to liquidate their investment or liquidate it at a price that reflects the value of the business. As a result holders of our securities may not find purchasers our securities should they to sell securities held by them. Consequently, our securities should be purchased only by investors having no need for liquidity in their investment and who can hold our securities for an indefinite period of time.

If a more active market should develop, the price of our shares of common stock may be highly volatile. Because there may be a low price for our shares of common stock, many brokerage firms may not be willing to effect transactions in our securities. Even if an investor finds a broker willing to effect a transaction in the shares of our common stock, the combination of brokerage commissions, transfer fees, taxes, if any, and any other selling costs may exceed the selling price. Further, many lending institutions will not permit the use of such shares of common stock as collateral for any loans.

The relative lack of public company experience of our management team could adversely impact our ability to comply with the reporting requirements of U.S. Securities Laws.

Our management team lacks public company experience, which could impair our ability to comply with legal and regulatory requirements such as those imposed by Sarbanes-Oxley Act of 2002. Our senior management has little experience in managing a publicly traded company. Such responsibilities include complying with federal securities laws and making required disclosures on a timely basis. Our senior management may not be able to implement programs and policies in an effective and timely manner that adequately respond to such increased legal, regulatory compliance and reporting requirements, including the establishing and maintaining of internal controls over financial reporting. Any such deficiencies, weaknesses or lack of compliance could have a materially adverse effect on our ability to comply with the reporting requirements of the Securities Exchange Act of 1934 which is necessary to maintain our public company status. If we were to fail to fulfill those obligations, our ability to continue as a U.S. public company would be in jeopardy in which event you could lose your entire investment in our company.

Our stock is categorized as a penny stock. Trading of our stock may be restricted by the SEC's penny stock regulations which may limit a stockholder's ability to buy and sell our stock.

Our stock is categorized as a "penny stock". The SEC has adopted Rule 15c-9 which generally defines "penny stock" to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and accredited investors. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

FINRA sales practice requirements may also limit a stockholder's ability to buy and sell our stock.

In addition to the "penny stock" rules described above, the Financial Industry Regulatory Authority ("FINRA") has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, FINRA believes that there is a high probability that speculative low priced securities will not be suitable for at least some customers. The FINRA requirements make it more difficult for broker-dealers to recommend that their customers buy our common stock, which may limit your ability to buy and sell our stock and have an adverse effect on the market for our shares.

We expect to experience volatility in our stock price, which could negatively affect stockholders' investments.

Although our common stock is quoted on the OTCBB under the symbol "TRTC", there is a limited public market for our common stock. No assurance can be given that an active market will develop or that a stockholder will ever be able to liquidate its shares of common stock without considerable delay, if at all. Many brokerage firms may not be willing to effect transactions in the securities. Even if a purchaser finds a broker willing to effect a transaction in these securities, the combination of brokerage commissions, state transfer taxes, if any, and any other selling costs may exceed the selling price. Furthermore, our stock price may be impacted by factors that are unrelated or disproportionate to our operating performance. These market fluctuations, as well as general economic, political and market conditions, such as recessions, interest rates or international currency fluctuations may adversely affect the market price and liquidity of our common stock.

In the past, securities class action litigation has often been brought against a company following periods of volatility in the market price of its securities. Due to the volatility of our common stock price, we may be the target of securities litigation in the future. Securities litigation could result in substantial costs and divert management's attention and resources.

Stockholders should also be aware that, according to SEC Release No. 34-29093, the market for "penny stock", such as our common stock, has suffered in recent years from patterns of fraud and abuse. Such patterns include (1) control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer; (2) manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases; (3) boiler room practices involving high-pressure sales tactics and unrealistic price projections by inexperienced sales persons; (4) excessive and undisclosed bid-ask differential and markups by selling broker-dealers; and (5) the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the resulting inevitable collapse of those prices and with consequent investor losses. Our management is aware of the abuses that have occurred historically in the penny stock market. Although we do not expect to be in a position to dictate the behavior of the market or of broker-dealers who participate in the market, management will strive within the confines of practical limitations to prevent the described patterns from being established with respect to our securities. The occurrence of these patterns or practices could increase the future volatility of our share price.

The elimination of monetary liability against our directors, officers and employees under Nevada law and the existence of indemnification rights to our directors, officers and employees may result in substantial expenditures by our company and may discourage lawsuits against our directors, officers and employees.

Our Articles of Incorporation contain a provision permitting us to eliminate the personal liability of our directors to our company and stockholders for damages for breach of fiduciary duty as a director or officer to the extent provided by Nevada law. We may also have contractual indemnification obligations under our employment agreements with our officers. The foregoing indemnification obligations could result in the Company incurring substantial expenditures to cover the cost of settlement or damage awards against directors and officers, which we may be unable to recoup. These provisions and resultant costs may also discourage our company from bringing a lawsuit against directors and officers for breaches of their fiduciary duties, and may similarly discourage the filing of derivative litigation by our stockholders against our directors and officers even though such actions, if successful, might otherwise benefit our company and stockholders.

Certain restrictions on the extent of puts may have little, if any, effect on the adverse impact of our issuance of shares in connection with the Purchase Agreement, and as such, Hanover Holdings may sell a large number of shares, resulting in substantial dilution to the value of shares held by existing stockholders.

Hanover Holdings has agreed to refrain from holding an amount of shares which would result in Hanover Holdings owning more than 4.99% of the then-outstanding shares of our common stock at any one time. These restrictions, however, do not prevent Hanover Holdings from selling shares of common stock received in connection with a put, and then receiving additional shares of common stock in connection with a subsequent put. In this way, Hanover Holdings could sell more than 4.99% of the outstanding common stock in a relatively short time frame while never holding more than 4.99% at one time.

Because Hanover Holdings will be paying less than the then-prevailing market price for our common stock, your ownership interest may be diluted and the value of our common stock may decline by exercising the put right pursuant to the Purchase Agreement.

The common stock to be issued to Hanover Holdings pursuant to the Purchase Agreement will be purchased at a price equal to 92.5% of the arithmetic average of the lowest VWAPs that equal or exceed the applicable Floor Price during the applicable Pricing Period in a ten consecutive trading day period commencing with the date a put notice is delivered. Because the put price is lower than the prevailing market price of our common stock, to the extent that the put right is exercised, your ownership interest may be diluted. Hanover Holdings has a financial incentive to sell our common stock immediately upon receiving the shares to realize the profit equal to the difference between the discounted price and the market price. If Hanover Holdings sells the shares, the price of our common stock could decrease. If our stock price decreases, Hanover Holdings may have a further incentive to sell the shares of our common stock that it holds. These sales may have a further adverse impact on our stock price.

The Purchase Agreement's pricing structure may result in dilution to our stockholders.

Pursuant to the Purchase Agreement, Hanover Holdings committed to purchase, subject to certain conditions, up to \$5,000,000 of our common stock over a sixteen-month period. If we sell shares to Hanover Holdings under the Purchase Agreement, it will have a dilutive effect on the holdings of our current stockholders, and may result in downward pressure on the price of our common stock. If we draw down amounts under the Purchase Agreement, we will issue shares to Hanover Holdings at a discount. If we draw down amounts under the Purchase Agreement when our share price is decreasing, we will need to issue more shares to raise the same amount than if our stock price was higher. Issuances in the face of a declining share price will have an even greater dilutive effect than if our share price were stable or increasing, and may further decrease our share price.

If we issue additional shares in the future, whether in connection with a financing or in exchange for services or rights, it will result in the dilution of our existing stockholders.

Our articles of incorporation authorize the issuance of up to 350,000,000 shares of common stock with a par value of \$0.001 per share, and 25,000,000 shares have been designated as "blank check" preferred stock. Our Board of Directors may choose to issue some or all of such shares to acquire one or more companies or properties, to fund our overhead and general operating requirements and in exchange for services rendered to the Company. Such issuances may not require the approval of our stockholders. We have previously issued shares of our common stock in exchange for services provided to the Company and for certain rights, including as consideration for intellectual property rights. Any future issuances may reduce the book value per share and may contribute to a reduction in the market price of the outstanding shares of our common stock. If we issue any such additional shares in the future, such issuance will reduce the proportionate ownership and voting power of all current stockholders.

We may not be able to access sufficient funds pursuant to the terms of the Purchase Agreement.

Our ability to put shares to Hanover Holdings and obtain funds pursuant to the terms of the Purchase Agreement is limited, including restrictions on when we may exercise our put rights, restrictions on the amount we may put to Hanover Holdings at any one time, which is determined in part by the trading price of our common stock, and a limitation on Hanover Holdings's obligation to purchase if such purchase would result in Hanover Holdings beneficially owning more than 4.99% of our common stock. Accordingly, we may not be able to access sufficient funds when needed.

Anti-takeover effects of certain provisions of Nevada state law hinder a potential takeover of us.

