

**Prospectus Supplement
(To Prospectus Dated August 12, 2016)**

**TERRA TECH CORP.
14,813,597 Shares of Common Stock**

We are offering 14,813,597 shares of our common stock, par value \$0.001 per share (our “Common Stock”) underlying \$3,377,500 principal amount of our 12% Senior Convertible Promissory Notes due March 31, 2018 (each, a “Note,” and, collectively, the “Notes”), which we issued pursuant to a securities purchase agreement, dated September 30, 2016 (the “Securities Purchase Agreement”), by and among us and the investors named therein. The Notes will mature on March 31, 2018, unless earlier converted.

Holders may convert their Notes at their option at any time prior to such holder’s Note being paid in full. We may convert the Notes at any time that (i) the daily volume weighted average price (“VWAP”) for the prior ten (10) consecutive trading days is \$0.70 or more and (ii) the average daily trading value is greater than \$2.5 million for the prior ten (10) consecutive trading days (as reported by Bloomberg through its “HP” function). Upon conversion, we will pay or deliver, as the case may be, shares of our Common Stock or a combination of cash (representing the payment of accrued interest) and shares of our Common Stock, at our election, as described in this prospectus supplement.

The original conversion price (the “Original Conversion Price”) equals \$0.35, and is subject to adjustment pursuant to the terms of the Notes. The conversion price in effect on any conversion date will equal the lesser of the Original Conversion Price or 75% of the average of the three (3) lowest daily VWAPs in the fifteen (15) trading days prior to the conversion date (the “Conversion Price”). The Conversion Price is subject to customary adjustments upon an event of default or upon any stock dividend, stock split, stock combination, reclassification, or similar transaction that proportionately decreases or increases the Common Stock.

Our Common Stock is quoted on the OTC Markets Group, Inc.’s OTCQX tier under the symbol “TRTC.” On September 29, 2016, the closing bid price of our Common Stock was \$0.38 per share.

We intend to use the net proceeds received from the sale of the Notes to be issued pursuant to the Securities Purchase Agreement to repay outstanding debt and other due obligations. We will not receive any additional proceeds if and when the Notes are converted into shares of our Common Stock. We expect to issue such shares of Common Stock, if and when the Notes are converted, from time to time until March 31, 2018.

Investing in our securities involves a high degree of risk. Prior to investing in our securities, you should review carefully the risks and uncertainties that we have described on page S-5 of this prospectus supplement under the heading “Risk Factors,” the applicable risks contained in the applicable prospectus supplement, as well as the risk factors set forth in our most recently filed Annual Report on Form 10-K and in our periodic reports and other information filed with the Securities and Exchange Commission (the “SEC”).

NEITHER THE SEC NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS PROSPECTUS SUPPLEMENT IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this prospectus supplement is October 3, 2016.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights information contained elsewhere or incorporated by reference into this prospectus supplement. Because it is a summary, it does not contain all of the information that you should consider before investing in our securities. You should read this entire prospectus supplement carefully, including the section entitled "Risk Factors," any applicable prospectus supplement, and the documents that we incorporate by reference into this prospectus and the prospectus supplement, before making an investment decision. Unless the context indicates otherwise, as used in this prospectus supplement, the terms "we," "us" and "our" refer to Terra Tech Corp. and its subsidiaries.

Our Company

We are a holding company with the following subsidiaries:

- GrowOp Technology Ltd., a Nevada corporation ("GrowOp Technology");
- Edible Garden Corp., a Nevada corporation ("Edible Garden");
- MediFarm, LLC, Nevada limited liability company ("MediFarm");
- MediFarm I, LLC, a Nevada limited liability company ("MediFarm I");
- MediFarm II, LLC, a Nevada limited liability company ("MediFarm II");
- IVXX, LLC, a Nevada limited liability company ("IVXX");
- MediFarm I Real Estate, LLC, a Nevada limited liability company ("MediFarm I RE"); and
- Black Oak Gallery, a California corporation ("Black Oak").

Through GrowOp Technology, we engage in the design, marketing, and sale of hydroponic equipment with proprietary technology to create sustainable solutions for the cultivation of indoor agriculture. Through Edible Garden, we are a retail seller of locally grown hydroponic produce, herbs, and floral products, which are distributed throughout the Midwest and the Northeast United States. Through MediFarm, MediFarm I, and MediFarm II, we plan to operate medical marijuana cultivation, production, and dispensary facilities in Nevada.

On September 16, 2014, we formed IVXX for the purpose of producing a line of cannabis flowers and cigarettes, as well as a complete line of cannabis pure concentrates including: oils, waxes, shatters, and clears. We currently offer these products to approximately 200 select dispensaries in California. We are using our supercritical CO₂ extraction lab located in Oakland, California to manufacture these products. IVXX also sells clothing, apparel, and other various branded products.

On October 14, 2015, we formed MediFarm I RE to serve as the real estate holding company that owns the real property and a building, which is situated on the real property, at which a medical marijuana dispensary facility will be located. It is our intention that MediFarm I will operate the medical marijuana dispensary. We own 50% of the membership interests in MediFarm I RE. The remaining membership interests are owned by Forever Young Investments, LLC (50%), an otherwise unaffiliated entity.

On March 31, 2016, we acquired Black Oak, a California corporation that operates a medical marijuana dispensary in Oakland, California under the name Blüm, pursuant to that certain Agreement and Plan of Merger, dated December 23, 2015 (the “Merger Agreement”), with Generic Merger Sub, Inc., a California corporation and our wholly-owned subsidiary (the “Merger Sub”), and Black Oak. The Merger Agreement was amended by a First Amendment to the Agreement and Plan of Merger, dated February 29, 2016. Pursuant to the Merger Agreement, the Merger Sub merged with and into Black Oak, with Black Oak as the surviving corporation, and became our wholly-owned subsidiary (the “Merger”). The Merger is intended to qualify for federal income tax purposes as a tax-free reorganization under the provisions of Section 368(a) of the Internal Revenue Code of 1986, as amended.

Subject to the terms and conditions of the Merger Agreement, at the closing of the Merger, the outstanding shares of common stock of Black Oak held by (i) three of the current shareholders of Black Oak (the “Group A Shareholders”) were converted into the right to receive approximately 8,166 shares of our Series Z Preferred Stock, of which approximately 1,175 shares of Series Z Preferred Stock were issued and paid at closing, and approximately 8,668,700 shares of our Series B Preferred Stock, of which approximately 1,248,300 shares of Series B Preferred Stock were issued and paid at closing and (ii) the remaining shareholders of Black Oak (the “Group B Shareholders”) were converted into the right to receive approximately 21,378 shares of our Series Q Preferred Stock, of which approximately 3,695 shares of Series Q Preferred Stock were issued and paid at closing. The shares of Series Z Preferred Stock, Series B Preferred Stock, and Series Q Preferred Stock that were issued but not paid to the Black Oak shareholders at closing are subject to certain holdback and lock-up provisions, and held in an escrow account as security for the satisfaction of any post-closing adjustments or indemnification claims, as provided for in the Merger Agreement. Each share of Series Q Preferred Stock converted into 5,000 shares of our Common Stock and each share of Series Z Preferred Stock converted into 1,857 shares of our Series B Preferred Stock, in each case immediately upon our filing with the Secretary of State of the State of Nevada an Amendment to our Articles of Incorporation to increase our authorized capital for, among other reasons, satisfaction of the terms of this potential transaction. We filed the Amendment to our Articles of Incorporation on September 28, 2016 and a conforming amendment to our Amended Certificate of Designation for our Series B Preferred Stock that we filed on October 3, 2016. Accordingly, the approximately 21,378 shares of Series Q Preferred Stock issued to the Group B Shareholders converted into approximately 106,890,000 shares of Common Stock and the approximately 8,166 shares of Series Z Preferred Stock issued to the Group A Shareholders converted into approximately 15,164,262 shares of Series B Preferred Stock. The Series Z Preferred Stock is intended to mirror the rights of the holders of our Series B Preferred Stock. Each share of our Series B Preferred Stock remains convertible into 5.384325537 shares of our Common Stock. The aggregate fair market value of the securities issued in the Merger was approximately \$22.9 million. The Group B Shareholders may also receive cash consideration equal to approximately \$2.1 million.

The securities paid to the Group A Shareholders and the Group B Shareholders are subject to certain post-closing adjustments that are based on certain performance indicators as of the first anniversary of the closing date of the Merger. The first indicator is based on the performance of the volume-weighted average price of our Common Stock on the first anniversary of the closing date of the Merger compared to the price of our Common Stock on the date of the Merger Agreement. The second indicator is based on our revenues for the twelve-month period following the closing date of the Merger. A portion of the securities that the Group A Shareholders and the Group B Shareholders are entitled to receive at closing of the Merger will be held in an escrow until the first anniversary of the closing date of the Merger and the post-closing adjustments are complete.

Black Oak’s financial statements were filed as exhibits to a Current Report on Form 8-K, as amended, on June 7, 2016, July 1, 2016, July 20, 2016, and July 29, 2016.

For a complete description of our business, financial condition, results of operations and other important information, we refer you to our filings with the SEC, that are incorporated by reference in this prospectus supplement, including our Annual Report on Form 10-K for the year ended December 31, 2015. (“Aegis”), our adviser and placement agent for these offerings, were provided with the right to co-invest in a portion of the demand promissory notes offered. In consideration for services rendered as the placement agent in such issuances, we paid Aegis aggregate cash commissions equal to \$157,500 on capital received from non-Aegis affiliates.

RISK FACTORS

Investing in our securities involves a high degree of risk. Before making an investment decision or acquiring any offered securities pursuant to this prospectus supplement, you should carefully consider the specific factors described below, together with all of the other information contained or incorporated by reference in this prospectus supplement, the accompanying prospectus, or appearing or incorporated by reference in this prospectus supplement. You should also consider the risks, uncertainties, and assumptions discussed under the heading “Risk Factors” included in our most recent Annual Report on Form 10-K, as revised or supplemented by our subsequent Quarterly Reports on Form 10-Q, or our Current Reports on Form 8-K that we have filed with the SEC, all of which are incorporated herein by reference, and which may be amended, supplemented, or superseded from time to time by other reports we file with the SEC in the future. The risks and uncertainties we have described are not the only ones we face. Our business, financial condition, or results of operations could be materially adversely affected by any of these risks. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our operations. The occurrence of any of these risks might cause you to lose all or a part of your investment in the offered securities. This prospectus supplement and the incorporated documents also contain forward-looking statements that involve risks and uncertainties.

RISKS RELATING TO OUR BUSINESS AND INDUSTRY

We have a limited operating history, which may make it difficult for investors to predict future performance based on current operations.

We have a limited operating history upon that investors may base an evaluation of our potential future performance. In particular, we have not proven that we can supply hydroponic growing equipment, sell Edible Garden’s hydroponic produce, herbs, and floral products, or IVXX’s line of cannabis pure concentrates in a manner that enables us to be profitable and meet customer requirements, enhance Edible Garden’s hydroponic produce, herbs, or floral products, obtain the necessary permits and/or achieve certain milestones to develop MediFarm’s, MediFarm I’s, and MediFarm II’s respective businesses, enhance IVXX’s line of cannabis flowers, cigarettes, and pure concentrates, develop and maintain relationships with key manufacturers and strategic partners to extract value from our intellectual property, raise sufficient capital in the public and/or private markets, or respond effectively to competitive pressures. As a result, there can be no assurance that we will be able to develop or maintain consistent revenue sources, or that our operations will be profitable and/or generate positive cash flow.

Any forecasts we make about our operations may prove to be inaccurate. We must, among other things, determine appropriate risks, rewards, and level of investment in our product lines, respond to economic and market variables outside of our control, respond to competitive developments and continue to attract, retain, and motivate qualified employees. There can be no assurance that we will be successful in meeting these challenges and addressing such risks and the failure to do so could have a materially adverse effect on our business, results of operations, and financial condition. Our prospects must be considered in light of the risks, expenses, and difficulties frequently encountered by companies in the early stage of development. As a result of these risks, challenges, and uncertainties, the value of your investment could be significantly reduced or completely lost.

Our independent registered public accounting firm’s report for the years ended December 31, 2014 and December 31, 2015 is qualified as to our ability to continue as a going concern.

Due to the uncertainty of our ability to meet our current operating and capital expenses, in our audited annual financial statements as of and for the years ended December 31, 2014 and December 31, 2015, our independent registered public accounting firm included a note to our financial statements regarding concerns about our ability to continue as a going concern. Recurring losses from operations raise substantial doubt about our ability to continue as a going concern. The presence of the going concern note to our financial statements may have an adverse impact on the relationships we are developing and plan to develop with third parties as we continue the commercialization of our products and could make it challenging and difficult for us to raise additional financing, all of which could have a material adverse impact on our business and prospects and result in a significant or complete loss of your investment.

We have incurred significant losses in prior periods, and losses in the future could cause the quoted price of our Common Stock to decline or have a material adverse effect on our financial condition, our ability to pay our debts as they become due and on our cash flow.

We have incurred significant losses in prior periods. For the three and six months ended June 30, 2016, we incurred net losses of \$4,934,238 and \$9,060,302, respectively. As of June 30, 2016, we had an accumulated deficit of \$55,012,411. For the year ended December 31, 2015, we incurred a net loss of \$9,225,580 and, as of that date, we had an accumulated deficit of \$45,952,109. For the year ended December 31, 2014, we incurred a net loss of \$21,889,212 and, as of that date, we had an accumulated deficit of \$36,726,529. Any losses in the future could cause the quoted price of our Common Stock to decline or have a material adverse effect on our financial condition, our ability to pay our debts as they become due, and on our cash flow.

We will likely need additional capital to sustain our operations and will likely need to seek further financing, which we may not be able to obtain on acceptable terms or at all. If we fail to raise additional capital, as needed, our ability to implement our business model and strategy could be compromised.

We have limited capital resources and operations. To date, our operations have been funded entirely from the proceeds of debt and equity financings. We expect to require substantial additional capital in the near future to commence operations at the proposed cultivation and production facilities and dispensaries for MediFarm, MediFarm I, and MediFarm II, expand our product lines, develop our intellectual property base, and establish our targeted levels of commercial production. We may not be able to obtain additional financing on terms acceptable to us, or at all.

Even if we obtain financing for our near-term operations, we expect that we will require additional capital thereafter. Our capital needs will depend on numerous factors including: (i) our profitability; (ii) the release of competitive products by our competition; (iii) the level of our investment in research and development; and (iv) the amount of our capital expenditures, including acquisitions. We cannot assure you that we will be able to obtain capital in the future to meet our needs.

If we raise additional funds through the issuance of equity or convertible debt securities, the percentage ownership held by our existing stockholders will be reduced and our stockholders may experience significant dilution. In addition, new securities may contain rights, preferences, or privileges that are senior to those of our Common Stock. If we raise additional capital by incurring debt, this will result in increased interest expense. If we raise additional funds through the issuance of securities, market fluctuations in the price of our shares of Common Stock could limit our ability to obtain equity financing.

We cannot give you any assurance that any additional financing will be available to us, or if available, will be on terms favorable to us. If we are unable to raise capital when needed, our business, financial condition, and results of operations would be materially adversely affected, and we could be forced to reduce or discontinue our operations.

We face intense competition and many of our competitors have greater resources that may enable them to compete more effectively.

The industries in which we operate in general are subject to intense and increasing competition. Some of our competitors may have greater capital resources, facilities, and diversity of product lines, which may enable them to compete more effectively in this market. Our competitors may devote their resources to developing and marketing products that will directly compete with our product lines. Due to this competition, there is no assurance that we will not encounter difficulties in obtaining revenues and market share or in the positioning of our products. There are no assurances that competition in our respective industries will not lead to reduced prices for our products. If we are unable to successfully compete with existing companies and new entrants to the market this will have a negative impact on our business and financial condition.

If we fail to protect our intellectual property, our business could be adversely affected.

Our viability will depend, in part, on our ability to develop and maintain the proprietary aspects of our technology to distinguish our products from our competitors' products. We rely on copyrights, trademarks, trade secrets, and confidentiality provisions to establish and protect our intellectual property.