Though not now, we may be or in the future we may become subject to Nevada's control share law. A corporation is subject to Nevada's control share law if it has more than 200 stockholders, at least 100 of whom are stockholders of record and residents of Nevada, and it does business in Nevada or through an affiliated corporation. The law focuses on the acquisition of a "controlling interest" which means the ownership of outstanding voting shares sufficient, but for the control share law, to enable the acquiring person to exercise the following proportions of the voting power of the corporation in the election of directors:

(i) one-fifth or more but less than one-third, (ii) one-third or more but less than a majority, or (iii) a majority or more. The ability to exercise such voting power may be direct or indirect, as well as individual or in association with others.

The effect of the control share law is that the acquiring person, and those acting in association with it, obtains only such voting rights in the control shares as are conferred by a resolution of the stockholders of the corporation, approved at a special or annual meeting of stockholders. The control share law contemplates that voting rights will be considered only once by the other stockholders. Thus, there is no authority to strip voting rights from the control shares of an acquiring person once those rights have been approved. If the stockholders do not grant voting rights to the control shares acquired by an acquiring person, those shares do not become permanent non-voting shares. The acquiring person is free to sell its shares to others. If the buyers of those shares themselves do not acquire a controlling interest, their shares do not become governed by the control share law.

If control shares are accorded full voting rights and the acquiring person has acquired control shares with a majority or more of the voting power, any stockholder of record, other than an acquiring person, who has not voted in favor of approval of voting rights is entitled to demand fair value for such stockholder's shares.

Nevada's control share law may have the effect of discouraging takeovers of the corporation.

In addition to the control share law, Nevada has a business combination law which prohibits certain business combinations between Nevada corporations and "interested stockholders" for three years after the "interested stockholder" first becomes an "interested stockholder," unless the corporation's board of directors approves the combination in advance. For purposes of Nevada law, an "interested stockholder" is any person who is (i) the beneficial owner, directly or indirectly, of ten percent or more of the voting power of the outstanding voting shares of the corporation, or (ii) an affiliate or associate of the corporation and at any time within the three previous years was the beneficial owner, directly or indirectly, of ten percent or more of the voting power of the then outstanding shares of the corporation. The definition of the term "business combination" is sufficiently broad to cover virtually any kind of transaction that would allow a potential acquiror to use the corporation's assets to finance the acquisition or otherwise to benefit its own interests rather than the interests of the corporation and its other stockholders.

The effect of Nevada's business combination law is to potentially discourage parties interested in taking control of us from doing so if it cannot obtain the approval of our board of directors.

Because we do not intend to pay any cash dividends on our common stock, our stockholders will not be able to receive a return on their shares unless they sell them.

We intend to retain any future earnings to finance the development and expansion of our business. We do not anticipate paying any cash dividends on our common stock in the foreseeable future. Unless we pay dividends, our stockholders will not be able to receive a return on their shares unless they sell them. There is no assurance that stockholders will be able to sell shares when desired.

USE OF PROCEEDS

Selling Security Holders may sell all of the common stock offered by this Prospectus from time-to-time. We will not receive any proceeds from the sale of those shares of common stock. We may, however, receive up to aggregate gross proceeds of \$5,000,000 if all shares of common stock are sold to Hanover Holdings pursuant to the Purchase Agreement. Any such proceeds we receive will be used for working capital and general corporate matters.

DETERMINATION OF OFFERING PRICE

There currently is a limited public market for our common stock. Selling Security Holders will determine at what price they may sell the offered shares, and such sales may be made at prevailing market prices or at privately negotiated prices. See “Plan of Distribution” below for more information.

SELLING SECURITY HOLDERS

The Put Shares

We agreed to register for resale \$5,000,000 of Put Shares that we will put to Hanover Holdings pursuant to the Purchase Agreement. In accordance with Rule 415(a)(1)(i), we are registering 30,303,031 Put Shares in this offering. The Purchase Agreement provides that Hanover Holdings is committed to purchase up to \$5,000,000 of our common stock. We may draw on the facility from time to time, as and when we determine appropriate in accordance with the terms and conditions of the Purchase Agreement. We will not receive any proceeds from the sale of these shares of common stock offered by Hanover Holdings. However, we will receive proceeds from the sale of our Put Shares under the Purchase Agreement. The proceeds will be used for working capital or general corporate purposes.

Hanover Holdings is the potential purchaser of our common stock under the Purchase Agreement. The \$5,000,000 of Put Shares offered in this prospectus is based on the Purchase Agreement between Hanover Holdings and us. Hanover Holdings may from time to time offer and sell any or all of the Put Shares that are registered under this prospectus. The put option price is 92.5% of the arithmetic average of the lowest daily VWAP of our common stock of our common stock reported by Bloomberg Finance L.P. in a ten consecutive trading day period commencing with the date a put notice is delivered.

We are unable to determine the exact number of shares that will actually be sold by Hanover Holdings according to this prospectus due to:

- the ability of Hanover Holdings to determine when and whether it will sell any of the Put Shares under this prospectus; and
- the uncertainty as to the number of Put Shares that will be issued upon exercise of our put options under the Purchase Agreement.

The following information contains a description of how Hanover Holdings shall acquire the shares to be sold in this offering. Hanover Holdings has not held a position or office, or had any other material relationship with us, except as follows.

Hanover Holdings is a limited liability company organized and existing under the laws of the state of Delaware. All investment decisions of, and control of, Hanover Holdings is held by Joshua Sason. Mr. Sason has voting and investment power over the shares beneficially owned by Hanover Holdings. To the extent such shares are offered for sale through a Put Notice, Hanover Holdings will acquire all shares being registered in this offering in the financing transactions with us.

Hanover Holdings intends to sell up to \$5,000,000 of shares of our common stock pursuant to the Purchase Agreement under this prospectus. On April 29, 2013, the Company and Hanover Holdings entered into the Purchase Agreement pursuant to which we have the opportunity, for a sixteen-month period commencing on the date of the Purchase Agreement (but not before the date which the SEC first declares effective this registration statement), to sell shares of our common stock. For each share of our common stock purchased under the Purchase Agreement, Hanover Holdings will pay 92.5% of the arithmetic average of the lowest daily VWAP of our common stock of our common stock reported by Bloomberg Finance L.P. in a ten consecutive trading day period commencing with the date a put notice is delivered. As a condition for the execution of the Purchase Agreement, we issued 595,239 shares of our common stock to Hanover Holdings as a commitment fee.

We are relying on an exemption from the registration requirements of the Securities Act for the private placement of our securities under the Purchase Agreement pursuant to Section 4(2) of the Securities Act and/or Rule 506 of Regulation D promulgated thereunder. The transaction does not involve a public offering, Hanover Holdings is an “accredited investor” and/or qualified institutional buyer and Hanover Holdings has access to information about us and its investment.

There are substantial risks to investors as a result of the issuance of shares of our common stock under the Purchase Agreement. These risks include dilution of stockholders and significant decline in our stock price.

Hanover Holdings will periodically Redeem Shares of our common stock under the Purchase Agreement and will in turn, sell such shares to investors in the market at the prevailing market price. This may cause our stock price to decline, which will require us to issue increasing numbers of shares to Hanover Holdings to raise the same amount of funds, as our stock price declines.

Hanover Holdings is an “underwriter” within the meaning of the Securities Act.

The Debenture Shares

On March 22, 2013, we entered into a Securities Purchase Agreement (the “Securities Purchase Agreement”) with certain accredited investors (the “Purchasers”) pursuant to which we raised \$825,000 in a private placement financing (the “Offering”). On March 22, 2013, after the satisfaction of certain closing conditions, the Offering closed and we issued to the Purchasers three 6% Senior Secured Convertible Debentures for an aggregate proceeds of \$825,000. Each debenture accrues interest at a rate of 6% per annum and is convertible into shares of common stock of the Company, at any time at the election of the holder thereof, at a purchase price equal to 62% of the lowest daily volume weighted average price (or the “VWAP”) of the Company’s common stock as quoted by Bloomberg L.P. for the ten (10) trading days immediately preceding the conversion date. On April 19, 2013, the Company offered and sold an additional 6% Senior Secured Convertible Debenture for aggregate proceeds of \$250,000. On May 3, 2013, the Company offered and sold an additional 6% Senior Secured Convertible Debenture for aggregate proceeds of \$250,000.

However, the Selling Security Holders are under no obligation to sell all or any portion of such shares nor are the Selling Security Holders obligated to sell any shares immediately upon effectiveness of this prospectus. All information with respect to share ownership has been furnished by the Selling Security Holders. The “Amount Beneficially Owned After Offering” column assumes the sale of all shares offered.

Furthermore, the maximum dollar value of each put of common stock to Hanover under the Purchase Agreement is subject to certain agreed upon threshold limitations set forth in the Purchase Agreement. Neither the Selling Security Holders nor any of their associates or affiliates has held any position, office, or other material relationship with us in the past three years.

PLAN OF DISTRIBUTION

This prospectus relates to the resale of shares of our common stock, par value \$0.001 per share, by the Selling Security Holders, including (i) 30,303,031 of Put Shares that we will put to Hanover Holdings pursuant to the Purchase Agreement, (ii) 13,211,144 of Debenture Shares, and (iii) 595,239 shares of common stock we issued to Hanover Holdings as initial commitment shares for entering into the Purchase Agreement.

We are registering shares of common stock that have been or may be issued by us from time to time to Hanover Holdings under the Purchase Agreement to permit the resale of these shares of common stock after the issuance thereof by the Selling Security Holders from time to time after the date of this prospectus. We will not receive any of the proceeds from the sale by the Selling Security Holders of the shares of common stock. We will bear all fees and expenses incident to our obligation to register the shares of common stock.

The Selling Security Holders may decide not to sell any shares of common stock. The Selling Security Holders may sell all or a portion of the shares of common stock beneficially owned by it and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents, who may receive compensation in the form of discounts, concessions or commissions from the Selling Security Holders and/or the purchasers of the shares of common stock for whom they may act as agent. In effecting sales, broker-dealers that are engaged by the Selling Security Holders may arrange for other broker-dealers to participate. Hanover Holdings is an “underwriter” within the meaning of the Securities Act. Any brokers, dealers or agents who participate in the distribution of the shares of common stock by the Selling Security Holders may also be deemed to be “underwriters,” and any profits on the sale of the shares of common stock by them and any discounts, commissions or concessions received by any such brokers, dealers or agents may be deemed to be underwriting discounts and commissions under the Securities Act. Hanover Holdings has advised us that it will use an unaffiliated broker-dealer to effectuate all resales of our common stock. To our knowledge, Hanover Holdings has not entered into any agreement, arrangement or understanding with any particular broker-dealer or market maker with respect to the shares of common stock offered hereby, nor do we know the identity of the broker-dealers or market makers that may participate in the resale of the shares. Because Hanover Holdings is, and any other Selling Security Holders broker, dealer or agent may be deemed to be, an “underwriter” within the meaning of the Securities Act, Hanover Holdings will (and any other Selling Security Holder, broker, dealer or agent may) be subject to the prospectus delivery requirements of the Securities Act and may be subject to certain statutory liabilities of the Securities Act (including, without limitation, Sections 11, 12 and 17 thereof) and Rule 10b-5 under the Exchange Act.

The Selling Security Holders will act independently of us in making decisions with respect to the timing, manner and size of each sale. The shares of common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions, pursuant to one or more of the following methods:

- on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;
- in the over-the-counter market in accordance with the rules of NASDAQ;
- in transactions otherwise than on these exchanges or systems or in the over-the-counter market;

- through the writing or settlement of options, whether such options are listed on an options exchange or otherwise;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- broker-dealers may agree with the Selling Security Holders to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale; and
- any other method permitted pursuant to applicable law.

The Selling Security Holders may also sell shares of common stock covered by this prospectus pursuant to Rule 144 promulgated under the Securities Act, if available, rather than under this prospectus. In addition, the Selling Security Holders may transfer the shares of common stock by other means not described in this prospectus.

Any broker-dealer participating in such transactions as agent may receive commissions from the Selling Security Holders (and, if they act as agent for the purchaser of such shares, from such purchaser). Hanover Holdings has informed us that each such broker-dealer will receive commissions from Hanover Holdings which will not exceed customary brokerage commissions. Broker-dealers may agree with the Selling Security Holders to sell a specified number of shares at a stipulated price per share, and, to the extent such a broker-dealer is unable to do so acting as agent for the Selling Security Holders, to purchase as principal any unsold shares at the price required to fulfill the broker-dealer commitment to the Selling Security Holders. Broker-dealers who acquire shares as principal may thereafter resell such shares from time to time in one or more transactions (which may involve crosses and block transactions and which may involve sales to and through other broker-dealers, including transactions of the nature described above and pursuant to the one or more of the methods described above) at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices, and in connection with such resales may pay to or receive from the purchasers of such shares commissions computed as described above. To the extent required under the Securities Act, an amendment to this prospectus or a supplemental prospectus will be filed, disclosing:

- the name of any such broker-dealers;
- the number of shares involved;
- the price at which such shares are to be sold;
- the commission paid or discounts or concessions allowed to such broker-dealers, where applicable;

· that such broker-dealers did not conduct any investigation to verify the information set out or incorporated by reference in this prospectus, as supplemented; and

· other facts material to the transaction.

Hanover Holdings has informed us that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the common stock. Pursuant to a requirement of the Financial Industry Regulatory Authority, or FINRA, the maximum commission or discount and other compensation to be received by any FINRA member or independent broker-dealer shall not be greater than eight percent (8%) of the gross proceeds received by us for the sale of any securities being registered pursuant to Rule 415 under the Securities Act.

Under the securities laws of some states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that the Selling Security Holders will sell any or all of the shares of common stock registered pursuant to the registration statement, of which this prospectus forms a part.

Underwriters and purchasers that are deemed underwriters under the Securities Act may engage in transactions that stabilize, maintain or otherwise affect the price of the common stock, including the entry of stabilizing bids or syndicate covering transactions or the imposition of penalty bids. The Selling Security Holders and any other person participating in the sale or distribution of the shares of common stock will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder (including, without limitation, Regulation M of the Exchange Act), which may restrict certain activities of, and limit the timing of purchases and sales of any of the shares of common stock by, the Selling Security Holders and any other participating person. To the extent applicable, Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making and certain other activities with respect to the shares of common stock. In addition, the anti-manipulation rules under the Exchange Act may apply to sales of the shares of common stock in the market. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

We have agreed to pay all expenses of the registration of the shares of common stock pursuant to the registration rights agreement, estimated to be \$10,000 in total, including, without limitation, Securities and Exchange Commission filing fees and expenses of compliance with state securities or "Blue Sky" laws; provided, however, Hanover Holdings will pay all selling commissions, concessions and discounts, and other amounts payable to underwriters, dealers or agents, if any, as well as transfer taxes and certain other expenses associated with the sale of the shares of common stock. We have agreed to indemnify Hanover Holdings and certain other persons against certain liabilities in connection with the offering of shares of common stock offered hereby, including liabilities arising under the Securities Act or, if such indemnity is unavailable, to contribute amounts required to be paid in respect of such liabilities. Hanover Holdings has agreed to indemnify us against liabilities under the Securities Act that may arise from any written information furnished to us by Hanover Holdings specifically for use in this prospectus or, if such indemnity is unavailable, to contribute amounts required to be paid in respect of such liabilities.

At any time a particular offer of the shares of common stock is made by the Selling Security Holders, a revised prospectus or prospectus supplement, if required, will be distributed. Such prospectus supplement or post-effective amendment will be filed with the Securities and Exchange Commission to reflect the disclosure of any required additional information with respect to the distribution of the shares of common stock. We may suspend the sale of shares by the Selling Security Holders pursuant to this prospectus for certain periods of time for certain reasons, including if the prospectus is required to be supplemented or amended to include additional material information.

Indemnification of Officers and Directors

Subsection 7 of Section 78.138 of the Nevada Revised Statutes (the "Nevada Law") provides that, subject to certain very limited statutory exceptions, a director or officer is not individually liable to the corporation or its stockholders or creditors for any damages as a result of any act or failure to act in his or her capacity as a director or officer, unless it is proven that the act or failure to act constituted a breach of his or her fiduciary duties as a director or officer and such breach of those duties involved intentional misconduct, fraud or a knowing violation of law. The statutory standard of liability established by Section 78.138 controls even if there is a provision in the corporation's articles of incorporation unless a provision in the Company's Articles of Incorporation provides for greater individual liability.

Subsection 1 of Section 78.7502 of the Nevada Law empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he or she is or was a director, officer, employee or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise (any such person, a "Covered Person"), against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the Covered Person in connection with such action, suit or proceeding if the Covered Person is not liable pursuant to Section 78.138 of the Nevada Law or the Covered Person acted in good faith and in a manner the Covered Person reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to any criminal action or proceedings, had no reasonable cause to believe the Covered Person's conduct was unlawful.