Any infringement or misappropriation of our intellectual property could damage its value and limit our ability to compete. We may have to engage in litigation to protect the rights to our intellectual property, which could result in significant litigation costs and require a significant amount of our time. In addition, our ability to enforce and protect our intellectual property rights may be limited in certain countries outside the United States, which could make it easier for competitors to capture market position in such countries by utilizing technologies that are similar to those developed or licensed by us.

Competitors may also harm our sales by designing products that mirror the capabilities of our products or technology without infringing on our intellectual property rights. If we do not obtain sufficient protection for our intellectual property, or if we are unable to effectively enforce our intellectual property rights, our competitiveness could be impaired, which would limit our growth and future revenue.

We may also find it necessary to bring infringement or other actions against third parties to seek to protect our intellectual property rights. Litigation of this nature, even if successful, is often expensive and time-consuming to prosecute and there can be no assurance that we will have the financial or other resources to enforce our rights or be able to enforce our rights or prevent other parties from developing similar technology or designing around our intellectual property.

Although we believe that our technology does not and will not infringe upon the patents or violate the proprietary rights of others, it is possible such infringement or violation has occurred or may occur, which could have a material adverse effect on our business.

We are not aware of any infringement by us of any person's or entity's intellectual property rights. In the event that products we sell are deemed to infringe upon the patents or proprietary rights of others, we could be required to modify our products or obtain a license for the manufacture and/or sale of such products or cease selling such products. In such event, there can be no assurance that we would be able to do so in a timely manner, upon acceptable terms and conditions, or at all, and the failure to do any of the foregoing could have a material adverse effect upon our business.

There can be no assurance that we will have the financial or other resources necessary to enforce or defend a patent infringement or proprietary rights violation action. If our products or proposed products are deemed to infringe or likely to infringe upon the patents or proprietary rights of others, we could be subject to injunctive relief and, under certain circumstances, become liable for damages, which could also have a material adverse effect on our business and our financial condition.

Our trade secrets may be difficult to protect.

Our success depends upon the skills, knowledge, and experience of our scientific and technical personnel, our consultants and advisors, as well as our licensors and contractors. Because we operate in several highly competitive industries, we rely in part on trade secrets to protect our proprietary technology and processes. However, trade secrets are difficult to protect. We enter into confidentiality or non-disclosure agreements with our corporate partners, employees, consultants, outside scientific collaborators, developers, and other advisors. These agreements generally require that the receiving party keep confidential and not disclose to third parties confidential information developed by the receiving party or made known to the receiving party by us during the course of the receiving party's relationship with us. These agreements also generally provide that inventions conceived by the receiving party in the course of rendering services to us will be our exclusive property, and we enter into assignment agreements to perfect our rights.

These confidentiality, inventions, and assignment agreements may be breached and may not effectively assign intellectual property rights to us. Our trade secrets also could be independently discovered by competitors, in which case we would not be able to prevent the use of such trade secrets by our competitors. The enforcement of a claim alleging that a party illegally obtained and was using our trade secrets could be difficult, expensive, and time consuming and the outcome would be unpredictable. In addition, courts outside the United States may be less willing to protect trade secrets. The failure to obtain or maintain meaningful trade secret protection could adversely affect our competitive position.

Our business, financial condition, results of operations, and cash flow have been, and may in the future be, negatively impacted by challenging global economic conditions.

The recent global economic slowdown has caused disruptions and extreme volatility in global financial markets, increased rates of default and bankruptcy, and declining consumer and business confidence, which has led to decreased levels of consumer spending. These macroeconomic developments have and could continue to negatively impact our business, which depends on the general economic environment and levels of consumer spending. As a result, we may not be able to maintain our existing customers or attract new customers, or we may be forced to reduce the price of our products. We are unable to predict the likelihood of the occurrence, duration, or severity of such disruptions in the credit and financial markets and adverse global economic conditions. Any general or market-specific economic downturn could have a material adverse effect on our business, financial condition, results of operations, and cash flow.

Our future success depends on our key executive officers and our ability to attract, retain, and motivate qualified personnel.

Our future success largely depends upon the continued services of our executive officers and management team, especially our President and Chief Executive Officer, Mr. Derek Peterson. If one or more of our executive officers are unable or unwilling to continue in their present positions, we may not be able to replace them readily, if at all. Additionally, we may incur additional expenses to recruit and retain new executive officers. If any of our executive officers joins a competitor or forms a competing company, we may lose some or all of our customers. Finally, we do not maintain “key person” life insurance on any of our executive officers. Because of these factors, the loss of the services of any of these key persons could adversely affect our business, financial condition, and results of operations, and thereby an investment in our stock.

Our continuing ability to attract and retain highly qualified personnel will also be critical to our success because we will need to hire and retain additional personnel as our business grows. There can be no assurance that we will be able to attract or retain highly qualified personnel. We face significant competition for skilled personnel in our industries. This competition may make it more difficult and expensive to attract, hire, and retain qualified managers and employees. Because of these factors, we may not be able to effectively manage or grow our business, which could adversely affect our financial condition or business. As a result, the value of your investment could be significantly reduced or completely lost.

We may not be able to effectively manage our growth or improve our operational, financial, and management information systems, which would impair our results of operations.

In the near term, we intend to expand the scope of our operations activities significantly. If we are successful in executing our business plan, we will experience growth in our business that could place a significant strain on our business operations, finances, management, and other resources. The factors that may place strain on our resources include, but are not limited to, the following:

- The need for continued development of our financial and information management systems;
- The need to manage strategic relationships and agreements with manufacturers, customers, and partners; and
- Difficulties in hiring and retaining skilled management, technical, and other personnel necessary to support and manage our business.

Additionally, our strategy envisions a period of rapid growth that may impose a significant burden on our administrative and operational resources. Our ability to effectively manage growth will require us to substantially expand the capabilities of our administrative and operational resources and to attract, train, manage, and retain qualified management and other personnel. There can be no assurance that we will be successful in recruiting and retaining new employees, or retaining existing employees.

We cannot provide assurances that our management will be able to manage this growth effectively. Our failure to successfully manage growth could result in our sales not increasing commensurately with capital investments or otherwise materially adversely affecting our business, financial condition, or results of operations.

If we are unable to continually innovate and increase efficiencies, our ability to attract new customers may be adversely affected.

In the area of innovation, we must be able to develop new technologies and products that appeal to our customers. This depends, in part, on the technological and creative skills of our personnel and on our ability to protect our intellectual property rights. We may not be successful in the development, introduction, marketing, and sourcing of new technologies or innovations, that satisfy customer needs, achieve market acceptance, or generate satisfactory financial returns.

We are dependent on the popularity of consumer acceptance of IVXX's product lines.

Our ability to generate revenue and be successful in the implementation of IVXX's business plan is dependent on consumer acceptance and demand of IVXX's medical marijuana product lines. Acceptance of IVXX's products will depend on several factors, including availability, cost, ease of use, familiarity of use, convenience, effectiveness, safety, and reliability. If these customers do not accept IVXX's products, or if we fail to meet IVXX's customers' needs and expectations adequately, our ability to continue generating revenues could be reduced.

A drop in the retail price of medical marijuana products may negatively impact IVXX's business.

The demand for IVXX's products depends in part on the price of commercially grown marijuana. Fluctuations in economic and market conditions that impact the prices of commercially grown marijuana, such as increases in the supply of such marijuana and the decrease in the price of products using commercially grown marijuana, could cause the demand for medical marijuana products to decline, which would have a negative impact on our business.

Federal regulation and enforcement may adversely affect the implementation of medical marijuana laws and regulations may negatively impact our revenues and profits.

Currently, there are 25 states plus the District of Columbia that have laws and/or regulations that recognize, in one form or another, legitimate medical uses for cannabis and consumer use of cannabis in connection with medical treatment. Many other states are considering similar legislation. Conversely, under the CSA, the policies and regulations of the federal government and its agencies are that cannabis has no medical benefit and a range of activities including cultivation and the personal use of cannabis is prohibited. Unless and until Congress amends the CSA with respect to medical marijuana, as to the timing or scope of any such potential amendments there can be no assurance, there is a risk that federal authorities may enforce current federal law, and we may be deemed to be producing, cultivating, or dispensing marijuana in violation of federal law with respect to MediFarm's, MediFarm I's, MediFarm II's, or IVXX's current or proposed business operations, or we may be deemed to be facilitating the sale or distribution of drug paraphernalia in violation of federal law with respect to GrowOp Technology's business operations. Active enforcement of the current federal regulatory position on cannabis may thus indirectly and adversely affect our revenues and profits. The risk of strict enforcement of the CSA in light of Congressional activity, judicial holdings, and stated federal policy remains uncertain.

The U.S. Supreme Court declined to hear a case brought by San Diego County, California that sought to establish federal preemption over state medical marijuana laws. The preemption claim was rejected by every court that reviewed the case. The California 4th District Court of Appeals wrote in its unanimous ruling, "Congress does not have the authority to compel the states to direct their law enforcement personnel to enforce federal laws." However, in another case, the U.S. Supreme Court held that, as long as the CSA contains prohibitions against marijuana, under the Commerce Clause of the United States Constitution, the United States may criminalize the production and use of homegrown cannabis even where states approve its use for medical purposes.

In an effort to provide guidance to federal law enforcement, the DOJ has issued Guidance Regarding Marijuana Enforcement to all United States Attorneys in a memorandum from Deputy Attorney General David Ogden on October 19, 2009, in a memorandum from Deputy Attorney General James Cole on June 29, 2011 and in a memorandum from Deputy Attorney General James Cole on August 29, 2013. Each memorandum provides that the DOJ is committed to the enforcement of the CSA, but, the DOJ is also committed to using its limited investigative and prosecutorial resources to address the most significant threats in the most effective, consistent, and rational way.

The August 29, 2013 memorandum provides updated guidance to federal prosecutors concerning marijuana enforcement in light of state laws legalizing medical and recreational marijuana possession in small amounts.

The memorandum sets forth certain enforcement priorities that are important to the federal government:

- Distribution of marijuana to children;
- Revenue from the sale of marijuana going to criminals;
- Diversion of medical marijuana from states where it is legal to states where it is not;
- Using state authorized marijuana activity as a pretext of other illegal drug activity;
- Preventing violence in the cultivation and distribution of marijuana;
- Preventing drugged driving;
- Growing marijuana on federal property; and
- Preventing possession or use of marijuana on federal property.

The DOJ has not historically devoted resources to prosecuting individuals whose conduct is limited to possession of small amounts of marijuana for use on private property but has relied on state and local law enforcement to address marijuana activity. In the event the DOJ reverses its stated policy and begins strict enforcement of the CSA in states that have laws legalizing medical marijuana and recreational marijuana in small amounts, there may be a direct and adverse impact to our business and our revenue and profits. Furthermore, H.R. 83, enacted by Congress on December 16, 2014, provides that none of the funds made available to the DOJ pursuant to the 2015 Consolidated and Further Continuing Appropriations Act may be used to prevent certain states, including Nevada and California, from implementing their own laws that authorized the use, distribution, possession, or cultivation of medical marijuana.

We could be found to be violating laws related to medical cannabis.

Currently, there are 25 states plus the District of Columbia that have laws and/or regulations that recognize, in one form or another, legitimate medical uses for cannabis and consumer use of cannabis in connection with medical treatment. Many other states are considering similar legislation. Conversely, under the CSA, the policies and regulations of the federal government and its agencies are that cannabis has no medical benefit and a range of activities including cultivation and the personal use of cannabis is prohibited. Unless and until Congress amends the CSA with respect to medical marijuana, as to the timing or scope of any such amendments there can be no assurance, there is a risk that federal authorities may enforce current federal law. The risk of strict enforcement of the CSA in light of Congressional activity, judicial holdings, and stated federal policy remains uncertain. With respect to GrowOp Technology, we currently sell a material portion of our hydroponic equipment to medical marijuana growers. Should it be determined under the CSA that GrowOp Technology's products or equipment are deemed to fall under the definition of drug paraphernalia because its products could be determined to be primarily intended or designed for use in manufacturing or producing cannabis, GrowOp Technology could be found to be in violation of federal drug paraphernalia laws and there may be a direct and adverse effect on GrowOp Technology's business, revenues, and profits, and to a lesser extent, our business, revenues, and profits. With respect to MediFarm, we currently sell and distribute medical marijuana at its dispensary, and, therefore, MediFarm could be found to be in violation of federal laws and there may be a direct and adverse effect on MediFarm's business, revenues, and profits, which in turn would adversely affect our business, revenues, and profits. With respect to MediFarm, we do not currently cultivate or product medical marijuana, and with respect to MediFarm I and MediFarm II, we do not currently cultivate, produce, sell, or distribute any medical marijuana, and, therefore, we have no risk that we will be deemed to facilitate the selling or distribution of medical marijuana in violation of federal law. However, if we obtain the necessary final government approvals and permits in Nevada and obtain the necessary funding to commence the cultivation and production of medical marijuana and/or the operation of dispensary facilities for our MediFarm, MediFarm I, and MediFarm II subsidiaries, as to the successful achievement of any or all of such objectives there can be no assurance, we could be found in violation of the CSA in connection with the sale of IVXX's cannabis flowers, cigarettes, and pure concentrates. This would cause a direct and adverse effect on our subsidiaries' businesses, or intended businesses, and on our revenue and prospective profits.

Variations in state and local regulation, and enforcement in states that have legalized medical cannabis, may restrict marijuana-related activities, including activities related to medical cannabis, which may negatively impact our revenues and prospective profits.

Individual state laws do not always conform to the federal standard or to other states laws. A number of states have decriminalized marijuana to varying degrees, other states have created exemptions specifically for medical cannabis, and several have both decriminalization and medical laws. Four states, Alaska, Colorado, Oregon, and Washington, and the District of Columbia have legalized the recreational use of cannabis. Variations exist among states that have legalized, decriminalized, or created medical marijuana exemptions. For example, Alaska, Colorado, and the District of Columbia have limits on the number of marijuana plants that can be homegrown. In most states, the cultivation of marijuana for personal use continues to be prohibited except for those states that allow small-scale cultivation by the individual in possession of medical marijuana needing care or that person's caregiver. Active enforcement of state laws that prohibit personal cultivation of marijuana may indirectly and adversely affect our business and our revenue and profits.

It is possible that federal or state legislation could be enacted in the future that would prohibit us or potential customers from selling GrowOp Technology's products, and if such legislation were enacted, our revenues could decline, leading to a loss in your investment.

We are not aware of any federal or state regulation that regulates the sale of indoor cultivation equipment to medical or recreational marijuana growers. The extent to which the regulation of drug paraphernalia under the CSA is applicable to GrowOp Technology's business and the sale of GrowOp Technology's products is found in the definition of "drug paraphernalia." Drug paraphernalia means any equipment, product, or material of any kind that is primarily intended or designed for use in manufacturing, compounding, converting, concealing, producing processing, preparing, injecting, ingesting, inhaling, or otherwise introducing into the human body a controlled substance, possession of which is unlawful. GrowOp Technology's products are primarily designed for general agricultural use. We have no direct or indirect design features in our equipment specifically or primarily of the cultivation of medical cannabis. Although it is possible that medical marijuana may be grown in GrowOp Technology's hydroponic equipment, we make no inquiry of our customers as to their intended agricultural use of GrowOp Technology's products.

Our understanding of federal or state regulation of the sale of indoor cultivation equipment to medical or recreational cannabis growers is prohibited if the primary intent or design of the equipment is indoor cultivation equipment to medical or recreational cannabis growers. Our products are primarily designed for general agricultural use. We have no direct or indirect design features in our equipment specifically or primarily of the cultivation of medical marijuana. Although it is possible that medical marijuana may be grown in GrowOp Technology's hydroponic equipment, we make no inquiry of our customers as to their intended agricultural use of GrowOp Technology's products. If federal and/or state legislation is enacted that prohibits the sale of our growing equipment to medical cannabis growers, our revenues could decline, which could result in a decrease in the price of our Common Stock.