Subsection 2 of Section 78.7502 of the Nevada Law empowers a corporation to indemnify any Covered Person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person acted in the capacity of a Covered Person against expenses, including amounts paid in settlement and attorneys' fees actually and reasonably incurred by the Covered Person in connection with the defense or settlement of such action or suit, if the Covered Person is not liable pursuant to Section 78.138 of the Nevada Law or the Covered Person acted in good faith and in a manner the Covered Person reasonably believed to be in or not opposed to the best interests of the Company. However, no indemnification may be made in respect of any claim, issue or matter as to which the Covered Person shall have been adjudged by a court of competent jurisdiction (after exhaustion of all appeals) to be liable to the corporation or for amounts paid in settlement to the corporation unless and only to the extent that the court in which such action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances the Covered Person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Section 78.7502 of the Nevada Law further provides that to the extent a Covered Person has been successful on the merits or otherwise in the defense of any action, suit or proceeding referred to in Subsection 1 or 2, as described above, or in the defense of any claim, issue or matter therein, the corporation shall indemnify the Covered Person against expenses (including attorneys' fees) actually and reasonably incurred by the Covered Person in connection with the defense.

Subsection 1 of Section 78.751 of the Nevada Law provides that any discretionary indemnification pursuant to Section 78.7502 of the Nevada Law, unless ordered by a court or advanced pursuant to Subsection 2 of Section 78.751, may be made by a corporation only as authorized in the specific case upon a determination that indemnification of the Covered Person is proper in the circumstances. Such determination must be made (a) by the stockholders, (b) by the board of directors of the corporation by majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding, (c) if a majority vote of a quorum of such non-party directors so orders, by independent legal counsel in a written opinion, or (d) by independent legal counsel in a written opinion if a quorum of such non-party directors cannot be obtained.

Subsection 2 of Section 78.751 of the Nevada Law provides that a corporation's articles of incorporation or bylaws or an agreement made by the corporation may require the corporation to pay as incurred and in advance of the final disposition of a criminal or civil action, suit or proceeding, the expenses of officers and directors in defending such action, suit or proceeding upon receipt by the corporation of an undertaking by or on behalf of the officer or director to repay the amount if it is ultimately determined by a court of competent jurisdiction that he or she is not entitled to be indemnified by the corporation. Subsection 2 of Section 78.751 further provides that its provisions do not affect any rights to advancement of expenses to which corporate personnel other than officers and directors may be entitled under contract or otherwise by law.

Subsection 3 of Section 78.751 of the Nevada Law provides that indemnification pursuant to Section 78.7502 of the Nevada Law and advancement of expenses authorized in or ordered by a court pursuant to Section 78.751 does not exclude any other rights to which the Covered Person may be entitled under the articles of incorporation or any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, for either an action in his or her official capacity or in another capacity while holding his or her office. However, indemnification, unless ordered by a court pursuant to Section 78.7502 or for the advancement of expenses under Subsection 2 of Section 78.751 of the Nevada Law, may not be made to or on behalf of any director or officer of the corporation if a final adjudication establishes that his or her acts or omissions involved intentional misconduct, fraud or a knowing violation of the law and were material to the cause of action. Additionally, the scope of such indemnification and advancement of expenses shall continue for a Covered Person who has ceased to be a director, officer, employee or agent of the corporation, and shall inure to the benefit of his or her heirs, exe

Section 78.752 of the Nevada Law empowers a corporation to purchase and maintain insurance or make other financial arrangements on behalf of a Covered Person for any liability asserted against such person and liabilities and expenses incurred by such person in his or her capacity as a Covered Person or arising out of such person's status as a Covered Person whether or not the corporation has the authority to indemnify such person against such liability and expenses.

The Bylaws of the Company provide for indemnification of Covered Persons substantially identical in scope to that permitted under the Nevada Law. Such Bylaws provide that the expenses of directors and officers of the Company incurred in defending any action, suit or proceeding, whether civil, criminal, administrative or investigative, must be paid by the Company as they are incurred and in advance of the final disposition of the action, suit or proceeding, upon receipt of an undertaking by or on behalf of such director or officer to repay all amounts so advanced if it is ultimately determined by a court of competent jurisdiction that the director or officer is not entitled to be indemnified by the Company.

DESCRIPTION OF BUSINESS

Our Corporate History and Background

We were incorporated as Private Secretary, Inc. on July 22, 2008 in the State of Nevada. From inception until we completed our reverse acquisition of GrowOp Technology, the principal business of the Company originally was to develop a software program that would allow for automatic call processing through VoIP technology. On January 27, 2012, the Company filed an amendment to its Articles of Incorporation changing its name to Terra Tech Corp. During that time, we had no revenue and our operations were limited to capital formation, organization, and development of our business plan and target customer market. As a result of the merger with GrowOp Technology, on February 9, 2012 we ceased our prior operations and we are now a holding company and our wholly owned subsidiary engages in the design, marketing and sale of hydroponic equipment with proprietary technology to create sustainable solutions for the cultivation of indoor agriculture.

Reverse Acquisition of GrowOp Technology

On February 9, 2012, we completed a reverse acquisition transaction through a reverse-triangular merger with GrowOp Technology whereby we acquired all of the issued and outstanding shares of GrowOp Technology in exchange for (i) 33,998,520 shares of our common stock, (ii) 100 shares of Series A Preferred Stock, convertible into shares of common stock on a one-for-one basis, and 14,750,000 shares of to-be-created Series B Preferred Stock, each share of which shall be convertible into 5.38425537 shares of common stock, which represents approximately 50.3% of our total shares outstanding, assuming the conversion of all shares of Series A Preferred Stock and Series B Preferred Stock into shares of common stock), immediately following the closing of the transactions contemplated by the Agreement and Plan of Merger. As a result of the transactions contemplated by the Agreement and Plan of Merger, GrowOp Technology became our wholly-owned subsidiary.

The merger transaction with GrowOp Technology was treated as a reverse acquisition, with GrowOp Technology as the acquiror and the Company as the acquired party. Unless the context suggests otherwise, when we refer in this Form S-1 to business and financial information for periods prior to the consummation of the reverse acquisition, we are referring to the business and financial information of GrowOp Technology.

Overview of GrowOp Technology

Through our wholly owned subsidiary, we are a hydroponic equipment design, marketing and sales company headquartered in Irvine, California. We were established in March 2010 and currently operating in Irvine and Oakland, California.

GrowOp Technology's revenue was approximately \$573,794 for the period from March 16, 2010 (Inception) to the fiscal year ended December 31, 2010 and \$817,724 for the twelve months ended December 31, 2011. GrowOp Technology's net loss was approximately \$579,986 for the period from March 16, 2010 (Inception) to the year ended December 31, 2010, and its net loss was approximately \$2,272,612 for the twelve months ended December 31, 2011.

Organization & Subsidiaries

We have one operating subsidiary, GrowOp Technology Ltd.

Service and Program

Terra Tech with its subsidiary GrowOp Technology Ltd. are integrating best of breed hydroponic equipment with proprietary technology to create sustainable solutions for the cultivation of indoor agriculture. We work closely with expert horticulturists, engineers, and scientists, to develop and manufacture advanced proprietary products for the hydroponic industry. Our portable hydroponic trailers, The Big Bud and Little Bud, are custom fabricated proprietary cultivation systems. In addition, our magnetic ballasts, cultivation tents, digital atmospheric controllers and recycling timers, as well as our line of nutrients, are all proprietary in that they are uniquely marketed under our trade-name or have features designed by us that are unique to our products. Third parties manufacture all of our products, with the exception of the mobile hydroponic units, which are built by us locally. We work closely with these factories to institute the features or changes we want to make them "proprietary" in nature.

Our products are utilized by companies, horticulture enthusiasts, local urban farmers, and green house growers. The emerging trend of urban and indoor agriculture has fostered an entrepreneurial push by companies to bring their concept to market. Many of these companies lack the both the intellectual resources and manufacturing capabilities to bring their idea to fruition. That is where Terra Tech is positioned. We have the team and the resources to help bring indoor cultivation designs from concept to production. Our products can be found through specialty retailers throughout the United States.

Our products are interchangeable for all agriculture, medical cannabis included. Seventeen states currently have some form of medical cannabis legalization/decriminalization laws, and we believe that another 10 states will have some form of voting regarding legislation of medical cannabis legalization/decriminalization laws in the next 24 months. Hydroponic equipment, including our line, can be used to cultivate cannabis and we believe that some of our customers are medical cannabis growers. We do not believe that federal or any state laws prohibit us from selling our products to medical cannabis growers.

Growing medical marijuana is deemed to be illegal under the Federal Controlled Substances Act even though such activities may be permissible under state law.

A theoretical risk exists that our activities could be deemed to be facilitating the selling or distribution of marijuana in violation of the federal Controlled Substances Act, or to constitute aiding or abetting, or being an accessory to, a violation of that Act. We believe, however, that such a risk is relatively low. Federal authorities have not focused their resources on such tangential or secondary violations of the Act, nor have they threatened to do so, with respect to the manufacture or sale of equipment that might be used by medical cannabis gardeners, or with respect to any supplies marketed to participants in the emerging medical cannabis industry. We are unaware of such a broad application of the Controlled Substances Act by federal authorities, and we believe that such an attempted application would be unprecedented.

Marketing Strategy

We operate in 2 distinct markets:

Commercial AG - Commercial agriculture is beginning to migrate to controlled indoor environments. Every year the US loses significant portions of its fertile agricultural land due to urbanization. In an effort to sustain our population cultivation is moving both indoors as well as vertical. Indoor cultivation allows urban farmers to have multiple harvests throughout the year while maximizing their production of healthy and nutrient dense fruits and vegetables. For example, our research indicates that over 40% of all fresh tomatoes sold in U.S. retail stores are now greenhouse grown. We work with you to help design, develop and manufacture cultivation system which will both maximize you space and mitigate your energy costs. From rooftop/vertical hydroponic and aeroponic systems to custom designed greenhouse management systems Terra Tech is continually developing products and working with strategic partners, like Bayer Crop Sciences, to continually capture market share of this growing industry. We do not have a formal agreement or written contract with Bayer Corp Sciences and have only made sales of certain of our products to Bayer Crop Sciences. We plan to expand our business in this segment by increasing our product lineup as well as our manufacturing capabilities in an effort to keep pace with the growth of the market. We will be budgeting additional capital for R&D as well as hiring a sales force specializing in the commercial market.

Retail AG –Through our retail subsidiary GrowOp Technology Ltd. (www.growopltd.com) we design and manufacture an advanced and affordable line of horticulture equipment for the discerning grower. We have created a product line of affordable and hi quality hydroponic cultivation equipment for the wholesale market. We intend to continue to add SKU's as well as sales force to service the blossoming hydroponic retail market. Our intention is to replicate the 12,000 square foot facility we operate out of Oakland, California in other prime markets including Colorado and Michigan. We are budgeting for warehouse space, management as well other general labor to operate these additional facilities.

In addition to our organic growth through Terra Tech's commercial manufacturing and GrowOp Technology's retail brand we intend to acquire to accelerate growth. We are focused on well-positioned market participants that have a competitive advantage in their respective segment in addition to generating strong operating cash flow.

All of our products listed on www.growopltd.com can be found at retailers around the United States. We have limited selling our retail products directly, and 95% of the sales of our GrowOp brand are done through retailers. All commercial sales are done directly. Currently our retail sales make up over 95% of our total sales.

Competition

Three main manufacturers and distributors currently dominate the market in which we compete: Sunlight Supply, Hydrofarm and BWGS. These companies have been in business for several years, and we estimate they collectively make up over 50% of the market. In addition, there are several smaller distribution companies competing for market share. We believe that pricing is a primary driver in capturing market share, and that offering similar products at discounted pricing helps reduce the barriers to entry. The 3 large retailers have both the size and scope to create significant barriers to entry for smaller companies like Terra Tech. In the commercial market there are several companies that provide agricultural hydroponic equipment to large-scale farmers. These companies are relatively fragmented and generally focus on a few core proprietary items.

Growth Strategy

Our rollup Strategy:

- Fragmented market consists of smaller scale inefficient manufacturers and distribution companies. With our brand recognition and experienced management team we can maximize productivity, provide economies of scale and increase profitability through our public market vehicle;
- Acquiring unique products and niche players where barriers to entry are high and margins are robust providing them with a broader outlet for their products; and
- Second stage-Acquire multiple production facilities to capture the market vertical from manufacturing to production up to retail.

Intellectual Property

We rely on a combination of trademark laws, trade secrets, confidentiality provisions and other contractual provisions to protect our proprietary rights, which are primarily our brand names, product designs and marks. We do not own patents.

Government Regulation and Approvals

We are not aware of any governmental regulations or approvals required for any of our products.

Employees

As of the date hereof, we have approximately 2 employees who work full-time.

Description of Properties

We do not own any real estate or other physical properties material to our operations. We operate from leased space. Our executive offices are located at 18101 Von Karman, Third Floor, Irvine, California 92612, and our telephone number is (855) 447-6967. We operate our manufacturing and distribution facility at 5401-C San Leandro Street, Oakland, California 94601.

LEGAL PROCEEDINGS

From time to time, we may become involved in various lawsuits and legal proceedings which arise in the ordinary course of business. Litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business.

On March 29, 2011, Dhar Mann and WeGrow Garden Supply LLC filed an Individual and Corporate Complaint for: 1. Breach of Contract; 2. Fraud; 3. Breach of Fiduciary Duty; and 4. Conversion in the Superior Court of the State of California, Alameda County, File No. RG11568327 (the “Dhar Mann Complaint”), against GrowOp Technology Ltd. alleging, among other things, that Mr. Mann is a 37.5% owner of GrowOp since May 23, 2010 and claiming damages of approximately \$2,200,000 in connection with a purported agreement to sell Mr. Mann shares of Common Stock of GrowOp amounting to 37.5% of the issued and outstanding shares of Common Stock of GrowOp. Mr. Mann is also seeking an order from the court prohibiting GrowOp from selling any securities or becoming a public company. GrowOp denies, among other things in the Dhar Mann Complaint, the existence of a purported agreement to sell Mr. Mann shares of Common Stock of GrowOp amounting to 37.5% of the issued and outstanding shares of Common Stock of GrowOp or the damages owed.

GrowOp does not believe this litigation will have a material effect on its business objectives.

Dividends

We have never declared or paid a cash dividend. Any future decisions regarding dividends will be made by our Board of Directors. We currently intend to retain and use any future earnings for the development and expansion of our business and do not anticipate paying any cash dividends in the foreseeable future. Our Board of Directors has complete discretion on whether to pay dividends. Even if our Board of Directors decides to pay dividends, the form, frequency and amount will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors that the Board of Directors may deem relevant.

Securities Authorized for Issuance under Equity Compensation Plans

We do not have in effect any compensation plans under which our equity securities are authorized for issuance.

Penny Stock Regulations

The Commission has adopted regulations which generally define “penny stock” to be an equity security that has a market price of less than \$5.00 per share. Our common stock, when and if a trading market develops, may fall within the definition of penny stock and be subject to rules that impose additional sales practice requirements on broker-dealers who sell such securities to persons other than established customers and accredited investors (generally those with assets in excess of \$1,000,000, or annual incomes exceeding \$200,000 individually, or \$300,000, together with their spouse).

For transactions covered by these rules, the broker-dealer must make a special suitability determination for the purchase of such securities and have received the purchaser's prior written consent to the transaction. Additionally, for any transaction, other than exempt transactions, involving a penny stock, the rules require the delivery, prior to the transaction, of a risk disclosure document mandated by the Commission relating to the penny stock market. The broker-dealer also must disclose the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and, if the broker-dealer is the sole market-maker, the broker-dealer must disclose this fact and the broker-dealer's presumed control over the market. Finally, monthly statements must be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks. Consequently, the "penny stock" rules may restrict the ability of broker-dealers to sell our common stock and may affect the ability of investors to sell their common stock in the secondary market.

Gross profits decreased \$25,905 for the year ended December 31, 2012 compared to \$126,771 for the year ended December 31, 2011. The decrease in the gross margin was due to lower sales due to management changing from selling trailers outfitted with hydroponic equipment to making and selling the hydroponic equipment..

Selling, general and administrative expenses for the year ended December 31, 2012 were \$1,072,866, a decrease of \$1,291,599 from the year ended December 31, 2011 which totaled \$2,364,465. The major decreases were from consulting and subcontracting fees which decreased \$328,907 for work which is now being performed by individuals within the company. Officer compensation decreased by \$919,208 due to less Preferred Stock issued to officers in 2012. The officers have also waived their compensation until the Company is in a better position to pay them. Professional fees increased \$62,262, due to legal cost incurred to defend against law suits. Research and development decreased \$92,582 due to fewer new products being developed in 2012. Trade show was reduced by \$15,121 since the Company went to fewer trade shows. Warrant expense went up by \$107,400 due to additional warrants issued with a higher volatility.

The Company incurred an impairment of goodwill in connection with the reverse merger on the amount of \$4,799,965.

Interest expense totaled \$62,203 for the year ended December 31, 2012 versus \$32,801 in the year ended December 31, 2011. The increase is due to more debt outstanding in 2012.

The net result for the year ended December 31, 2012 was a loss of \$5,836,369 or \$0.08 per share compared to a loss of \$2,272,612 or \$0.12 for the year ended December 31, 2011. The primary reason for the loss was due to reduced sales caused by not having the proper inventory which was demanded by the customers and the impairment of goodwill

Management will continue to make an effort to lower operating expenses and increase revenue. The Company will continue to invest in further expanding its operations and a comprehensive marketing campaign with the goal of accelerating the education of potential clients and promoting the name and products of the Company. Given the fact that most of the operating expenses are fixed or have quasi-fixed character management expects them to significantly decrease as a percentage of revenues as revenues increase.