Prospective customers may be deterred from doing business with a company with a significant nationwide online presence because of fears of federal or state enforcement of laws prohibiting possession and sale of medical or recreational marijuana.

Our website is visible in jurisdictions where medicinal and/or recreational use of marijuana is not permitted and, as a result, we may be found to be violating the laws of those jurisdictions. We could lose potential customers as they could fear federal prosecution for growing marijuana with GrowOp Technology's equipment, reducing our revenue. In most states in which the production and sale of marijuana have been legalized, there are additional laws or licenses required and some states altogether prohibit home cultivation, all of which could make the loss of potential customers more likely.

Marijuana remains illegal under federal law.

Marijuana is a Schedule-I controlled substance and is illegal under federal law. Even in those states in which the use of marijuana has been legalized, its use remains a violation of federal law. Since federal law criminalizing the use of marijuana preempts state laws that legalize its use, strict enforcement of federal law regarding marijuana would likely result in our inability to proceed with our business plan, especially in respect of MediFarm, MediFarm I, MediFarm II, and IVXX.

Laws and regulations affecting the medical marijuana industry are constantly changing, which could detrimentally affect the proposed operations of MediFarm, MediFarm I, and MediFarm II, and the business of IVXX.

Local, state, and federal medical marijuana laws and regulations are broad in scope and subject to evolving interpretations, which could require us to incur substantial costs associated with compliance or alter certain aspects of our business plan. In addition, violations of these laws, or allegations of such violations, could disrupt certain aspects of our business plan and result in a material adverse effect on certain aspects of our planned operations. In addition, it is possible that regulations may be enacted in the future that will be directly applicable to certain aspects of our proposed medical marijuana businesses through MediFarm, MediFarm I, MediFarm II, and our business of selling cannabis products through IVXX. We cannot predict the nature of any future laws, regulations, interpretations or applications, nor can we determine what effect additional governmental regulations or administrative policies and procedures, when and if promulgated, could have on our business.

We may not obtain the necessary permits and authorizations to operate the medical marijuana business.

MediFarm, MediFarm I, or MediFarm II may not be able to obtain or maintain the necessary licenses, permits, authorizations, or accreditations, or may only be able to do so at great cost, to operate its medical marijuana business. In addition, we may not be able to comply fully with the wide variety of laws and regulations applicable to the medical marijuana industry. Failure to comply with or to obtain the necessary licenses, permits, authorizations, or accreditations could result in restrictions on our ability to operate the medical marijuana business, which could have a material adverse effect on our business.

If we incur substantial liability from litigation, complaints, or enforcement actions, our financial condition could suffer.

MediFarm's, MediFarm I's, MediFarm II's, and IVXX's participation in the medical marijuana industry may lead to litigation, formal or informal complaints, enforcement actions, and inquiries by various federal, state, or local governmental authorities against these subsidiaries. Litigation, complaints, and enforcement actions involving these subsidiaries could consume considerable amounts of financial and other corporate resources, which could have a negative impact on our sales, revenue, profitability, and growth prospects. As our subsidiaries, MediFarm, MediFarm I, and MediFarm II, are only in the process of obtaining final licenses to cultivate and sell medical marijuana in Nevada, and are not as such presently engaged in the cultivation or distribution of marijuana, our subsidiaries have not been, and are not currently, subject to any material litigation, complaint, or enforcement action regarding marijuana (or otherwise) brought by any federal, state, or local governmental authority. IVXX is presently engaged in the distribution of marijuana; however, we have not been, and are not currently, subject to any material litigation, complaint or enforcement action regarding marijuana (or otherwise) brought by any federal, state, or local governmental authority with respect to IVXX's business.

We may have difficulty accessing the service of banks, which may make it difficult for us to operate.

Since the use of marijuana is illegal under federal law, there is a strong argument that banks cannot accept for deposit funds from businesses involved with the marijuana industry. Consequently, businesses involved in the marijuana industry often have difficulty finding a bank willing to accept their business. The inability to open or maintain bank accounts may make it difficult for us to operate our contemplated medical marijuana businesses.

We are dependent on the popularity of consumer acceptance of hydroponic grown produce and herbs.

Our ability to generate revenue and be successful in the continued implementation of Edible Garden's business plan is dependent on consumer acceptance and demand of hydroponic grown produce and herbs. Acceptance of Edible Garden's products will depend on several factors, including availability, cost, and convenience. If these customers do not accept Edible Garden's products, or if we fail to meet Edible Garden's customers' needs and expectations adequately, our ability to continue generating revenues could be reduced.

A drop in the retail price of commercially grown produce may negatively impact our business.

The demand for Edible Garden's hydroponic grown produce depends in part on the price of commercially grown produce. Fluctuations in economic and market conditions that impact the prices of commercially grown produce, such as increases in the supply of such produce and the decrease in the price of commercially grown produce, could cause the demand for hydroponic grown produce to decline, which would have a negative impact on our business.

If we are unable to adopt or incorporate technological advances into GrowOp Technology's hydroponic equipment products, our business could become less competitive, uncompetitive, or obsolete and we may not be able to compete effectively with competitors' products.

We expect that technological advances in the processes and procedures for hydroponic growing equipment will continue to occur. As a result, there are risks that products that compete with our products could be improved or developed. If we are unable to adopt or incorporate technological advances, our products could be less efficient or cost-effective than methods developed and sold by our competitors, which could cause GrowOp Technology's products to become less competitive, uncompetitive, or obsolete, which would have a material adverse effect on GrowOp Technology's financial condition, and to a much lesser extent, on our financial condition.

Competing forms of specialized agricultural equipment may be more desirable to consumers or make GrowOp Technology's products obsolete.

There are currently several different specialized agricultural equipment technologies being deployed in urban vertical farming operations other than hydroponics, such as aquaponics and terraponics. Further development of any of these competitive technologies may lead to advancements in vertical farming techniques that will make GrowOp Technology's products obsolete. Consumers may prefer alternative technologies and products. Any developments that contribute to the obsolescence of our products may substantially impact our business, reducing our ability to generate revenues.

Litigation may adversely affect our business, financial condition, and results of operations.

From time to time in the normal course of our business operations, we may become subject to litigation that may result in liability material to our financial statements as a whole or may negatively affect our operating results if changes to our business operations are required. The cost to defend such litigation may be significant and may require a diversion of our resources. There also may be adverse publicity associated with litigation that could negatively affect customer perception of our business, regardless of whether the allegations are valid or whether we are ultimately found liable. Insurance may not be available at all or in sufficient amounts to cover any liabilities with respect to these or other matters. A judgment or other liability in excess of our insurance coverage for any claims could adversely affect our business and the results of our operations.

Our officers and directors have significant control over stockholder matters and the minority stockholders will have little or no control over our affairs.

Our officers and directors currently own approximately 16.73% of our outstanding Common Stock, and, through the ownership of preferred stock, have approximately 44.07% of stockholder voting power, and thus significant control over stockholder matters, such as election of directors, amendments to the Articles of Incorporation, and approval of significant corporate transactions. As a result, our minority stockholders will have little or no control over our affairs.

If we fail to implement and maintain proper and effective internal controls and disclosure controls and procedures pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, our ability to produce accurate and timely financial statements and public reports could be impaired, which could adversely affect our operating results, our ability to operate our business, and investors' views of us.

As of December 31, 2015, management assessed the effectiveness of our internal controls over financial reporting. Management concluded, as of the year ended December 31, 2015, that our internal controls and procedures were not effective to detect the inappropriate application of U.S. GAAP rules. Management concluded that our internal controls were adversely affected by deficiencies in the design or operation of our internal controls, which management considered to be material weaknesses. These material weaknesses include the following:

- lack of a majority of independent members and a lack of a majority of outside directors on our Board of Directors ("Board"), resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures;
- inadequate segregation of duties consistent with control objectives; and
- ineffective controls over period end financial disclosure and reporting processes.

The failure to implement and maintain proper and effective internal controls and disclosure controls could result in material weaknesses in our financial reporting, such as errors in our financial statements and in the accompanying footnote disclosures that could require restatements. Investors may lose confidence in our reported financial information and disclosure, which could negatively impact our stock price.

We do not expect that our internal controls over financial reporting will prevent all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. Over time, controls may become inadequate because changes in conditions or deterioration in the degree of compliance with policies or procedures may occur. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Our insurance coverage may be inadequate to cover all significant risk exposures.

We will be exposed to liabilities that are unique to the products we provide. While we intend to maintain insurance for certain risks, the amount of our insurance coverage may not be adequate to cover all claims or liabilities, and we may be forced to bear substantial costs resulting from risks and uncertainties of our business. It is also not possible to obtain insurance to protect against all operational risks and liabilities. The failure to obtain adequate insurance coverage on terms favorable to us, or at all, could have a material adverse effect on our business, financial condition, and results of operations. We do not have any business interruption insurance. Any business disruption or natural disaster could result in substantial costs and diversion of resources.

RISKS RELATED TO AN INVESTMENT IN OUR SECURITIES

We expect to experience volatility in the price of our Common Stock, which could negatively affect stockholders' investments.

The trading price of our Common Stock may be highly volatile and could be subject to wide fluctuations in response to various factors, some of which are beyond our control. The stock market in general has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of companies with securities traded in those markets. Broad market and industry factors may seriously affect the market price of companies' stock, including ours, regardless of actual operating performance. All of these factors could adversely affect your ability to sell your shares of Common Stock or, if you are able to sell your shares, to sell your shares at a price that you determine to be fair or favorable.

The relative lack of public company experience of our management team could adversely impact our ability to comply with the reporting requirements of U.S. securities laws.

Our management team lacks public company experience, which could impair our ability to comply with legal and regulatory requirements such as those imposed by the Sarbanes-Oxley Act of 2002. Our senior management has limited experience in managing a publicly traded company. Such responsibilities include complying with federal securities laws and making required disclosures on a timely basis. Our senior management may not be able to implement programs and policies in an effective and timely manner that adequately respond to such increased legal, regulatory compliance, and reporting requirements, including the establishing and maintaining of internal controls over financial reporting. Any such deficiencies, weaknesses, or lack of compliance could have a materially adverse effect on our ability to comply with the reporting requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), which is necessary to maintain our public company status. If we were to fail to fulfill those obligations, our ability to continue as a U.S. public company would be in jeopardy, we could be subject to the imposition of fines and penalties, and our management would have to divert resources from attending to our business plan.

Our Common Stock is categorized as “penny stock,” which may make it more difficult for investors to sell their shares of Common Stock due to suitability requirements.

Our Common Stock is categorized as “penny stock.” The Securities and Exchange Commission (the “SEC”) has adopted Rule 15c-2-01 which generally defines “penny stock” to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. The price of our Common Stock is significantly less than \$5.00 per share, and is therefore considered “penny stock.” This designation imposes additional sales practice requirements on broker-dealers who sell to persons other than established customers and accredited investors. The penny stock rules require a broker-dealer buying our securities to disclose certain information concerning the transaction, obtain a written agreement from the purchaser and determine that the purchaser is reasonably suitable to purchase the securities given the increased risks generally inherent in penny stocks. These rules may restrict the ability and/or willingness of brokers or dealers to buy or sell our Common Stock, either directly or on behalf of their clients, may discourage potential stockholders from purchasing our Common Stock, or may adversely affect the ability of stockholders to sell their shares.

Financial Industry Regulatory Authority (“FINRA”) sales practice requirements may also limit a stockholder’s ability to buy and sell our Common Stock, which could depress the price of our Common Stock.

In addition to the “penny stock” rules described above, FINRA has adopted rules that require a broker-dealer to have reasonable grounds for believing that the investment is suitable for that customer before recommending an investment to a customer. Prior to recommending speculative low-priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer’s financial status, tax status, investment objectives, and other information. Under interpretations of these rules, FINRA believes that there is a high probability that speculative low-priced securities will not be suitable for at least some customers. Thus, the FINRA requirements make it more difficult for broker-dealers to recommend that their customers buy our Common Stock, which may limit your ability to buy and sell our shares of Common Stock, have an adverse effect on the market for our shares of Common Stock, and thereby depress our price per share of Common Stock.

The elimination of monetary liability against our directors, officers, and employees under Nevada law and the existence of indemnification rights for or obligations to our directors, officers, and employees may result in substantial expenditures by us and may discourage lawsuits against our directors, officers, and employees.

Our Articles of Incorporation contain a provision permitting us to eliminate the personal liability of our directors to us and our stockholders for damages for the breach of a fiduciary duty as a director or officer to the extent provided by Nevada law. We may also have contractual indemnification obligations under any future employment agreements with our officers or agreements entered into with our directors. The foregoing indemnification obligations could result in us incurring substantial expenditures to cover the cost of settlement or damage awards against directors and officers, which we may be unable to recoup. These provisions and the resulting costs may also discourage us from bringing a lawsuit against directors and officers for breaches of their fiduciary duties, and may similarly discourage the filing of derivative litigation by our stockholders against our directors and officers even though such actions, if successful, might otherwise benefit us and our stockholders.

We may issue additional shares of Common Stock or preferred stock in the future, which could cause significant dilution to all stockholders.

Our Articles of Incorporation authorize the issuance of up to 990,000,000 shares of Common Stock and 50,000,000 shares of preferred stock, with a par value of \$0.001 per share. As of October 3, 2016, we had 473,917,277 shares of Common Stock, 100 shares of Series A Preferred Stock and 40,382,962 shares of Series B Preferred Stock outstanding; however, we may issue additional shares of Common Stock or preferred stock in the future in connection with a financing or an acquisition. Such issuances may not require the approval of our stockholders. In addition, certain of our outstanding rights to purchase additional shares of Common Stock or securities convertible into our Common Stock are subject to full-ratchet anti-dilution protection, which could result in the right to purchase significantly more shares of Common Stock being issued or a reduction in the purchase price for any such shares or both. Any issuance of additional shares of our Common Stock, or equity securities convertible into our Common Stock, including but not limited to, preferred stock, warrants, and options, will dilute the percentage ownership interest of all stockholders, may dilute the book value per share of our Common Stock, and may negatively impact the market price of our Common Stock.

Anti-takeover effects of certain provisions of Nevada state law hinder a potential takeover of us.

Nevada has a business combination law that prohibits certain business combinations between Nevada corporations and “interested stockholders” for three years after an “interested stockholder” first becomes an “interested stockholder,” unless the corporation’s board of directors approves the combination in advance. For purposes of Nevada law, an “interested stockholder” is any person who is (i) the beneficial owner, directly or indirectly, of ten percent or more of the voting power of the outstanding voting shares of the corporation or (ii) an affiliate or associate of the corporation and at any time within the three previous years was the beneficial owner, directly or indirectly, of ten percent or more of the voting power of the then outstanding shares of the corporation. The definition of the term “business combination” is sufficiently broad to cover virtually any kind of transaction that would allow a potential acquiror to use the corporation’s assets to finance the acquisition or otherwise to benefit its own interests rather than the interests of the corporation and its other stockholders.

The effect of Nevada’s business combination law is potentially to discourage parties interested in taking control of us from doing so if they cannot obtain the approval of our Board. Both of these provisions could limit the price investors would be willing to pay in the future for shares of our Common Stock.

Because we do not intend to pay any cash dividends on our Common Stock, our stockholders will not be able to receive a return on their shares unless they sell them.

We intend to retain any future earnings to finance the development and expansion of our business. We do not anticipate paying any cash dividends on our Common Stock in the foreseeable future. Declaring and paying future dividends, if any, will be determined by our Board, based upon earnings, financial condition, capital resources, capital requirements, restrictions in our Articles of Incorporation, contractual restrictions, and such other factors as our Board deems relevant. Unless we pay dividends, our stockholders will not be able to receive a return on their shares unless they sell them. There is no assurance that stockholders will be able to sell shares when desired.

CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus, and the documents incorporated by reference into this prospectus supplement contain certain “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act, and the Private Securities Litigation Reform Act of 1995 with respect to our business, financial condition, liquidity, and results of operations. - Our ability to maintain our key relationships with partners and service providers;
- Our ability to manage our growth effectively; and
- Our ability to compete with competitors that may have greater resources than us.

Many of the important factors that will determine these results are beyond our ability to control or predict. You should not place undue reliance on our forward-looking statements because the matters they describe are subject to certain risks, uncertainties, and assumptions that are difficult to predict. Our forward-looking statements are based on the information currently available to us and speak only as of the date on the cover of this prospectus supplement, or, in the case of forward-looking statements incorporated by reference, the date of the filing that includes the statement. Over time, our actual results, performance, or achievements may differ from those expressed or implied by our forward-looking statements, and such difference might be significant and materially adverse to our security holders. Except as required by law, we undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events, or otherwise. Please consider our forward-looking statements in light of those risks as you read this prospectus supplement.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the Notes to be issued pursuant to the Securities Purchase Agreement will be approximately \$3,357,700, after deducting estimated offering expenses payable by us. We intend to use the net proceeds for the repayment of outstanding debt. We will not receive any additional proceeds upon the conversion of the Notes.

Our expected use of the net proceeds from the sale of the Notes represents our current intentions based upon our present plans and business condition. As of the date of this prospectus supplement, we cannot predict with complete certainty all of the particular uses for the net proceeds to be received upon the completion of the sale of the Notes or the actual amounts that we will spend on the uses set forth above. Our management will have broad discretion in the application of the net proceeds in the category of other working capital and general corporate purposes.

CAPITALIZATION

The following table sets forth our capitalization assumed as of June 30, 2016, on an actual basis and on an as adjusted basis to reflect the issuance of 14,813,597 shares of Common Stock underlying \$3,377,500 principal amount of the Notes in this offering, after offering expenses payable by us, and the application of the net proceeds from our sale of the Notes pursuant to the Securities Purchase Agreement.

You should read this information in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our financial statements and the related notes incorporated by reference in this prospectus supplement and the accompanying prospectus, see “Where You Can Find More Information” and “Incorporation of Certain Information by Reference.”

The number of shares of our Common Stock outstanding used is based on shares of our Common Stock outstanding as of June 30, 2016 and excludes: (i) 100 shares of Common Stock issuable upon conversion of our outstanding Series A Preferred Stock, (ii) 133,631,960 shares of Common Stock issuable upon conversion of our outstanding Series B Preferred Stock, (iii) 2,500,000 shares of Common Stock issuable upon conversion of our outstanding Series N Preferred Stock; (iv) 106,890,000 shares of Common Stock issuable upon conversion of our outstanding Series Q Preferred Stock; (v) 81,649,323 shares of Common Stock issuable upon conversion of our outstanding Series Z Preferred Stock; (vi) 1,252,917 shares of our Common Stock issuable upon the exercise of our outstanding options, (vii) 30,746,782 shares of our Common Stock issuable upon the exercise of our outstanding warrants, (viii) 32,934,232 shares of our Common Stock issuable upon the conversion of our outstanding convertible notes (which does not include the shares of our Common Stock underlying the Notes), and (ix) 28,747,083 shares of Common Stock reserved for future issuance under the Plan.

DILUTION

Our net tangible book value as of June 30, 2016 was negative \$11,536,076, or \$0.0330 per share of Common Stock. Net tangible book value per share represents the amount of our total tangible assets, less our total liabilities, divided by the number of shares of Common Stock outstanding as of June 30, 2016. Net tangible book value dilution per share of Common Stock to new investors represents the difference between the amount per share of Common Stock paid by purchasers in this offering and the net tangible book value per share of Common Stock immediately after completion of this offering.

After giving effect to the entire conversion of the Notes, assuming a conversion price of \$0.28 per share of Common Stock and that 14,813,597 shares are issued upon conversion of the Notes, and after deducting estimated offering expenses, our pro forma net tangible book value as of June 30, 2016 would have been negative \$8,158,576, or \$0.0224 per share. This represents an immediate increase in net tangible book value of \$0.0106 per share to existing stockholders and an immediate dilution in net tangible book value of \$0.28 per share to purchasers in this offering, as illustrated in the following table:

Assumed conversion price per share	\$	0.2800	
Pro forma net tangible book value per share as of June 30, 2016	\$	(0.0330)	
Increase per share attributable to new investors	\$	0.0106	
Pro forma net tangible book value per share after this offering			\$ (0.0224)
Dilution per share to new investors			\$ 0.2800

The number of shares of our Common Stock excludes:

- 100 shares our Common Stock issuable upon conversion of our outstanding Series A Preferred Stock;
- 133,631,960 shares of our Common Stock issuable upon conversion of our outstanding Series B Preferred Stock;
- 2,500,000 shares of our Common Stock issuable upon conversion of our outstanding Series N Preferred Stock;
- 106,890,000 shares of our Common Stock issuable upon conversion of our outstanding Series Q Preferred Stock;
- 81,649,323 shares of our Common Stock issuable upon conversion of our outstanding Series Z Preferred Stock;
- 1,252,917 shares of our Common Stock underlying outstanding stock options;
- 28,996,782 shares of our Common Stock issuable upon the exercise of warrants outstanding as of June 30, 2016, with a weighted-average exercise price of \$0.18 per share;
- 32,934,232 shares of our Common Stock issuable upon the conversion of convertible notes outstanding as of June 30, 2016; and
- 28,747,083 shares of our Common Stock reserved for future issuance as of June 30, 2016 under the Plan.

As of June 30, 2016, we had no shares of our Series G Preferred Stock outstanding.

To the extent that any of these outstanding options are exercised, warrants are exercised, shares of our preferred stock are converted, convertible notes are converted, or we issue additional shares of our Common Stock pursuant to our Plan, there will be further dilution to new investors. In addition, we may choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operation plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our stockholders.

As of October 3, 2016, we had 94 record holders. We believe that we have more than 25,000 beneficial holders of our Common Stock.

DIVIDEND POLICY

We have not declared any dividends and we do not plan to declare any dividends in the foreseeable future. There are no restrictions in our Articles of Incorporation, as amended, or Bylaws that prevent us from declaring dividends. The Nevada Revised Statutes, however, prohibit us from declaring dividends where, after giving effect to the distribution of the dividend:

- we would not be able to pay our debts as they become due in the usual course of business; or
- our total assets would be less than the sum of our total liabilities plus the amount that would be needed to satisfy the rights of stockholders who have preferential rights superior to those receiving the distribution, unless otherwise permitted under our Articles of Incorporation.

DESCRIPTION OF OFFERING

We will issue \$3,377,500 aggregate principal amount of the Notes pursuant to the Securities Purchase Agreement. The following description relates to the particular terms the Notes that relate to the possible issuance of shares of our Common Stock in connection therewith.

Maturity Date

The Notes will mature on March 31, 2018, unless earlier converted.

Interest

The Notes will bear interest at a rate of 12% per annum, payable on each conversion date for the principal amount being converted and on the maturity date in either cash, or at our option, in shares of our Common Stock. The interest rate will increase by 18% per annum or the maximum rate permitted under applicable law upon the occurrence of any event of default that results in the eventual acceleration of the Notes.

Conversion

Holders may convert their Notes at their option at any time prior to such holder's Note being paid in full. We may convert the Notes at any time that (i) the daily volume VWAP for the prior ten (10) consecutive trading days is \$0.70 or more and (ii) the average daily trading value is greater than \$2.5 million for the prior ten (10) consecutive trading days (as reported by Bloomberg through its "HP" function). Upon conversion, we will pay or deliver, as the case may be, shares of our Common Stock or a combination of cash (representing the payment of accrued interest) and shares of our Common Stock.

The Original Conversion Price equals \$0.35. The Conversion Price in effect on any conversion date will equal the lesser of the Original Conversion Price or 75% of the average of the three (3) lowest daily VWAPs in the fifteen (15) trading days prior to the conversion date. Should an event of default under the Notes occur, then, during such time as the event of default is continuing, the Conversion Price will equal 70% of the average of the three (3) lowest VWAPs in the twenty (20) consecutive trading days prior to the conversion date.

The Conversion Price is also subject to adjustment upon certain events such as the payment of stock dividends or stock splits. In such case, the then Conversion Price is multiplied by a fraction of which the numerator equals the number of shares of Common Stock outstanding immediately before such event, and the denominator equals the number of shares of Common Stock outstanding immediately after such event. In addition, if, at any time while the Notes are outstanding, we or any of our subsidiaries sells or grants any option to purchase or sells or grants any right to reprice, or otherwise disposes of or issues any Common Stock or Common Stock equivalents at an effective price per share that is lower than the then Conversion Price (the "Base Conversion Price"), then the Conversion Price will be reduced to equal the Base Conversion Price, except to the extent that such issuance is considered to be an "exempt issuance," in which case the Conversion Price will not be adjusted.

Limitations on Conversion

A Note may not be converted and shares of Common Stock may not be issued under the Note if, after giving effect to the conversion or issuance, the holder, together with its affiliates would beneficially own in excess of 4.99% of the outstanding shares of our Common Stock; *provided, that*, upon not less than 61 days' prior written notice to us, the holder may increase the limitation up to 9.99% of the number of shares of our Common Stock outstanding immediately after giving effect to the conversion or issuance.

Because it is a summary, it does not contain all of the information that you should consider before investing in our securities. You should read this entire prospectus carefully, including the section entitled "Risk Factors," any applicable prospectus supplement, and the documents that we incorporate by reference into this prospectus and the prospectus supplement, before making an investment decision. Unless the context indicates otherwise, as used in this prospectus, the terms "we," "us" and "our" refer to Terra Tech Corp. and its subsidiaries.

Our Company

We are a holding company with the following subsidiaries:

- GrowOp Technology Ltd., a Nevada corporation ("GrowOp Technology");
- Edible Garden Corp., a Nevada corporation ("Edible Garden");
- MediFarm, LLC, Nevada limited liability company ("MediFarm");
- MediFarm I, LLC, a Nevada limited liability company ("MediFarm I");
- MediFarm II, LLC, a Nevada limited liability company ("MediFarm II");
- IVXX, LLC, a Nevada limited liability company ("IVXX");
- MediFarm I Real Estate, LLC, a Nevada limited liability company ("MediFarm I RE"); and
- Black Oak Gallery, a California corporation ("Black Oak").

Through GrowOp Technology, we engage in the design, marketing, and sale of hydroponic equipment with proprietary technology to create sustainable solutions for the cultivation of indoor agriculture. Through Edible Garden, we are a retail seller of locally grown hydroponic produce, herbs, and floral products, which are distributed throughout the Midwest and the Northeast United States. Through MediFarm, MediFarm I, and MediFarm II, we plan to operate medical marijuana cultivation, production, and dispensary facilities in Nevada.

On September 16, 2014, we formed IVXX for the purpose of producing a line of cannabis flowers and cigarettes, as well as a complete line of cannabis pure concentrates including: oils, waxes, shatters, and clears. We currently offer these products to approximately 200 select dispensaries in California. We are using our supercritical CO₂ extraction lab located in Oakland, California to manufacture these products. IVXX also sells clothing, apparel, and other various branded products.

On October 14, 2015, we formed MediFarm I RE to serve as the real estate holding company that owns the real property and a building, which is situated on the real property, at which a medical marijuana dispensary facility will be located. It is our intention that MediFarm I will operate the medical marijuana dispensary. We own 50% of the membership interests in MediFarm I RE. The remaining membership interests are owned by Forever Young Investments, LLC (50%), an otherwise unaffiliated entity.

On March 31, 2016, we acquired Black Oak, a California corporation that operates a medical marijuana dispensary in Oakland, California under the name Blüm, pursuant to that certain Agreement and Plan of Merger, dated December 23, 2015 (the "Merger Agreement"), with Generic Merger Sub, Inc., a California corporation and our wholly-owned subsidiary (the "Merger Sub"), and Black Oak. The Merger Agreement was amended by a First Amendment to the Agreement and Plan of Merger, dated February 29, 2016. Pursuant to the Merger Agreement, the Merger Sub merged with and into Black Oak, with Black Oak as the surviving corporation, and became our wholly-owned subsidiary (the "Merger"). The Merger is intended to qualify for federal income tax purposes as a tax-free reorganization under the provisions of Section 368(a) of the Internal Revenue Code of 1986, as amended.

Subject to the terms and conditions of the Merger Agreement, at the closing of the Merger, the outstanding shares of common stock of Black Oak held by (i) three of the current shareholders of Black Oak (the "Group A Shareholders") were converted into the right to receive approximately 8,166 shares of our Series Z Preferred Stock, of which approximately 1,175 shares of Series Z Preferred Stock were issued and paid at closing, and approximately 8,668,700 shares of our Series B Preferred Stock, of which approximately 1,248,300 shares of Series B Preferred Stock were issued and paid at closing and (ii) the remaining shareholders of Black Oak (the "Group B Shareholders") were converted into the right to receive approximately 21,378 shares of our Series Q Preferred Stock, of which approximately 3,695 shares of Series Q Preferred Stock were issued and paid at closing. The shares of Series Z Preferred Stock, Series B Preferred Stock, and Series Q Preferred Stock that were issued but not paid to the Black Oak shareholders at closing are subject to certain holdback and lock-up provisions, and held in an escrow account as security for the satisfaction of any post-closing adjustments or indemnification claims, as provided for in the Merger Agreement. Each share of Series Q Preferred Stock is to be converted into 5,000 shares of our Common Stock and each share of Series Z Preferred Stock is to be converted into 1,857 shares of our Series B Preferred Stock, in each case immediately upon our filing with the Secretary of State of the State of Nevada an Amendment to our Articles of Incorporation to increase our authorized capital for, among other reasons, satisfaction of the terms of this potential transaction. Accordingly, the approximately 21,378 shares of Series Q Preferred Stock to be issued to the Group B Shareholders is convertible into approximately 106,890,000 shares of Common Stock and the approximately 8,166 shares of Series Z Preferred Stock to be issued to the Group A Shareholders is convertible into approximately 15,164,262 shares of Series B Preferred Stock. The Series Z Preferred Stock is intended to mirror the rights of the holders of our Series B Preferred Stock. Each share of our Series B Preferred Stock remains convertible into 5.384325537 shares of our Common Stock. The aggregate fair market value of the securities issued in the Merger was approximately \$22.9 million. The Group B Shareholders may also receive cash consideration equal to approximately \$2.1 million.

The securities paid to the Group A Shareholders and the Group B Shareholders are subject to certain post-closing adjustments that are based on certain performance indicators as of the first anniversary of the closing date of the Merger. The first indicator is based on the performance of the volume-weighted average price of our Common Stock on the first anniversary of the closing date of the Merger compared to the price of our Common Stock on the date of the Merger Agreement. The second indicator is based on our revenues for the twelve-month period following the closing date of the Merger. A portion of the securities that the Group A Shareholders and the Group B Shareholders are entitled to receive at closing of the Merger will be held in an escrow until the first anniversary of the closing date of the Merger and the post-closing adjustments are complete.

Black Oak committed to use commercially reasonable efforts to assist us in our preparation of Black Oak's financial statements, which statements are to be reasonably capable of being audited under GAAP and which audit is to be completed not later than June 8, 2016 (75 days after March 25, 2016, the date after which we no longer had the right to terminate the Merger Agreement for any reason in our discretion). We will file a Current Report on Form 8-K to disclose these financial statements not later than June 8, 2016.

RISK FACTORS

Investing in our securities involves a high degree of risk. Before making an investment decision or acquiring any offered securities pursuant to this prospectus, you should carefully consider the specific factors discussed under the heading “Risk Factors” in the applicable prospectus supplement, together with all of the other information contained or incorporated by reference in the prospectus supplement or appearing or incorporated by reference in this prospectus. You should also consider the risks, uncertainties, and assumptions discussed under the heading “Risk Factors” included in our most recent Annual Report on Form 10-K, as revised or supplemented by our subsequent Quarterly Reports on Form 10-Q, or our Current Reports on Form 8-K that we have filed with the SEC, all of which are incorporated herein by reference, and which may be amended, supplemented, or superseded from time to time by other reports we file with the SEC in the future. The risks and uncertainties we have described are not the only ones we face. Our business, financial condition, or results of operations could be materially adversely affected by any of these risks. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our operations. The occurrence of any of these risks might cause you to lose all or a part of your investment in the offered securities. This prospectus and the incorporated documents also contain forward-looking statements that involve risks and uncertainties.

CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, any prospectus supplement, and the documents incorporated by reference into this prospectus contain certain “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and the Private Securities Litigation Reform Act of 1995 with respect to our business, financial condition, liquidity, and results of operations. Words such as “anticipates,” “expects,” “intends,” “plans,” “predicts,” “believes,” “seeks,” “estimates,” “could,” “would,” “will,” “may,” “can,” “continue,” “potential,” “should,” and the negative of these terms or other comparable terminology often identify forward-looking statements. Statements in this prospectus and the other documents incorporated by reference that are not historical facts are hereby identified as “forward-looking statements” for the purpose of the safe harbor provided by Section 21E of the Exchange Act and Section 27A of the Securities Act. These forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties that could cause actual results to differ materially from the results contemplated by the forward-looking statements, including the risks discussed in this prospectus, in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015 in Item 1A. under “Risk Factors,” and the risks detailed from time to time in our future SEC reports.

These forward-looking statements include, but are not limited to, statements about:

- Our ability to achieve profitability;
- Our estimates of our expenses, ongoing losses, future revenues, capital requirements, and our need for additional financing;
- Our ability to obtain additional financing
- Our estimates of the costs, timing, progress, and results of operations with respect to our contemplated medical marijuana business in Nevada through our subsidiaries MediFarm, MediFarm I, and MediFarm II;
- Our estimates of the timing of and our ability to obtain and maintain the necessary licenses, permits, authorizations, or accreditations to operate our medical marijuana businesses;
- The nature and effect of any future laws, regulations, rules, regulations, interpretations, policies, or procedures, when and if promulgated, could have on our medical marijuana businesses;
- Our ability to comply with existing and new government regulations;
- Our dependence on state laws and regulations regarding medical marijuana;
- Our ability to generate significant revenue from cannabinoid production while use, possession and interstate distribution of marijuana remains illegal on a federal level in the U.S.;

- Our ability to gain consumer acceptance of our medical marijuana products, as well as our hydroponic produce and herbs;
- Our ability to retain key personnel;
- Our ability to maintain our key relationships with partners and service providers;
- Our ability to manage our growth effectively; and
- Our ability to compete with competitors that may have greater resources than us.

Many of the important factors that will determine these results are beyond our ability to control or predict. You should not place undue reliance on our forward-looking statements because the matters they describe are subject to certain risks, uncertainties, and assumptions that are difficult to predict. Our forward-looking statements are based on the information currently available to us and speak only as of the date on the cover of this prospectus, the date of any prospectus supplement, or, in the case of forward-looking statements incorporated by reference, the date of the filing that includes the statement. Over time, our actual results, performance, or achievements may differ from those expressed or implied by our forward-looking statements, and such difference might be significant and materially adverse to our security holders. Except as required by law, we undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events, or otherwise. Please consider our forward-looking statements in light of those risks as you read this prospectus and any prospectus supplement.

USE OF PROCEEDS

We will retain broad discretion over the use of the net proceeds from the sale of the securities offered hereby. Except as described in any prospectus supplement, we currently intend to use the net proceeds from the sale of the securities offered hereby this prospectus for general corporate purposes, which may include, among other things:

- general and administrative expenses;
- additions to working capital and capital expenditures;
- research and development activities; and

DESCRIPTION OF CAPITAL STOCK

The following is a summary of all material characteristics of our capital stock as set forth in our Articles of Incorporation, as amended (the "Articles of

Incorporation”), and our Bylaws (the “Bylaws”), which are filed as exhibits to the registration statement of which this prospectus is a part. The summary does not purport to be complete and is qualified in its entirety by reference to our Articles of Incorporation and our Bylaws, and to the provisions of Chapter 78 of the Nevada Revised Statutes (the “NRS”). We encourage you to review complete copies of our Articles of Incorporation and our Bylaws. You can obtain copies of these documents by following the directions outlined in “Where You Can Find Additional Information” and “Incorporation of Certain Information by Reference” elsewhere in this prospectus.

Common Stock

We have the authority to issue up to 350,000,000 shares of our Common Stock. As of April 7, 2016, there were 349,739,408 shares of our Common Stock issued and outstanding. We are obligated to issue up to an additional 386,971,104 shares of our Common Stock to contemplate the conversion or exercise of all of our currently outstanding Preferred Stock, warrants, options, and convertible debt; however, as of April 7, 2016 we had an insufficient number of authorized shares of our Common Stock to satisfy such obligations. Accordingly, such number of shares of our Common Stock for which we are obligated to issue in the future upon the conversion or exercise of all of our currently outstanding Preferred Stock, warrants, options, and convertible debt will be reserved at such time as when the number of our authorized shares of Common Stock increases. There is a limited public market for our Common Stock.

Voting Rights. The holders of our Common Stock are entitled to one vote per share on all matters requiring a vote of the stockholders, including the election of directors. Holders of our Common Stock do not have cumulative voting rights.

Liquidation. In the event of a liquidation, dissolution, or winding up of the Company, the holders of our Common Stock are entitled to share pro-rata all assets remaining after payment in full of all liabilities, subject to prior distribution rights of preferred stock, if any, then-outstanding.

Dividend Rights. Holders of our Common Stock are entitled to share ratably in dividends, if any, as may be declared from time to time by our Board of Directors (our “Board”) in its discretion from funds legally available therefore, subject to preferences that may be applicable to our Preferred Stock, if any, then-outstanding. Dividends, if any, will be contingent upon our revenues and earnings, if any, capital requirements, and financial conditions. We intend to retain earnings, if any, for use in our business operations and accordingly, our Board does not anticipate declaring any dividends in the foreseeable future.

Other Rights and Restrictions. Our Common Stock has no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions applicable to our Common Stock.

Stockholder Action; Special Meetings. Our Bylaws provide that stockholders' action can only be taken at an annual or special meeting of stockholders, or by written consent if such consent is signed by the holders of all of the shares entitled to vote with respect to the subject matter thereof. Our Bylaws provide that special meetings of the stockholders may be called at any time by our president, Board, or Chairman of the Board. In addition, a special meeting of the stockholders shall be called by our Board at the request of the holders of a majority of all outstanding shares entitled to vote on any issue at the meeting.

Board of Directors; Removal; Vacancies. Our Bylaws specify that the number of directors is to be determined by a majority of the total number of directors serving prior to any increase or decrease, provided there is at least one and no more than ten directors. Our Board is currently composed of eight directors. We do not have a classified Board. Pursuant to our Bylaws and the NRS, a director serves until the next annual meeting and until his or her successor has been elected and qualified, until there is a decrease in the number of directors, or until his or her earlier death, removal, or resignation. Our stockholders may remove one or more directors with or without cause by a vote of our stockholders.

Newly created directorships resulting from an increase in the number of directors and vacancies occurring on our Board for any reason except the removal of one or more director by our stockholders may be filled by a vote of a majority of the directors then in office, although less than a quorum exists. Vacancies occurring as a result of the removal of one or more directors by our stockholders shall be filled by a vote of our stockholders. A director that is appointed or elected to fill a vacancy shall hold office for the remaining term of his or her predecessor.

Amendment of Bylaws. Our Board may amend or repeal our Bylaws. Our stockholders may also amend or repeal our Bylaws by a vote of the holders of the shares entitled to vote in the election of any directors.

Transfer Agent and Registrar. The transfer agent for our Common Stock is West Coast Stock Transfer at 721 North Vulcan Avenue, Suite 205, Encinitas, California 92024. West Coast Stock Transfer's telephone number is (619) 664-4780.

Listing. Our Common Stock is quoted on the OTC Markets Group, Inc.'s OTCQX tier under the symbol "TRTC."

We have the authority to issue up to 25,000,000 shares of “blank check” Preferred stock, \$0.001 par value, of which 100 shares have been designated as “Series A Preferred Stock,” 24,968,800 shares have been designated as “Series B Preferred Stock,” 21,600 shares have been designated as “Series Q Preferred Stock,” and 8,300 shares have been designated as “Series Z Preferred Stock.” As of April 7, 2016, 100 shares of Series A Preferred Stock, 24,818,700 shares of Series B Preferred Stock, 21,378 shares of Series Q Preferred Stock, and 8,166 shares of Series Z Preferred Stock are issued and outstanding. The rights, preferences, privileges, and restrictions of the Series A Preferred Stock, Series B Preferred Stock, Series Q Preferred Stock, and Series Z Preferred Stock are set forth below.

Our Board, without further approval of our stockholders, is authorized to fix the designations, powers, preferences, relative, participating optional or other special rights, and any qualifications, limitations, and restrictions applicable to each series of the preferred Stock, including:

- dividend rights and preferences over dividends on our Common Stock or any series of our Preferred Stock;
- the dividend rate (and whether dividends are cumulative);
- conversion rights, if any;
- voting rights;
- rights and terms of redemption (including sinking fund provisions, if any);
- redemption price and liquidation preferences of any unissued series of any Preferred Stock and the designation thereof of any of them; and
- to increase or decrease the number of shares of any series subsequent to the issue of shares of that series but not below the number of shares then outstanding.

You should refer to the prospectus supplement relating to the series of our Preferred Stock being offered for the specific terms of that series, including:

- the title of the series and the number of shares in the series;
- the price at which shares of our Preferred Stock will be offered;
- the dividend rate or rates or method of calculating the rates the dates on which the dividends will be payable, whether or not dividends will be cumulative or noncumulative and, if cumulative, the dates from which dividends on our Preferred Stock being offered will cumulate;
- the voting rights, if any, of the holders of shares of our Preferred Stock being offered;
- the provisions for a sinking fund, if any, and the provisions for redemption, if applicable, of our Preferred Stock being offered, including any restrictions on the foregoing as a result of arrearage in the payment of dividends or sinking fund installments;
- the liquidation preference per share;
- the terms and conditions, if applicable, upon which our Preferred Stock being offered will be convertible into our Common Stock, including the conversion price, or the manner of calculating the conversion price, and the conversion period;
- the terms and conditions, if applicable, upon which our Preferred Stock being offered will be exchangeable for debt securities, including the exchange price, or the manner of calculating the exchange price, and the exchange period;
- any listing of our Preferred Stock being offered on any securities exchange;
- a discussion of any material federal income tax considerations applicable to our Preferred Stock being offered;

- any preemptive rights;
- the relative ranking and preferences of our Preferred Stock being offered as to dividend rights and rights upon liquidation, dissolution, or the winding up of our affairs;
- any limitations on the issuance of any class or series of our Preferred Stock ranking senior or equal to the series of our Preferred Stock being offered as to dividend rights and rights upon liquidation, dissolution, or the winding up of our affairs; and
- any additional rights, preferences, qualifications, limitations, and restrictions of the series.

Upon issuance, the shares of our Preferred Stock will be fully paid and nonassessable, which means that its holders will have paid their purchase price in full and we may not require them to pay additional funds.

Any Preferred Stock terms selected by our Board could decrease the amount of earnings and assets available for distribution to holders of our Common Stock or adversely affect the rights and power, including voting rights, of the holders of our Common Stock, without any further vote or action by the stockholders. The rights of holders of our Common Stock will be subject to, and may be adversely affected by, the right of the holders of any Preferred Stock that may be issued by us in the future. The issuance of our Preferred Stock could also have the effect of delaying or preventing a change in control of us, make removal of management more difficult, discourage bids for our Common Stock at a premium, or otherwise adversely affect the market price of our Common Stock.

Outstanding Preferred Stock

Series A Preferred Stock. Each share of Series A Preferred Stock is convertible on a one-for-one basis into shares of our Common Stock and has all of the voting rights that the holders of our Common Stock have. So long as any shares of Series A Preferred Stock remain outstanding, our directors shall be elected as follows: (a) the holders of a majority of the shares of Series A Preferred Stock represented at a duly called special or annual meeting of such stockholders or by an action by written consent for that purpose shall be entitled to elect three directors (the “Series A Directors”), which holders may waive their rights to elect such three directors at any time and assign such right to the Board to elect such directors; and (b) the holders of a majority of the shares of our Common Stock represented at a duly called special or annual meeting of such stockholders or by an action by written consent for that purpose shall be entitled to elect two directors. The Series A Preferred Stockholders have not designated any Series A directors. Pursuant to the terms of our Bylaws, our Board has set the number of directors to eight. All eight directorships are filled.

So long as any shares of Series A Preferred Stock are outstanding, we shall not, without first obtaining the approval (by vote or written consent, as provided by law) of the holders of at least a majority of the then-outstanding shares of Series A Preferred Stock, voting as a separate class:

- amend our Articles of Incorporation or Bylaws;
- change or modify the rights, preferences, or other terms of the Series A Preferred Stock, or increase or decrease the number of authorized shares of Series A Preferred Stock;

- reclassify or recapitalize any outstanding equity securities, or authorize or issue, or undertake an obligation to authorize or issue, any equity securities (or any debt securities convertible into or exercisable for any equity securities) having rights, preferences, or privileges senior to or on a parity with the Series A Preferred Stock;
- authorize or effect any transaction constituting a Deemed Liquidation, which shall include: (A) the closing of the sale, transfer, or other disposition of all or substantially all of our assets (including an irrevocable or exclusive license with respect to all or substantially all of our intellectual property); (B) the consummation of a merger, share exchange, or consolidation with or into any other corporation, limited liability company, or other entity (except one in which the holders of our capital stock as constituted immediately prior to such merger, share exchange, or consolidation continue to hold at least 50% of the voting power of our capital stock or the surviving or acquiring entity (or its parent entity)); (C) authorize or effect any liquidation, dissolution, or winding up of the Company, either voluntary or involuntary; provided, however, that none of the following shall be considered a Deemed Liquidation: (i) a merger effected exclusively for the purpose of changing our domicile or (ii) a transaction or other event deemed to be exempt from the definition of a Deemed Liquidation by the holders of at least a majority of the then-outstanding shares of Series A Preferred Stock;
- increase or decrease the size of the Board or remove any of the Series A Directors (unless approved by our Board including the Series A Directors);
- declare or pay any dividends or make any other distribution with respect to any class or series of capital stock (unless approved by the Board including the Series A Directors);
- redeem, repurchase, or otherwise acquire (or pay into or set aside for a sinking fund for such purpose) any outstanding shares of capital stock (other than the repurchase of shares of our Common Stock from employees, consultants, or other service providers pursuant to agreements approved by our Board under which we have the option to repurchase such shares at no greater than original cost upon the occurrence of certain events, such as the termination of employment) (unless approved by our Board including the Series A Directors);
- amend any of our stock option plans, if any (other than amendments that do not require approval of the stockholders under the terms of the plan or applicable law) or approve any new equity incentive plan;
- replace our President and/or Chief Executive Officer (unless approved by our Board including the Series A Directors); or
- transfer assets to any subsidiary or other affiliated entity.