Liquidity and Capital Resources

The Company's future success is dependent upon its ability to achieve profitable operations and generate cash from operating activities, and upon additional financing. Management believes they can raise the appropriate funds needed to support their business plan and develop an operating, cash flow positive company.

The Company incurred net losses for the twelve months ended December 31, 2012 and has accumulated a deficit of \$8,688,967 at December 31, 2012. The Company has not been able to generate sufficient cash from operating activities to fund its ongoing operations. There is no guarantee that the Company will be able to generate enough revenue and/or raise capital to support its operations. These factors raise substantial doubt about the Company's ability to continue as a going concern. The Company has never reported Net Income.

The condensed consolidated financial statements do not include any adjustments relating to the recoverability or classification of recorded assets and liabilities that might result should the Company be unable to continue as a going concern.

The Company's business operations generally have been financed by debt investments through promissory notes with accredited investors and equity investments in the common stock of the Company by accredited investors. During the twelve months of 2012, the Company obtained new debt from the issuance of unsecured promissory notes that supplied the funds that were needed to finance operations during the reporting period. Such net new borrowings resulted in the receipt by the Company of \$69,304. The Company also issued 523,333 shares of common stock for \$180,000. While these funds sufficed to compensate for the negative cash flow from operations they were not sufficient to build up a liquidity reserve. As a result, the Company's financial position at the end of the reporting period showed a working capital deficit of \$494,190. During the first twelve months of 2012 the Company obtained new financing sufficient to fund ongoing working capital requirements. We need to continue to raise funds to cover working capital requirements until we are able to raise revenues to a point of positive cash flow.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Critical Accounting Policies

Use of Estimates

The preparation of the financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The Company applies fair value accounting for all financial assets and liabilities and non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities, which are required to be recorded at fair value, the Company considers the principal or most advantageous market in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as risks inherent in valuation techniques, transfer restrictions and credit risk. Fair value is estimated by applying the following hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Inputs that are generally unobservable and typically reflect management's estimate of assumptions that market participants would use in pricing the asset or liability.

The Company's valuation techniques used to measure the fair value of money market funds and certain marketable equity securities were derived from quoted prices in active markets for identical assets or liabilities. The valuation techniques used to measure the fair value of all other financial instruments, all of which have counterparties with high credit ratings, were valued based on quoted market prices or model driven valuations using significant inputs derived from or corroborated by observable market data.

In accordance with the fair value accounting requirements, companies may choose to measure eligible financial instruments and certain other items at fair value. The Company has not elected the fair value option for any eligible financial instruments.

Accounts Receivable

The Company reviews all outstanding accounts receivable for collectability on a quarterly basis. An allowance for doubtful accounts is recorded for any amounts deemed uncollectable. The Company does not accrue interest receivable on past due accounts receivable. As of December 31, 2012 there was a reserve of \$85,576 against the collection of accounts receivable.

Prepaid Inventory

Prepaid inventory represents deposits made to foreign manufacturers for purchase orders of specific inventory.

Notes receivable

Notes receivable due from customers are unsecured loans which assist with the purchase of products. The notes range from twelve to eighteen months and bear interest at the annual rates of 4% to 9%. A corresponding reserve is established for any uncollectable interest. As of December 31, 2012 there was a 100 percent reserve or \$29,424 against the collection of notes receivable.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets: 3-8 years for machinery and equipment, leasehold improvements are amortized over the shorter of the estimated useful lives or the underlying lease term. Repairs and maintenance expenditures which do not extend the useful lives of related assets are expensed as incurred.

Revenue Recognition

Revenue is recognized net of discounts, rebates, promotional adjustments, price adjustments and estimated returns and upon transfer of title and risk to the customer which occurs at shipping (F.O.B. terms). Upon shipment, the Company has no further performance obligations and collection is reasonably assured as the majority of sales are paid for prior to shipping.

Cost of Goods Sold

Management decided to change the focus of the business in 2011 to designing, manufacturing and selling hydroponic equipment where favorable gross margins are achieved.

Research and Development

Research and development costs are expensed as incurred.

Income Taxes

The Company provides for income taxes based on enacted tax law and statutory tax rates at which items of income and expenses are expected to be settled in the Company's income tax return. Certain items of revenue and expense are reported for Federal income tax purposes in different periods than for financial reporting purposes, thereby resulting in deferred income taxes. Deferred taxes are also recognized for operating losses that are available to offset future taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. The Company has incurred net operating losses for financial-reporting and tax-reporting purposes. Accordingly, for Federal and state income tax purposes, the benefit for income taxes has been offset entirely by a valuation allowance against the related federal and state deferred tax asset for the twelve months ended December 31, 2012.

Loss Per Common Share

Net loss per share, in accordance with the provisions of ASC 260, "Earnings Per Share" is computed by dividing net loss by the weighted average number of shares of Common Stock outstanding during the period. During a loss period, the effect of the potential exercise of stock options, warrants, convertible preferred stock and convertible debt are not considered in the diluted income (loss) per share calculation since the effect would be anti-dilutive. The results of operations were a net loss for the twelve months ended December 31, 2012 therefore the basic and diluted weighted average common shares outstanding were the same.

Recently Issued Accounting Standards

Management does not expect the adoption of recently issued accounting pronouncements to have a significant impact on our results of operations, financial position or cash flow.

Ross, the Company has agreed to pay Mr. Ross \$2,000 per month, commencing immediately following any financing, either debt or equity, in excess of \$1,000,000 that the Company receives during his term as a director, and issue to Mr. Ross, an aggregate of 300,000 restricted shares of the Company's common stock (such payment and issuance, the "Compensation"), one-half (1/2) of the shares to be vested on the date of appointment, and the remaining one-half (1/2) of the shares to be vested on May 31, 2013. Involvement in Certain Legal Proceedings

No director, person nominated to become a director, executive officer, promoter or control person of our company has, during the last ten years: (i) been convicted in or is currently subject to a pending a criminal proceeding (excluding traffic violations and other minor offenses); (ii) been a party to a civil proceeding of a judicial or administrative body of competent jurisdiction and as a result of such proceeding was or is subject to a judgment, decree or final order enjoining future violations of, or prohibiting or mandating activities subject to any federal or state securities or banking or commodities laws including, without limitation, in any way limiting involvement in any business activity, or finding any violation with respect to such law, nor (iii) any bankruptcy petition been filed by or against the business of which such person was an executive officer or a general partner, whether at the time of the bankruptcy or for the two years prior thereto.

Term of Office

Our directors are appointed to hold office until the next annual general meeting of our stockholders or until removed from office in accordance with our bylaws. Our officers are appointed by our Board of Directors and hold office until removed by the Board, absent an employment agreement.

Conflicts of Interest

Since we do not have an audit or compensation committee comprised of independent directors, the functions that would have been performed by such committees are performed by our directors. The Board of Directors has not established an audit committee and does not have an audit committee financial expert, nor has the Board established a nominating committee. The Board is of the opinion that such committees are not necessary since the Company is an early exploration stage company and has only two directors, and to date, such directors have been performing the functions of such committees. Thus, there is a potential conflict of interest in that our directors and officers have the authority to determine issues concerning management compensation, nominations, and audit issues that may affect management decisions.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS AND DIRECTOR INDEPENDENCE

On April 23, 2013, we entered into a Share Exchange Agreement, dated March 23, 2013 (the “Share Exchange Agreement”), by and among the Company, Edible Garden Corp., a Nevada corporation (“Edible Garden”), and the holders of common stock of Edible Garden. The principle holders of the common stock of Edible Garden consisted of Ken VandeVrede, Mike VandeVrede, Steve VandeVrede and Dan VandeVrede, each of whom held 23% of the issued and outstanding shares of common stock of Edible Garden. Additionally, Beverly Willekes and David VandeVrede each held 4% of the issued and outstanding shares of common stock of Edible Garden. Ken VandeVrede, Mike VandeVrede, Steve VandeVrede, David VandeVrede and Beverly Willekes are siblings. Dan VandeVrede is the father of the five siblings.

Under the terms and conditions of the Share Exchange Agreement, we offered and sold 1,250,000 shares of common stock of the Company in consideration for all the issued and outstanding shares in Edible Garden. Separately, Amy Almsteier, our majority shareholder, and an officer and director, offered and sold 6,750,000 of her 12,500,000 shares of Series B Preferred Stock to Ken VandeVrede, Mike VandeVrede, Steve VandeVrede and Dan VandeVrede, Beverly Willekes, and David VandeVrede (collectively, the “Edible Garden Shareholders”), each of whom acquired the Series B Preferred Stock on a pro-rata basis, based on their respective parentage equity interest in Edible Garden immediately prior to the consummation of the Share Exchange Agreement.