Series B Preferred Stock. Each share of our Series B Preferred Stock is convertible, at the option of the holder, on a 1-for-5.384325537 basis, into shares of our Common Stock (the “Conversion Rate”). The Conversion Rate is subject to adjustment as follows: (i) if we effect a forward stock split, the conversion rate (expressed as a quotient) shall be proportionately decreased so that the number of shares of our Common Stock issuable upon conversion of the Series B Preferred Stock increases in proportion to such increase in the aggregate number of shares of our Common Stock outstanding; (ii) if we effect a reverse split or combination, no adjustments shall be made; (iii) if we set a record date for the holders of our Common Stock entitled to receive a dividend or other distribution payable in shares of our Common Stock, then the conversion rate (expressed as a quotient) shall be decreased; (iv) if we set a record date for the holders of our Common Stock entitled to receive a dividend or other distribution payable in our securities, other than shares of our Common Stock, then the conversion rate shall be adjusted to ensure that the holders of the Series B Preferred Stock receive, in addition to the shares of our Common Stock issuable upon conversion of the Series B Preferred Stock, such number of securities that they would have received had their Series B Preferred Stock been converted into shares of our Common Stock on the record date; (v) if our Common Stock is changed to the same or different number of shares of any class or classes of stock, whether by reclassification, exchange, substitution, or otherwise, then, in each event, the conversion rate shall be adjusted so that each holder of Series B Preferred Stock has the right to convert such share of Series B Preferred Stock into the kind and amount of shares of stock and other securities receivable upon reclassification, exchange, substitution, or other change, by holders of the number of shares of our Common Stock into which such shares of Series B Preferred Stock might have been converted immediately prior to such reclassification, exchange, substitution, or other change; and (vi) if there is a capital reorganization of the Company, or a merger or consolidation of the Company with or into another entity where the holders of the outstanding voting securities prior to such merger or consolidation do not own more than 50% of the outstanding voting securities of the merged or consolidated entity, immediately after such merger or consolidation, or the sale of all or substantially all of our properties or assets to any other person, then as part of such change a revision to the conversion rate shall be made if necessary to ensure that the holders of the Series B Preferred Stock have the right to convert such shares of Series B Preferred Stock into the kind and amount of shares of stock and other securities or property of ours or any successor corporation resulting from such change. The Series B Preferred Stock also automatically converts into shares of our Common Stock immediately prior to a merger, sale of assets, share exchange, or other reorganization.

Each share of Series B Preferred Stock has voting rights equal to 100 shares of our Common Stock (subject to stock dividends, stock splits, and the like) and is entitled to a liquidation preference equal to \$0.005384325537 (subject to appropriate adjustment in the event of any stock dividend, forward stock split, or other similar recapitalization). Such liquidation preference is in preference (but equal with the holders of our Series Z Preferred Stock) to the holders of our Common Stock, but subordinate in preference to any sum to which the holders of our Series A Preferred Stock are entitled. No dividends will be paid on the Series B Preferred Stock.

A holder of Series B Preferred Stock cannot convert less than fifty (50) shares of Series B Preferred Stock at any time, unless the holder holds less than fifty (50) shares of Series B Preferred Stock and converts all such shares held by it at that time. No fractional shares of our Common Stock are to be issued upon conversion of the Series B Preferred Stock.

Series N Preferred Stock. Each share of Series N Preferred Stock is convertible into 2,500,000 shares of our Common Stock immediately upon us filing with the Secretary of State of the State of Nevada an Amendment to our Articles of Incorporation to increase our authorized capital. Pursuant to the terms of the Series N Certificate, the holders of the Series N Preferred Stock are granted the following rights and preferences:

- No dividends will be paid on the Series N Preferred Stock;
- The holders of the Series N Preferred Stock are entitled to a liquidation preference equal to \$2,500.00 per share (subject to appropriate adjustment in the event of any stock dividend, forward stock split, or other similar recapitalization). Such liquidation preference is in preference to the holders of our Common Stock, but subordinate in preference to any sum to which the holders of any shares of any other series of our Preferred Stock are entitled, with the exception of our Series Q Preferred Stock in respect of which our Series N Preferred Stock is superior;
- The holders of the Series N Preferred Stock have the same voting rights as the holders of our Common Stock and each share of Series N Preferred Stock is entitled to the number of votes equal to the number of shares of Common Stock into which such shares of Series N Preferred Stock could then be converted; and
- No fractional shares of our Common Stock are to be issued upon conversion of the Series Q Preferred Stock.

Series Q Preferred Stock. Each share of Series Q Preferred Stock is convertible into 5,000 shares of our Common Stock immediately upon us filing with the Secretary of State of the State of Nevada an Amendment to our Articles of Incorporation to increase our authorized capital. Pursuant to the terms of the Series Q Certificate, the holders of the Series Q Preferred Stock are granted the following rights and preferences:

- No dividends will be paid on the Series Q Preferred Stock;
- The holders of the Series Q Preferred Stock are entitled to a liquidation preference equal to \$0.001 per share (subject to appropriate adjustment in the event of any stock dividend, forward stock split, or other similar recapitalization). Such liquidation preference is in preference to the holders of our Common Stock, but subordinate in preference to any sum to which the holders of any shares of any other series of our Preferred Stock are entitled;
- The holders of the Series Q Preferred Stock have the same voting rights as the holders of our Common Stock and each share of Series Q Preferred Stock is entitled to the number of votes equal to the number of shares of Common Stock into which such shares of Series Q Preferred Stock could then be converted; and
- No fractional shares of our Common Stock are to be issued upon conversion of the Series Q Preferred Stock.

Series Z Preferred Stock. The Series Z Preferred Stock is intended to mirror the rights of the holders of the Series B Preferred Stock. Each share of Series

Z Preferred Stock is convertible into 1,857 shares of Series B Preferred Stock immediately upon us filing with the Secretary of State of the State of Nevada an Amendment to our Articles of Incorporation to increase our authorized capital. Each share of Series Z Preferred Stock has voting rights equal to 100 shares of our Common Stock (subject to stock dividends, stock splits, and the like) and is entitled to a liquidation preference equal to \$10 (subject to appropriate adjustment in the event of any stock dividend, forward stock split, or other similar recapitalization). Such liquidation preference is in preference (but equal with the holders of our Series B Preferred Stock) to the holders of our Common Stock, but subordinate in preference to any sum to which the holders of our Series A Preferred Stock are entitled.

Anti-Takeover Effects of Certain Provisions of Nevada Law

Certain provisions of Nevada law and our Articles of Incorporation and Bylaws could make more difficult the acquisition of us by means of a tender offer or otherwise, and the removal of incumbent officers and directors. These provisions are expected to discourage certain types of coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of us.

Selective Board. Our Board is comprised of eight members. So long as any shares of our Series A Preferred Stock remain outstanding, our directors shall be elected as follows: (a) the holders of a majority of the shares of Series A Preferred Stock represented at a duly called special or annual meeting of such stockholders or by an action by written consent for that purpose shall be entitled to elect three directors Series A Directors. The holders of the Series A Preferred Stock may waive their rights to elect such three directors at any time and assign such right to the Board to elect such directors; and (b) the holders of a majority of the shares of Common Stock represented at a duly called special or annual meeting of such stockholders or by an action by written consent for that purpose shall be entitled to elect two directors. The Series A Preferred Stockholders have not designated any Series A directors. Pursuant to the terms of our Bylaws, our Board has fixed the number of directors to eight. All eight directorships are filled.

This provision will make it more difficult to change our Board, and will promote the continuity of existing management. Our Series A Certificate of Designation also provides that any vote of our stockholders to alter, amend, or repeal this provision in any respect shall require the affirmative vote of the holders of at least a majority of the then-outstanding shares of the Series A Preferred Stock, voting as a separate class.

Voting Rights. Each share of our Series B Preferred Stock and Series Z Preferred Stock has voting rights equal to 100 shares of Common Stock (subject to stock dividends, stock splits, and the like). This provision may have anti-takeover effects and may inhibit a non-negotiated merger or other business combination.

Business Combinations. The “business combination” provisions of Sections 78.411 to 78.444, inclusive, of the NRS prohibit a Nevada corporation with at least 200 stockholders (at least 100 of whom are stockholders of record and residents of the State of Nevada) from engaging in various “combination” transactions with any interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the transaction is approved by the board of directors prior to the date the interested stockholder obtained such status; or after the expiration of the three-year period, unless:

- the transaction is approved by the board of directors or a majority of the voting power held by disinterested stockholders, or
- if the consideration to be paid by the interested stockholder is at least equal to the highest of: (a) the highest price per share paid by the interested stockholder within the three years immediately preceding the date of the announcement of the combination or in the transaction in which it became an interested stockholder, whichever is higher, (b) the market value per share of common stock on the date of announcement of the combination and the date the interested stockholder acquired the shares, whichever is higher, or (c) for holders of preferred stock, the highest liquidation value of the preferred stock, if it is higher.

A “combination” is defined to include mergers or consolidations or any sale, lease exchange, mortgage, pledge, transfer, or other disposition, in one transaction or a series of transactions, with an “interested stockholder” having: (a) an aggregate market value equal to 5% or more of the aggregate market value of the assets of the corporation, (b) an aggregate market value equal to 5% or more of the aggregate market value of all outstanding shares of the corporation, or (c) 10% or more of the earning power or net income of the corporation.

In general, an “interested stockholder” is a person who, together with affiliates and associates, owns (or within three years, did own) 10% or more of a corporation’s voting stock. The statute could prohibit or delay mergers or other takeover or change in control attempts and, accordingly, may discourage

attempts to acquire us even though such a transaction may offer our stockholders the opportunity to sell their stock at a price above the prevailing market price.

DESCRIPTION OF DEBT SECURITIES

The following description, together with the additional information we include in any applicable prospectus supplements, summarizes the material terms and provisions of the debt securities that we may offer under this prospectus. While the terms we have summarized below will apply generally to any future debt securities we may offer pursuant to this prospectus, we will describe the particular terms of any debt securities that we may offer in more detail in the applicable prospectus supplement. If we so indicate in a prospectus supplement, the terms of any debt securities offered under such prospectus supplement may differ from the terms we describe below, and to the extent the terms set forth in a prospectus supplement differ from the terms described below, the terms set forth in the prospectus supplement shall control.

We may sell from time to time, in one or more offerings under this prospectus, debt securities, in one or more series. These debt securities that we may issue include senior debt securities, senior subordinated debt securities, subordinated debt securities, convertible debt securities, and exchangeable debt securities. We will issue any such senior debt securities under a senior indenture that we will enter into with a trustee to be named in the senior indenture. We will issue any such subordinated debt securities under a subordinated indenture, which we will enter into with a trustee to be named in the subordinated indenture. We use the term “indentures” to refer to either the senior indenture or the subordinated indenture, as applicable. The indentures will be qualified under the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”), as in effect on the date of the indenture. We use the term “debenture trustee” to refer to either the trustee under the senior indenture or the trustee under the subordinated indenture, as applicable.

The following summary description, together with the additional information we may include in any applicable prospectus supplement does not purport to be complete and is subject to, and qualified in its entirety by reference to, the form of indenture filed as an exhibit to the registration statement of which the prospectus is a part, as it may be supplemented, amended, or modified from time to time, as well as the notes and supplemental agreement relating to each series of debt securities that will be incorporated by reference as exhibits to the registration statement that includes the prospectus or as exhibits to a Current Report on Form 8-K if we offer debt securities.

General

The indenture does not limit the amount of debt securities that may be issued thereunder, and each indenture provides that the specific terms of any series of debt securities shall be set forth in, or determined pursuant to, an authorizing resolution and/or a supplemental indenture, if any, relating to such series.

We may issue the debt securities issued under the indentures as “discount securities,” which means they may be sold at a discount below their stated principal amount. These debt securities, as well as other debt securities that are not issued at a discount, may be issued with “original issue discount,” or “OID,” for U.S. federal income tax purposes because of interest payment and other characteristics or terms of the debt securities. Material U.S. federal income tax considerations applicable to debt securities issued with OID will be described in more detail in any applicable prospectus supplement.

We will describe in the applicable prospectus supplement the terms of the series of debt securities being offered, including:

- the title or designation;
- the aggregate principal amount and any limit on the aggregate principal amount that may be issued;
- the maturity date or dates on which principal will be payable;
- the form of the debt securities of the series;
- the applicability of any guarantees;
- whether or not the debt securities will be secured or unsecured, and the terms of any secured debt;
- whether the debt securities rank as senior debt, senior subordinated debt, subordinated debt, or any combination thereof, and the terms of any subordination;

- if the price (expressed as a percentage of the aggregate principal amount thereof) at which such debt securities will be issued is a price other than the principal amount thereof, the portion of the principal amount thereof payable upon declaration of acceleration of the maturity thereof, or if applicable, the portion of the principal amount of such debt securities that is convertible into another security or the method by which any such portion shall be determined;
- the interest rate or rates, which may be fixed or variable, or the method for determining the rate and the date interest will begin to accrue, the dates interest will be payable, and the regular record dates for interest payment dates or the method for determining such dates;
- our right, if any, to defer payment of interest and the maximum length of any such deferral period;
- if applicable, the date or dates after which, or the period or periods during which, and the price or prices at which, we may, at our option, redeem the series of debt securities pursuant to any optional or provisional redemption provisions and the terms of those redemption provisions;
- the date or dates, if any, on which, and the price or prices at which we are obligated, pursuant to any mandatory sinking fund or analogous fund provisions or otherwise, to redeem, or at the holder's option to purchase, the series of debt securities and the currency or currency unit in which the debt securities are payable;

- the denominations in which we will issue the series of debt securities, if other than denominations of \$1,000 and any integral multiple thereof;
- the place or places where payments will be payable;
- whether the debt securities of that series shall be issued in whole or in part in the form of a global security or securities, the terms and conditions, if any, upon which such global security or securities may be exchanged in whole or in part for other individual securities; and the depositary for such global security or securities;
- whether the indenture will restrict our ability to pay dividends, or will require us to maintain any asset ratios or reserves;
- if other than the full principal amount thereof, the portion of the principal amount of debt securities of the series that shall be payable upon declaration of acceleration of the maturity thereof;
- whether we will be restricted from incurring any additional indebtedness;
- additions to or changes in the events of default with respect to the securities and any change in the right of the trustee or the holders to declare the principal, premium, if any, and interest, if any, with respect to such securities to be due and payable;
- additions to or changes in the provisions relating to satisfaction and discharge of the indenture;

- additions to or changes in the provisions relating to the modification of the indenture both with and without the consent of holders of debt securities issued under the indenture;
- whether interest will be payable in cash or additional debt securities at our or the holders' option and the terms and conditions upon which the election may be made;
- the terms and conditions, if any, upon which we will pay amounts in addition to the stated interest, premium, if any, and principal amounts of the debt securities of the series to any holder that is not a "United States person" for federal tax purposes;
- any restrictions on transfer, sale, or assignment of the debt securities of the series;
- a discussion on any material or special U.S. federal income tax considerations applicable to a series of debt securities; and
- any other specific terms, preferences, rights, or limitations of, or restrictions on, the debt securities, any other additions or changes in the provisions of the indenture, and any terms that may be required by us or advisable under applicable laws or regulations.

We may issue debt securities that provide for an amount less than their stated principal amount to be due and payable upon declaration of acceleration of their maturity pursuant to the terms of the indenture. We will provide you with information on the federal income tax considerations and other special consideration applicable to any of these debt securities in the applicable prospectus supplement.

Conversion or Exchange Rights

We will set forth in the applicable prospectus supplement the terms on which a series of debt securities may be convertible into or exchangeable for our Common Stock or other securities. We will include provisions as to settlement upon conversion or exchange and whether conversion or exchange is mandatory, at the option of the holder, or at our option. We may include provisions pursuant to which the number of shares of our Common Stock or our other securities that the holders of the series of debt securities receive would be subject to adjustment.

Consolidation, Merger, or Sale; No Protection in Event of a Change of Control or Highly Leveraged Transaction

Unless we provide otherwise in the prospectus supplement applicable to a particular series of debt securities, the indenture will contain covenant that restricts our ability to merge or consolidate, or sell, convey, transfer or otherwise dispose of our assets as an entirety or substantially as an entirety, unless we are the surviving corporation or the successor to or acquirer of such assets (other than a subsidiary of ours) expressly assumes all of our obligations under the indenture or the debt securities, as appropriate. In addition, we cannot complete such a transaction unless immediately after completing the transaction, no event of default under the indenture, and no event that, after notice or lapse of time or both, would become an event of default under the indenture, has occurred and is continuing.

Unless we provide otherwise in the prospectus supplement applicable to a particular series of debt securities, the debt securities will not contain any provisions that may afford holders of the debt securities protection in the event we have a change of control or in the event of a highly leveraged transaction (whether or not such transaction results in a change of control), which could adversely affect holders of debt securities.