Each share of Series B Preferred Stock is convertible, at any time, at the option of the holder, on a 1-for-5.384325537 basis, into shares of common stock and has voting rights equal to 100 shares of common stock. The 6,750,000 shares of Series B Preferred Stock is convertible at any time into 41,290,091 shares of common stock and have voting power equal to 675,000,000 shares of common stock. The effect of the issuance of the 1,250,000 shares of common stock of the Company and sale of the 6,750,000 shares of Series B Preferred Stock is that Edible Garden Shareholders now hold approximately 25.7% of the issued and outstanding shares of common stock of the Company and approximately 43.3% of the voting power of the Company. Articles of Exchange, consummating the share exchange, were filed with the Secretary of the State of Nevada on April 24, 2013.

As a result of the share exchange Edible Garden is now a wholly-owned subsidiary of the Company.

Review, Approval or Ratification of Transactions with Related Persons

We have not adopted a code of ethics, and as such, we still rely on our board of directors to review related party transactions on an ongoing basis to prevent conflicts of interest. Our board of directors reviews a transaction in light of the affiliations of the director, officer or employee and the affiliation's of such person's immediate family. Transactions are presented to our board of directors for approval before they are entered into or, if this is not possible, for ratification after the transaction has occurred. If our Board finds that a conflict of interest exists, then it will determine the appropriate remedial action, if any. Our board of directors approves or ratifies a transaction if it determines that the transaction is consistent with the best interests of the Company.

Director Independence

During the year ended December 31, 2012, we had no independent directors on our board of directors. Our board of directors is currently composed of seven members, one of whom qualifies as an independent director. We evaluate independence by the standards for director independence established by applicable laws, rules, and listing standards including, without limitation, the standards for independent directors established by The New York Stock Exchange, Inc., the NASDAQ National Market, and the SEC. Subject to some exceptions, these standards generally provide that a director will not be independent if (a) the director is, or in the past three years has been, an employee of ours; (b) a member of the director's immediate family is, or in the past three years has been, an executive officer of ours; (c) the director or a member of the director's immediate family has received more than \$120,000 per year in direct compensation from us other than for service as a director (or for a family member, as a non-executive employee); (d) the director or a member of the director's immediate family is, or in the past three years has been, employed in a professional capacity by our independent public accountants, or has worked for such firm in any capacity on our audit; (e) the director or a member of the director's immediate family is, or in the past three years has been, employed as an executive officer of a company where one of our executive officers serves on the compensation committee; or (f) the director or a member of the director's immediate family is an executive officer of a company that makes payments to, or receives payments from, us in an amount which, in any twelve-month period during the past three years, exceeds the greater of \$1,000,000 or 2% of that other company's consolidated gross revenues.

DISCLOSURE OF COMMISSION POSITION OF INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Sections 78.7502 and 78.751 of the Nevada Revised Statutes authorizes a court to award, or a corporation's board of directors to grant indemnity to directors and officers in terms sufficiently broad to permit indemnification, including reimbursement of expenses incurred, under certain circumstances for liabilities arising under the Securities Act of 1933, as amended. In addition, the registrant's Bylaws provide that the registrant has the authority to indemnify the registrant's directors and officers and may indemnify the registrant's employees and agents (other than officers and directors) against liabilities to the fullest extent permitted by Nevada law. The registrant is also empowered under the registrant's Bylaws to purchase insurance on behalf of any person whom the registrant is required or permitted to indemnify.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
of Terra Tech Corporation
Irvine, California

We have audited the accompanying consolidated balance sheets of Terra Tech Corporation (Company) as of December 31, 2012 and 2011, and the related consolidated statements of operations, stockholders' equity (deficit), and cash flows for the years then ended. Terra Tech Corporation's management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Terra Tech Corporation as of December 31, 2012 and 2011, and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

We were incorporated as Private Secretary, Inc. on July 22, 2008 in the State of Nevada. From inception until we completed our reverse acquisition of GrowOp Technology, the principal business of the Company originally was to develop a software program that would allow for automatic call processing through VoIP technology. On January 27, 2012, the Company filed an amendment to its Articles of Incorporation changing its name to Terra Tech Corp. During that time, we had no revenue and our operations were limited to capital formation, organization, and development of our business plan and target customer market. As a result of the merger with GrowOp Technology, on February 9, 2012 we ceased our prior operations and we are now a holding company and our wholly owned subsidiary engages in the design, marketing and sale of hydroponic equipment with proprietary technology to create sustainable solutions for the cultivation of indoor agriculture.

Recent Developments

On February 9, 2012, Terra Tech Corp. (formerly named, "Private Secretary, Inc.") , a Nevada corporation (the "Company") entered into an Agreement and Plan of Merger dated February 9, 2012 (the "Agreement and Plan of Merger"), by and among the Company, TT Acquisitions, Inc., a Nevada corporation and a wholly-owned subsidiary of the Company ("TT Acquisitions"), and GrowOp Technology Ltd., a Nevada corporation ("GrowOp Technology").

Under the terms and conditions of the Agreement and Plan of Merger, the Company sold 33,998,500 shares of common stock of the Company in consideration for all the issued and outstanding shares in GrowOp Technology. The effect of the issuance is that GrowOp Technology shareholders now hold approximately 41.46% of the issued and outstanding shares of common stock of the Company. Separately, TT Acquisitions merged with GrowOp Technology, with the effect that GrowOp Technology is a wholly-owned subsidiary of the Company. Articles of Merger, effecting the merger of GrowOp Technology and TT Acquisitions, were filed with the Secretary of State of the State of Nevada on February 9, 2012.

GrowOp Technology was founded in March 2010, in Oakland, California. GrowOp Technology's business (now the principal business of Terra Tech) is the integration of best of breed hydroponic equipment with proprietary technology to create sustainable solutions for the cultivation of indoor agriculture. We work closely with expert horticulturists, engineers, and scientists, to develop and manufacture advanced proprietary products for the hydroponic industry. Our products are utilized by horticulture enthusiasts, local urban farmers, and green house growers. We believe that the emerging trend of urban and indoor agriculture has fostered an entrepreneurial push by companies to bring their concept to market. Many of these companies lack both the intellectual resources and manufacturing capabilities to bring their idea to fruition. That is where Terra Tech is positioned. We have the team and the resources to help bring indoor cultivation designs from concept to production. Our products can be found through specialty retailers throughout the United States.

The accompanying unaudited condensed financial statements include all of the accounts of Terra Tech. These condensed financial statements have been prepared in accordance with accounting principals generally accepted in the United States for financial information and with the instructions to Form S-1 and Regulation S-X. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included.

TERRA TECH CORP.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Use of Estimates

The preparation of the financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The Company applies fair value accounting for all financial assets and liabilities and non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities, which are required to be recorded at fair value, the Company considers the principal or most advantageous market in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as risks inherent in valuation techniques, transfer restrictions and credit risk. Fair value is estimated by applying the following hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Inputs that are generally unobservable and typically reflect management’s estimate of assumptions that market participants would use in pricing the asset or liability.

The Company’s valuation techniques used to measure the fair value of money market funds and certain marketable equity securities were derived from quoted prices in active markets for identical assets or liabilities. The valuation techniques used to measure the fair value of all other financial instruments, all of which have counterparties with high credit ratings, were valued based on quoted market prices or model driven valuations using significant inputs derived from or corroborated by observable market data.

In accordance with the fair value accounting requirements, companies may choose to measure eligible financial instruments and certain other items at fair value. The Company has not elected the fair value option for any eligible financial instruments.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Accounts Receivable

The Company reviews all outstanding accounts receivable for collectability on a quarterly basis. An allowance for doubtful accounts is recorded for any amounts deemed uncollectable. The Company does not accrue interest receivable on past due accounts receivable. As of December 31, 2012 there was a reserve of \$85,576 against the collection of accounts receivable.

Prepaid Inventory

Prepaid inventory represents deposits made to foreign manufacturers for purchase orders of specific inventory.

Notes receivable

Notes receivable due from customers are unsecured loans which assist with the purchase of products. The notes range from twelve to eighteen months and bear interest at the annual rates of 4% to 9%. A corresponding reserve is established for any uncollectable interest. As of December 31, 2012 there was a 100 percent reserve or \$29,424 against the collection of notes receivable.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets: 3-8 years for machinery and equipment, leasehold improvements are amortized over the shorter of the estimated useful lives or the underlying lease term. Repairs and maintenance expenditures which do not extend the useful lives of related assets are expensed as incurred.

Revenue Recognition

Revenue is recognized net of discounts, rebates, promotional adjustments, price adjustments and estimated returns and upon transfer of title and risk to the customer which occurs at shipping (F.O.B. terms). Upon shipment, the Company has no further performance obligations and collection is reasonably assured as the majority of sales are paid for prior to shipping.

Cost of Goods Sold

Management decided to change the focus of the business in 2011 to designing, manufacturing and selling hydroponic equipment where favorable gross margins are achieved.

Research and Development

Research and development costs are expensed as incurred.

TERRA TECH CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Income Taxes

The Company provides for income taxes based on enacted tax law and statutory tax rates at which items of income and expenses are expected to be settled in the Company's income tax return. Certain items of revenue and expense are reported for Federal income tax purposes in different periods than for financial reporting purposes, thereby resulting in deferred income taxes. Deferred taxes are also recognized for operating losses that are available to offset future taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. The Company has incurred net operating losses for financial-reporting and tax-reporting purposes. Accordingly, for Federal and state income tax purposes, the benefit for income taxes has been offset entirely by a valuation allowance against the related federal and state deferred tax asset for the twelve months ended December 31, 2012.

Loss Per Common Share

Net loss per share, in accordance with the provisions of ASC 260, "Earnings Per Share" is computed by dividing net loss by the weighted average number of shares of Common Stock outstanding during the period. During a loss period, the effect of the potential exercise of stock options, warrants, convertible preferred stock and convertible debt are not considered in the diluted income (loss) per share calculation since the effect would be anti-dilutive. The results of operations were a net loss for the twelve months ended December 31, 2012 therefore the basic and diluted weighted average common shares outstanding were the same.

2. GOING CONCERN

The Company's future success is dependent upon its ability to achieve profitable operations and generate cash from operating activities, and upon additional financing. Management believes they can raise the appropriate funds needed to support their business plan and develop an operating company which is cash flow positive.

However, the Company has incurred net losses for the twelve months ended December 31, 2012 and has accumulated a deficit of approximately \$8.69 million at December 31, 2012. The Company has not been able to generate sufficient cash from operating activities to fund its ongoing operations. There is no guarantee that the Company will be able to generate enough revenue and/or raise capital to support its operations. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The condensed financial statements do not include any adjustments relating to the recoverability or classification of recorded assets and liabilities that might result should the Company be unable to continue as a going concern.

3. CONCENTRATIONS OF BUSINESS AND CREDIT RISK

The Company maintains cash balances in several financial institutions which are insured by the Federal Deposit Insurance Corporation up to certain federal limitations.

The Company provides credit in the normal course of business to customers located throughout the U. S. The Company performs ongoing credit evaluations of its customers and maintains allowances for doubtful accounts based on factors surrounding the credit risk of specific customers, historical trends, and other information.

4. REVERSE MERGER

On February 9, 2012, the Company completed a reverse merger transaction through a merger with GrowOp Technology whereby we acquired all of the issued and outstanding shares of GrowOp Technology in exchange for 33,998,520 shares of our common stock, which represented approximately 41.4% of our total shares outstanding immediately following the closing of the transaction. As a result of the reverse acquisition, GrowOp Technology became our wholly owned subsidiary and the former shareholders of GrowOp Technology became our controlling stockholders. The share exchange transaction with GrowOp Technology was treated as a reverse acquisition, with GrowOp Technology as the acquiror and the Company as the acquired party.

On February 26, 2012, pursuant the Agreement and Plan of Merger, the Company issued an aggregate of 100 shares of Series A Preferred Stock and 14,750,000 shares of Series B Preferred Stock to Derek Peterson and Amy Almsteier, both of whom are officers and directors of the Company. The Company offered and sold the shares in reliance on the exemption from registration pursuant to Section 4(2) of Securities Act and Rule 506 of Regulation D promulgated thereunder.

REVERSE MERGER, Continued

Purchase Accounting

The Acquisition was accounted for using the purchase method of accounting as a reverse acquisition. In a reverse acquisition, the post-acquisition net assets of the surviving combined company includes the historical cost basis of the net assets of the accounting acquirer (GrowOp Technologies Ltd.) plus the fair value of the net assets of the accounting acquiree (Terra Tech Corp). Further, under the purchase method, the purchase price is allocated to the assets acquired and liabilities assumed based on their estimated fair values and the excess of the purchase price over the estimated fair value of the identifiable net assets is allocated to any intangible assets with the remaining excess purchase price over net assets acquired allocated to goodwill.

The fair value of the consideration transferred in the Acquisition was \$4,800,000 and was calculated as the number of shares of common stock that GrowOp Technologies Ltd. would have had to issue in order for Terra Tech Corp. shareholders to hold a 58.6% equity interest in the combined Company post-acquisition, multiplied by the estimated fair value of the Company's common stock on the acquisition date. The estimated fair value of the Company's common stock was based on the offering price of the common stock sold in a private placement of share subscriptions which was completed most recently prior to the merger. This price was determined to be the best indication of fair value on that date since the price was based on an arm's length negotiation with a group consisting of both new and existing investors that had been advised of the pending Acquisition and assumed similar liquidity risk as those investors holding the majority of shares being valued as purchase consideration.

The following table summarizes the Company's determination of fair values of the assets acquired and the liabilities as of the date of acquisition.

Consideration - issuance of securities	\$ 4,800,000
Cash	\$ 35
Goodwill	4,799,965
Total purchase price	\$ 4,800,000

The Company performed an impairment test related to goodwill as of the date of the merger and it was determined that goodwill was impaired. At that time, the Company recorded a charge to operations for the amount of the impairment of \$4,799,965.

Item 14. Indemnification of Directors and Officers

The Company's Bylaws and Articles of Incorporation provide that we shall, to the full extent permitted by the Nevada General Business Corporation Law, as amended from time to time (the "Nevada Corporate Law"), indemnify all of our directors and officers. Section 78.7502 of the Nevada Corporate Law provides in part that a corporation shall have the power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding (other than an action by or in the right of the corporation) by reason of the fact that such person is or was a director, officer, employee or agent of another corporation or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful.

Similar indemnity is authorized for such persons against expenses (including attorneys' fees) actually and reasonably incurred in defense or settlement of any threatened, pending or completed action or suit by or in the right of the corporation, if such person acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and provided further that (unless a court of competent jurisdiction otherwise provides) such person shall not have been adjudged liable to the corporation. Any such indemnification may be made only as authorized in each specific case upon a determination by the stockholders or disinterested directors that indemnification is proper because the indemnitee has met the applicable standard of conduct. Under our Bylaws and Articles of Incorporation, the indemnitee is presumed to be entitled to indemnification and we have the burden of proof to overcome that presumption. Where an officer or a director is successful on the merits or otherwise in the defense of any action referred to above, we must indemnify him against the expenses which such officer or director actually or reasonably incurred. Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

ii. To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) (§ 230.424 of this chapter) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the “Calculation of Registration Fee” table in the effective registration statement.

iii. To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Provided, however, that:

(A) Paragraphs (a)(1)(i) and (a)(1)(ii) of this section do not apply if the registration statement is on Form S-8 (§ 239.16b of this chapter), and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78o(d)) that are incorporated by reference in the registration statement; and

(B) Paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) of this section do not apply if the registration statement is on Form S-3 (§ 239.13 of this chapter) or Form F-3 (§ 239.33 of this chapter) and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) (§ 230.424(b) of this chapter) that is part of the registration statement.

(C) Provided further, however, that paragraphs (a)(1)(i) and (a)(1)(ii) do not apply if the registration statement is for an offering of asset-backed securities on Form S-1 (§ 239.11 of this chapter) or Form S-3 (§ 239.13 of this chapter), and the information required to be included in a post-effective amendment is provided pursuant to Item 1100(c) of Regulation AB (§ 229.1100(c)).

2. That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

3. To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

4. If the registrant is a foreign private issuer, to file a post-effective amendment to the registration statement to include any financial statements required by “Item 8.A. of Form 20-F (17 CFR 249.220f)” at the start of any delayed offering or throughout a continuous offering. Financial statements and information otherwise required by Section 10(a)(3) of the Act need not be furnished, provided that the registrant includes in the prospectus, by means of a post-effective amendment, financial statements required pursuant to this paragraph (a)(4) and other information necessary to ensure that all other information in the prospectus is at least as current as the date of those financial statements. Notwithstanding the foregoing, with respect to registration statements on Form F-3 (§239.33 of this chapter), a post-effective amendment need not be filed to include financial statements and information required by Section 10(a)(3) of the Act or §210.3–19 of this chapter if such financial statements and information are contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the Form F-3.

5. That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

i. If the registrant is relying on Rule 430B (§230.430B of this chapter):

(A) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) (§230.424(b)(3) of this chapter) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(B) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) (§230.424(b)(2), (b)(5), or (b)(7) of this chapter) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) (§230.415(a)(1)(i), (vii), or (x) of this chapter) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or

ii. If the registrant is subject to Rule 430C (§230.430C of this chapter), each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A (§230.430A of this chapter), shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

6. That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities:

The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

i. Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424 (§230.424 of this chapter);

ii. Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

iii. The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

iv. Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

Pursuant to the requirements of the Securities Act of 1933, the registrant has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized in the City of Irvine, State of California, on May 9, 2013.