Events of Default Under the Indenture

Unless we provide otherwise in the prospectus supplement applicable to a particular series of debt securities, the following are events of default under the indentures with respect to any series of debt securities that we may issue:

- if we fail to pay interest when due and our failure continues for a period of 90 days; provided, however, that a valid extension of an interest payment period by us in accordance with the terms of any indenture supplement thereto shall not constitute a default in the payment of interest for this purpose;
- if we fail to pay the principal of, or premium, if any, on any series of debt securities as and when the same shall become due and payable whether at maturity, upon redemption, by declaration or otherwise, or in any payment required by any sinking or analogous fund established with respect to such series; provided, however, that a valid extension of the maturity of such debt securities in accordance with the terms of any indenture supplement thereto shall not constitute a default in the payment of principal or premium, if any;
- if we fail to observe or perform any other covenant or agreement contained in the debt securities or the indenture, other than a covenant specifically relating to another series of debt securities, and our failure continues for 90 days after we receive written notice of such failure, requiring the same to be remedied and stating that such is a notice of default thereunder, from the trustee or holders of at least 25% in aggregate principal amount of the outstanding debt securities of the applicable series; and
- if specified events of bankruptcy, insolvency, or reorganization occur as to us.

No event of default with respect to a particular series of debt securities (except as to certain events of bankruptcy, insolvency, or reorganization) necessarily constitutes an event of default with respect to any other series of debt securities. The occurrence of an event of default may constitute an event of default under any bank credit agreements we may have in existence from time to time. In addition, the occurrence of certain events of default or acceleration under the indenture may constitute an event of default under certain of our other indebtedness outstanding from time to time.

If an event of default with respect to debt securities of any series at the time outstanding occurs and is continuing, then the trustee or the holders of at least 25% in principal amount of the outstanding debt securities of that series may, by a notice in writing to us (and to the debenture trustee if given by the holders), declare to be due and payable immediately the principal (or, if the debt securities of that series are discount securities, that portion of the principal amount as may be specified in the terms of that series) of and premium and accrued and unpaid interest, if any, on all debt securities of that series. Before a judgment or decree for payment of the money due has been obtained with respect to debt securities of any series, the holders of a majority in principal amount of the outstanding debt securities of that series (or, at a meeting of holders of such series at which a quorum is present, the holders of a majority in principal amount of the debt securities of such series represented at such meeting) may rescind and annul the acceleration if all events of default, other than the non-payment of accelerated principal, premium, if any, and interest, if any, with respect to debt securities of that series, have been cured or waived as provided in the applicable indenture (including payments or deposits in respect of principal, premium or interest that had become due other than as a result of such acceleration). We refer you to the prospectus supplement relating to any series of debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an event of default.

Subject to the terms of the indentures, if an event of default under an indenture shall occur and be continuing, the debenture trustee will be under no

obligation to exercise any of its rights or powers under such indenture at the request or direction of any of the holders of the applicable series of debt securities, unless such holders have offered the debenture trustee reasonable indemnity. The holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method, and place of conducting any proceeding for any remedy available to the debenture trustee, or exercising any trust or power conferred on the debenture trustee, with respect to the debt securities of that series, provided, that:

- the direction so given by the holder is not in conflict with any law or the applicable indenture; and
- subject to its duties under the Trust Indenture Act, the debenture trustee need not take any action that might involve it in personal liability or might be unduly prejudicial to the holders not involved in the proceeding.

A holder of the debt securities of any series will only have the right to institute a proceeding under the indentures or to appoint a receiver or trustee, or to seek other remedies if:

- the holder previously has given written notice to the debenture trustee of a continuing event of default with respect to that series;
- the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series have made written request, and such holders have offered reasonable indemnity to the debenture trustee to institute the proceeding as trustee; and
- the debenture trustee does not institute the proceeding, and does not receive from the holders of a majority in aggregate principal amount of the outstanding debt securities of that series (or at a meeting of holders of such series at which a quorum is present, the holders of a majority in principal amount of the debt securities of such series represented at such meeting) other conflicting directions within 60 days after the notice, request, and offer.

These limitations do not apply to a suit instituted by a holder of debt securities if we default in the payment of the principal, premium, if any, or interest on, the debt securities.

We will periodically file statements with the applicable debenture trustee regarding our compliance with specified covenants in the applicable indenture.

Modification of Indenture; Waiver

We and the debenture trustee may change the applicable indenture without the consent of any holders with respect to specific matters, including:

- to evidence the succession of another corporation to us and the assumption by any such successor of our covenants in such indenture and in the debt securities issued thereunder;
- to add to our covenants or to surrender any right or power conferred on us pursuant to the indenture;
- to establish the form and terms of debt securities issued thereunder;
- to evidence and provide for a successor trustee under such indenture with respect to one or more series of debt securities issued thereunder or to provide for or facilitate the administration of the trusts under such indenture by more than one trustee;
- to cure any ambiguity, to correct or supplement any provision in the indenture that may be defective or inconsistent with any other provision of the indenture or to make any other provisions with respect to matters or questions arising under such indenture; provided that no such action adversely affects the interests of the holders of any series of debt securities issued thereunder in any material respect;
- to add to, delete from, or revise the conditions, limitations and restrictions on the authorized amount, terms or purposes of issue, authentication and delivery of securities under the indenture;
- to add any additional events of default with respect to all or any series of debt securities;
- to supplement any of the provisions of the indenture as may be necessary to permit or facilitate the defeasance and discharge of any series of debt securities, provided that such action does not adversely affect the interests of any holder of an outstanding debt security of such series or any other security in any material respect;

- to make provisions with respect to the conversion or exchange rights of holders of debt securities of any series;
- to pledge to the trustee as security for the debt securities of any series any property or assets;
- to add guarantees in respect of the debt securities of one or more series;
- to change or eliminate any of the provisions of the indenture, provided that any such change or elimination becomes effective only when there is no security of any series outstanding created prior to the execution of such supplemental indenture which is entitled to the benefit of such provision;
- to provide for certificated securities in addition to or in place of global securities;
- to qualify such indenture under the Trust Indenture Act;
- with respect to the debt securities of any series, to conform the text of the indenture or the debt securities of such series to any provision of the description thereof in our offering memorandum or prospectus relating to the initial offering of such debt securities, to the extent that such provision, in our good faith judgment, was intended to be a verbatim recitation of a provision of the indenture or such securities; or
- to make any other change that does not adversely affect the rights of holders of any series of debt securities issued thereunder in any material respect.

In addition, under the indentures, the rights of holders of a series of debt securities may be changed by us and the debenture trustee with the written consent of the holders of at least a majority in aggregate principal amount of the outstanding debt securities of each series (or, at a meeting of holders of such series at which a quorum is present, the holders of a majority in principal amount of the debt securities of such series represented at such meeting) that is affected. However, the debenture trustee and we may make the following changes only with consent of each holder of any outstanding debt securities affected:

- extending the fixed maturity of the series of debt securities;
- reducing the principal amount, reducing the rate of or extending the time of payment of interest, or any premium payable upon the redemption of any debt securities;
- reducing the principal amount of discount securities payable upon acceleration of maturity;
- making the principal of or premium or interest on any debt security payable in currency other than that stated in the debt security;
- impair the right to institute suite for the enforcement of any payment on any debt security when due;
- if applicable, adversely affect the right of a holder to confer or exchange a debt security; or
- reducing the percentage of debt securities, the holders of which are required to consent to any amendment or waiver.

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series (or, at a meeting of holders of such series at which a quorum is present, the holders of a majority in principal amount of the debt securities of such series represented at such meeting) may on behalf of the holders of all debt securities of that series waive our compliance with provisions of the indenture. The holders of a majority in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all the debt securities of such series, waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of, premium, or any interest on any debt security of that series or in respect of a covenant or provision, which cannot be modified or amended without the consent of the holder of each outstanding debt security of the series affected; *provided, however*, that the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration.

Discharge, Defeasance and Covenant Defeasance

We can discharge or decrease our obligations under the indenture as stated below.

We may discharge obligations to holders of any series of debt securities that have not already been delivered to the trustee for cancellation and that have either become due and payable or are by their terms to become due and payable, or are scheduled for redemption, within one year. We may effect a discharge by irrevocably depositing with the trustee cash or government obligations, as trust funds, in an amount certified to be enough to pay when due, whether at maturity, upon redemption or otherwise, the principal of, and any premium and interest on, the debt securities and any mandatory sinking fund payments.

Unless otherwise provided in the applicable prospectus supplement, we may also discharge any and all of our obligations to holders of any series of debt securities at any time, which we refer to as defeasance. We may also be released from the obligations imposed by any covenants of any outstanding series of debt securities and provisions of the indenture, and we may omit to comply with those covenants without creating an event of default under the trust declaration, which we refer to as covenant defeasance. We may effect defeasance and covenant defeasance only if, among other things:

- we irrevocably deposit with the trustee cash or government obligations denominated in the currency of the debt securities, as trust funds, in an amount certified to be enough to pay at maturity, or upon redemption, the principal (including any mandatory sinking fund payments) of, and any premium and interest on, all outstanding debt securities of the series; and
- we deliver to the trustee an opinion of counsel from a nationally recognized law firm to the effect that the holders of the series of debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the defeasance or covenant defeasance and that defeasance or covenant defeasance will not otherwise alter the holders' U.S. federal income tax treatment of principal, and any premium and interest payments on, the series of debt securities.

In the case of a defeasance by us, the opinion we deliver must be based on a ruling of the Internal Revenue Service issued, or a change in U.S. federal income tax law occurring, after the date of the indenture, since such a result would not occur under the U.S. federal income tax laws in effect on that date.

Although we may discharge or decrease our obligations under the indenture as described in the two preceding paragraphs, we may not avoid, among other things, our duty to register the transfer or exchange of any series of debt securities, to replace any temporary, mutilated, destroyed, lost, or stolen series of debt securities or to maintain an office or agency in respect of any series of debt securities.

Registered Global Securities and Book Entry System

The debt securities of a series may be issued in whole or in part in book-entry form and will be represented by one or more fully registered global securities. We will deposit any registered global securities with a depository or with a nominee for a depository identified in the applicable prospectus supplement and registered in the name of such depository or nominee. In such case, we will issue one or more registered global securities denominated in an amount equal to the aggregate principal amount of all of the debt securities of the series to be issued and represented by such registered global security or securities. This means that we will not issue certificates to each holder.

Unless and until it is exchanged in whole or in part for debt securities in definitive registered form, a registered global security may not be transferred except as a whole:

- by the depository for the registered global security to its nominee;
- by a nominee of the depository to the depository or another nominee of the depository; or
- by the depository or its nominee to a successor of the depository or a nominee of the successor.

The prospectus supplement relating to a series of debt securities will describe the specific terms of the depository arrangement involving any portion of the series represented by a registered global security. We anticipate that the following provisions will apply to all depository arrangements for debt securities:

- ownership of beneficial interests in a registered global security will be limited to persons that have accounts with the depository for such registered global security, these persons being referred to as “participants,” or persons that may hold interests through participants;
- upon the issuance of a registered global security, the depository for the registered global security will credit, on its book-entry registration and transfer system, the participants’ accounts with the respective principal amounts of the debt securities represented by the registered global security beneficially owned by the participants;
- any dealers, underwriters, or agents participating in the distribution of the debt securities will designate the accounts to be credited; and
- ownership of beneficial interest in the registered global security will be shown on, and the transfer of the ownership interest will be effected only through, records maintained by the depository for the registered global security for interests of participants, and on the records of participants for interests of persons holding through participants.

The laws of some states may require that specified purchasers of securities take physical delivery of the securities in definitive form. These laws may limit the ability of those persons to own, transfer, or pledge beneficial interests in registered global securities.

So long as the depositary for a registered global security, or its nominee, is the registered owner of the registered global security, the depositary or such nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by the registered global security for all purposes under the indenture. Except as stated below, owners of beneficial interests in a registered global security:

- will not be entitled to have the debt securities represented by a registered global security registered in their names;
- will not receive or be entitled to receive physical delivery of the debt securities in the definitive form; and
- will not be considered the owners or holders of the debt securities under the relevant indenture.

Accordingly, each person owning a beneficial interest in a registered global security must rely on the procedures of the depositary for the registered global security and, if the person is not a participant, on the procedures of a participant through which the person owns its interest, to exercise any rights of a holder under the indenture.

We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a registered global security desires to give or take any action that a holder is entitled to give or take under the indenture, the depositary for the registered global security would authorize the participants holding the relevant beneficial interests to give or take the action, and the participants would authorize beneficial owners owning through the participants to give or take the action or would otherwise act upon the instructions of beneficial owners holding through them.

We will make payments of principal and premium, if any, and interest, if any, on debt securities represented by a registered global security registered in the name of a depositary or its nominee to the depositary or its nominee, as the case may be, as the registered owners of the registered global security. Neither we nor the trustee, or any other agent of ours or the trustee will be responsible or liable for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the registered global security or for maintaining, supervising, or reviewing any records relating to the beneficial ownership interests.

We expect that the depositary for any debt securities represented by a registered global security, upon receipt of any payments of principal and premium, if any, and interest, if any, in respect of the registered global security, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the registered global security as shown on the records of the depositary. We also expect that standing customer instructions and customary practices will govern payments by participants to owners of beneficial interests in the registered global security held through the participants, as is now the case with the securities held for the accounts of customers in bearer form or registered in "street name." We also expect that

any of these payments will be the responsibility of the participants.

If the depository for any debt securities represented by a registered global security is at any time unwilling or unable to continue as depository or stops being a clearing agency registered under the Exchange Act, we will appoint an eligible successor depository. If we fail to appoint an eligible successor depository within 90 days, we will issue the debt securities in definitive form in exchange for the registered global security. In addition, we may at any time and in our sole discretion decide not to have any of the debt securities of a series represented by one or more registered global securities. In that event, we will issue debt securities of the series in a definitive form in exchange for all of the registered global securities representing the debt securities. The trustee will register any debt securities issued in definitive form in exchange for a registered global security in the name or names as the depository, based upon instructions from its participants, shall instruct the trustee.

Information Concerning the Debenture Trustee

The debenture trustee, other than during the occurrence and continuance of an event of default under the applicable indenture, undertakes to perform only those duties as are specifically set forth in the applicable indenture. Upon an event of default under an indenture, the debenture trustee under such indenture must use the same degree of care as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to this provision, the debenture trustee is under no obligation to exercise any of the powers given it by the indentures at the request of any holder of debt securities unless it is offered reasonable security and indemnity against the costs, expenses, and liabilities that it might incur.

Payment and Paying Agents

Unless we otherwise indicate in the applicable prospectus supplement, we will make payment of the interest on any debt securities on any interest payment date to the person in whose name the debt securities, or one or more predecessor securities, are registered at the close of business on the regular record date for the interest.

We will pay principal of and any premium and interest on the debt securities of a particular series at the office of the paying agents designated by us, except that unless we otherwise indicate in the applicable prospectus supplement, we will make interest payments by check which we will mail to the holder. Unless we otherwise indicate in a prospectus supplement, we will designate the corporate trust office of the debenture trustee as our sole paying agent for payments with respect to debt securities of each series. We will name in the applicable prospectus supplement any other paying agents that we initially designate for the debt securities of a particular series. We will maintain a paying agent in each place of payment for the debt securities of a particular series.

All money we pay to a paying agent or the debenture trustee for the payment of the principal of or any premium or interest on any debt securities which remains unclaimed at the end of two years after such principal, premium, or interest has become due and payable will be repaid to us, and the holder of the security thereafter may look only to us for payment thereof.

Governing Law

The indentures and the debt securities will be governed by and construed in accordance with the laws of the State of New York, except to the extent that the Trust Indenture Act is applicable.

Subordination of Subordinated Debt Securities

The following description, together with the additional information we may include in any applicable prospectus supplements, summarizes the material terms and provisions of the warrants that we may offer under this prospectus, which may consist of warrants to purchase shares of our Common Stock, our Preferred Stock, or debt securities. While the terms we have summarized below will apply generally to any warrants that we may offer under this prospectus, we will describe the particular terms of any series of warrants that we may offer in more detail in the applicable prospectus supplement. The terms of any warrants offered under that prospectus supplement may differ from the terms described below. We urge you to read the applicable prospectus supplements related to the warrants that we sell under this prospectus, as well as the complete warrant agreements that contain the terms of the warrants.

We may issue warrants directly or under a warrant agreement to be entered into between us and a warrant agent. We will name any warrant agent in the applicable prospectus supplement. Any warrant agent will act solely as our agent in connection with the warrants of a particular series and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants. The applicable prospectus supplement and the applicable warrant agreement will describe, where applicable, the following terms of and other information relating to the warrants:

- the title of such warrants;
- the offering price or prices and aggregate number of warrants offered;

- if applicable, the designation and terms of the securities with which the warrants are issued and the number of warrants issued with each security or each principal amount of such security;
- the designation, terms, and number of shares of debt securities, Preferred Stock, or Common Stock purchasable upon exercise of each warrants;
- the exercise price at which each share of debt securities, Preferred Stock, or Common Stock is purchasable upon exercise of the warrant;
- the date on which the right to exercise the warrants will begin and the date on which that right will expire or, if the warrants may not be continuously exercised throughout that period, the specific date or dates on which the warrants may be exercised;
- any applicable material U.S. federal income tax consequences of holding or exercising the warrants;
- if applicable, the identity of the warrant agent for the warrants and of any other depositaries, execution, or paying agents, transfer agents, registrars, or other agents;

- if applicable, the date from and after which the warrants and the related securities will be separately transferable;
- if applicable, the minimum or maximum amount of the warrants that may be exercised at any one time;
- information with respect to book-entry procedures, if any;
- the anti-dilution provisions of the warrants, if any;
- any redemption or call provisions;
- the effect of any merger, consolidation, sale, or other disposition of our business on the warrant agreements and the warrants;
- the terms of any rights to force the exercise of the warrants;
- the manner in which the warrant agreements and warrants may be modified;
- whether the warrants are to be sold separately or with other securities as parts of units; and
- any additional terms of the warrants, including terms, procedures, and limitations relating to the exchange and exercise of the warrants.

Before exercising their warrants, holders of warrants will not have any of the rights of the holders of the securities purchasable upon such exercise, including the right to receive dividends, if any, or payments upon our liquidation, dissolution or winding up, or to exercise voting rights, if any.

Exercise of Warrants

Each warrant will entitle the holder to purchase the securities that we specify in the applicable prospectus supplement at the exercise price that we describe in the applicable prospectus supplement. Unless we otherwise specify in the applicable prospectus supplement, the holders of the warrants may exercise the warrants at any time up to the specified time on the expiration date that we set forth in the applicable prospectus supplement. After the close of business on the expiration date, unexercised warrants will become void.

Unless we otherwise specify in the applicable prospectus supplement, holders of the warrants may exercise the warrants by delivering the warrant certificate representing the warrants to be exercised together with specified information, and paying the required amount to the warrant agent in immediately available funds, as provided in the applicable prospectus supplement. We will set forth on the reverse side of the warrant certificate and in the applicable prospectus supplement the information that the holder of the warrant will be required to deliver to the warrant agent in connection with the exercise of the warrant.

Upon receipt of the required payment and the warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement, we will issue and deliver the securities purchasable upon such exercise. If fewer than all of the warrants represented by the warrant certificates are exercised, then we will issue a new warrant certificate for the remaining amount of warrants.

Enforceability of Rights by Holders of Warrants

Each warrant agent will act solely as our agent under the applicable warrant agreement and will not assume any obligation or relationship of agency or trust with any holder of any warrant. A single bank or trust company may act as warrant agent for more than one issue of warrants. A warrant agent will have no duty or responsibility in case of any default by us under the applicable warrant agreement or warrant, including any duty or responsibility to initiate any proceedings at law or otherwise, or to make any demand upon us. Any holder of a warrant may, without the consent of the related warrant

agent or the holder of any other warrant, enforce by appropriate legal action its right to exercise, and receive the securities purchasable upon exercise of, its warrants.

Outstanding Warrants

As of August 9, 2016, we had the following warrants outstanding:

DESCRIPTION OF RIGHTS

The following description, together with the additional information we may include in any applicable prospectus supplements, summarizes the material terms and provisions of the rights that we may offer under this prospectus. While the terms we have summarized below will apply generally to any rights that we may offer under this prospectus, we will describe the particular terms of any rights that we may offer in more detail in the applicable prospectus supplement. The terms of any rights offered under that prospectus supplement may differ from the terms described below. To the extent that any particular terms of the rights, rights agreement, or rights certificates described in a prospectus supplement differ from any of the terms described below, then the terms described below will be deemed to have been superseded by that prospectus supplement. We encourage you to read the applicable rights agreement and rights certificate for additional information before you decide whether to purchase any of our rights.

We may issue rights to our stockholders to purchase shares of our Common Stock, shares of our Preferred Stock, or the other securities described in this prospectus. We may offer rights separately or together with one or more additional rights, debt securities, shares of our Preferred Stock, shares of our Common Stock, warrants, or purchase contracts, or any combination of those securities in the form of units, as described in the applicable prospectus supplement. Each series of rights will be issued under a separate rights agreement to be entered into between us and a bank or trust company, as rights agent. The rights agent will act solely as our agent in connection with the certificates relating to the rights of the series of certificates and will not assume any obligation or relationship of agency or trust for or with any holders of rights certificates or beneficial owners of rights. The rights agent for any rights we offer will be set forth in the applicable prospectus supplement.

We will provide in a prospectus supplement the following terms of the rights being issued:

- the date of determining the stockholders entitled to the rights distribution;
- the aggregate number of shares of our Common Stock, our Preferred Stock, or other securities purchasable upon exercise of the rights;
- the exercise price;
- the aggregate number of rights issued;
- whether the rights are transferrable and the date, if any, on and after which the rights may be separately transferred;
- the date on which the right to exercise the rights will commence, and the date on which the right to exercise the rights will expire;
- the method by which holders of rights will be entitled to exercise;
- the conditions to the completion of the offering, if any;
- the withdrawal, termination, and cancellation rights, if any;
- whether there are any backstop or standby purchaser or purchasers and the terms of their commitment, if any;
- whether stockholders are entitled to oversubscription rights, if any;

- any applicable material U.S. federal income tax considerations; and
- any other terms of the rights, including terms, procedures, and limitations relating to the distribution, exchange, and exercise of the rights, as applicable.

Each right will entitle the holder of rights to purchase for cash the principal amount of shares of our Common Stock, shares of our Preferred Stock, or other securities at the exercise price provided in the applicable prospectus supplement. Rights may be exercised at any time up to the close of business on the expiration date for the rights provided in the applicable prospectus supplement.

Holders may exercise rights as described in the applicable prospectus supplement. Upon receipt of payment and the rights certificate properly completed and duly executed at the corporate trust office of the rights agent or any other office indicated in the prospectus supplement, we will, as soon as practicable, forward the shares of our Common Stock, shares of our Preferred Stock, or other securities, as applicable, purchasable upon exercise of the rights. If less than all of the rights issued in any rights offering are exercised, we may offer any unsubscribed securities directly to persons other than stockholders, to or through agents, underwriters, or dealers, or through a combination of such methods, including pursuant to standby arrangements, as described in the applicable prospectus supplement.

DESCRIPTION OF PURCHASE CONTRACTS

The following description sets forth certain general terms and provisions of the purchase contracts to which any prospectus supplement may relate. The particular terms of the purchase contracts to which any prospectus supplement may relate and the extent, if any, to which the general provisions may apply to the purchase contracts so offered will be described in the applicable prospectus supplement. To the extent that any particular terms of the purchase contracts described in a prospectus supplement differ from any of the terms described below, then the terms described above will be deemed to have been superseded by that prospectus supplement. We encourage you to read the applicable purchase contract for additional information before you decide whether to purchase any of our purchase contracts.

We may issue purchase contracts, including contracts obligating holders to purchase from us, and for us to sell to holders, a specific or variable number of our debt securities, shares of our Common Stock, shares of our Preferred Stock, warrants, or rights, or any combination of the above, at a future date or dates. Alternatively, the purchase contracts may obligate us to purchase from holders, and obligate holders to sell to us, a specific or variable number of our debt securities, shares of our Common Stock, Preferred Stock, warrants, rights, or any combination of the above. The price of the securities subject to the purchase contracts may be fixed at the time the purchase contracts are issued or may be determined by reference to a specific formula described in the purchase contracts. We may issue purchase contracts separately or as a part of units each consisting of a purchase contract and one or more of our other securities described in this prospectus securing the holder's obligations under the purchase contract.

If we issue a purchase contract as part of a unit, the applicable prospectus supplement will state whether the purchase contract will be separable from the other securities in the unit before the purchase contract settlement date. The purchase contracts may require us to make periodic payments to holders or vice versa and the payments may be unsecured or pre-funded on some basis. The purchase contracts may require holders to secure the holder's obligations in a manner specified in the applicable prospectus supplement, and, in certain circumstances, we may deliver newly issued prepaid purchase contracts, often known as prepaid securities, upon release to a holder of any collateral securing such holder's obligations under the original purchase contract.

The applicable prospectus supplement will describe the terms of any purchase contracts in respect of which this prospectus is being delivered, including, to the extent applicable, the following:

- whether the purchase contracts obligate the holder or us to purchase or sell, or both purchase and sell, the securities subject to purchase under the purchase contract, and the nature and amount of each of those securities, or the method of determining those amounts;
- whether the purchase contracts are to be prepaid;
- whether the purchase contracts are to be settled by delivery, or by reference or linkage to the value, performance, or level of the securities subject to purchase under the purchase contract;
- any acceleration, cancellation, termination, or other provisions relating to the settlement of the purchase contracts;
- any applicable material U.S. federal income tax considerations; and
- whether the purchase contracts will be issued in fully registered or global form.

DESCRIPTION OF UNITS

Below is a description of certain general terms and provisions of the units that we may offer. Particular terms of the units will be described in the applicable unit agreements and the applicable prospectus supplement for the units. We urge you to read the applicable prospectus supplements related to the units that we sell under this prospectus, as well as the complete unit agreements that contain the terms of the units.

We may issue units comprised of our Common Stock, our Preferred Stock, debt securities, warrants, rights, purchase contracts, or any combination of such securities under this prospectus. Units may be issued in one or more series, independently or together with shares of our Common Stock, our Preferred Stock, debt securities, warrants, rights or purchase contracts, and the units may be attached to or separate from such securities. We may issue units directly or under a unit agreement to be entered into between us and a unit agent. We will name any unit agent in the applicable prospectus supplement. Any unit agent will act solely as our agent in connection with the units of a particular series and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of units. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. We will describe in the applicable prospectus supplement the terms of the series of units, including the following:

- the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- the price or prices at which the units will be issued;
- the date, if any, on and after which the securities included in the units will be separately transferable;
- any provisions of the governing unit agreement that differ from those described in this section; and

- any provisions for the issuance, payment, settlement, transfer, or exchange of the units or of the securities comprising the units.

PLAN OF DISTRIBUTION

We may sell the securities covered by this prospectus from time to time pursuant to underwritten public offerings (whether on a firm commitment, “best efforts,” or other basis), negotiated transactions, block trades, or a combination of these methods. We may sell the securities to or through underwriters or dealers, through agents, or directly to one or more purchasers (including existing holders of our securities) without using underwriters or agents, any combination of the foregoing methods, or through any other method permitted by applicable law and described in the applicable prospectus supplement. We may distribute securities from time to time in one or more transactions:

- at a fixed price or prices, which may be changed from time to time;
- at market prices prevailing at the time of sale;
- at prices related to such prevailing market prices; or
- at negotiated prices.

We, and our underwriters, dealers, or agents, reserve the right to accept or reject all or part of any proposed purchase of securities. A prospectus supplement or supplements will describe the terms of the offering of the securities, including, to the extent applicable:

- the name or names of any underwriters, dealers, or agents, if any;
- the purchase price of the securities and the estimated net proceeds we will receive from the sale;
- any over-allotment options under which underwriters may purchase additional securities from us;
- any agency fees or underwriting discounts and other items constituting agents' or underwriters' compensation;
- any public offering price;
- any discounts or concessions allowed or reallocated or paid to dealers; and
- any securities exchange or market on which the securities may be listed.

Only underwriters named in the prospectus supplement are underwriters of the securities offered by the prospectus supplement.

General

Any public offering price and any discounts, commissions, concessions, or other items constituting compensation allowed or re-allowed or paid to underwriters, dealers, agents, or remarketing firms may be changed from time to time. Underwriters, dealers, agents, and remarketing firms that participate in the distribution of the offered securities may be “underwriters” as defined in the Securities Act. Any discounts or commissions they receive from us and any profits they receive on the resale of the offered securities may be treated as underwriting discounts and commissions under the Securities Act. We will identify any underwriters, agents, or dealers and describe their commissions, fees, or discounts in the applicable prospectus supplement or pricing supplement, as the case may be.

Underwriters and Agents

If underwriters are used in the sale of any securities, they will acquire the offered securities for their own account. The underwriters may resell the offered securities from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of sale. We may offer the securities to the public through an underwriting syndicate or through a single underwriter. The underwriters in any particular offering will be mentioned in the applicable prospectus supplement or pricing supplement, as the case may be.

Unless otherwise specified in connection with any particular offering of securities, the obligations of the underwriters to purchase the offered securities will be subject to certain conditions contained in an underwriting agreement that we will enter into with the underwriters at the time of the sale to them. The underwriters will be obligated to purchase all of the securities of the series offered if any of the securities are purchased, unless otherwise specified in connection with any particular offering of securities. Any initial offering price and any discounts or concessions allowed, re-allowed or paid to dealers may be changed from time to time. We may use underwriters with whom we have a material relationship. We will describe in the prospectus supplement, naming the underwriter, the nature of any such relationship.

We may sell directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of securities, and we will describe any commissions we will pay the agent in the prospectus supplement. Unless otherwise specified in connection with any particular offering of securities, the agents will agree to use their best efforts to solicit purchases for the period of their appointment. We may also sell the offered securities to one or more remarketing firms, acting as principals for their own accounts or as agents for us. These firms will remarket the offered securities upon purchasing them in accordance with a redemption or repayment pursuant to the terms of the offered securities. A prospectus supplement or pricing supplement, as the case may be, will identify any remarketing firm and will describe the terms of its agreement, if any, with us and its compensation.

In connection with offerings made through underwriters or agents, we may enter into agreements with such underwriters or agents pursuant to which we receive our outstanding securities in consideration for the securities being offered to the public for cash. In connection with these arrangements, the underwriters or agents may also sell securities covered by this prospectus to hedge their positions in these outstanding securities, including in short sale

transactions. If so, the underwriters or agents may use the securities received from us under these arrangements to close out any related open borrowings of securities.

Dealers

We may sell the offered securities to dealers as principals. We may negotiate and pay dealers' commissions, discounts, or concessions for their services. The dealer may then resell such securities to the public either at varying prices to be determined by the dealer or at a fixed offering price agreed to with us at the time of resale. Dealers engaged by us may allow other dealers to participate in resales. We will include the name of the dealer and the terms of our transactions with the dealer in the applicable prospectus supplement.

Direct Sales

We may directly solicit offers to purchase our securities, and we may directly sell our securities to institutional or other investors. In this case, no underwriters or dealer would be involved. We will describe the terms of our direct sales in the applicable prospectus supplement.

Institutional Purchasers

We may authorize agents, dealers, or underwriters to solicit offers by certain institutional investors to purchase offered securities from us at the public offering price set forth in the prospectus supplement on a delayed delivery basis pursuant to delayed delivery contracts providing for payment and delivery on a specified future date. The applicable prospectus supplement or pricing supplement, as the case may be, will provide the details of any such arrangement, including the offering price and commissions payable on the solicitations.

We will enter into such delayed contracts only with institutional purchasers that we approve. These institutions may include commercial and savings banks, insurance companies, pension funds, investment companies, and educational and charitable institutions.

Indemnification; Other Relationships

We may have agreements with agents, underwriters, dealers, and remarketing firms to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to these liabilities. Agents, underwriters, dealers, and remarketing firms, and their affiliates, may engage in transactions with, or perform services for, us in the ordinary course of business. This includes commercial banking and investment banking transactions.

Market-Making, Stabilization, and Other Transactions

All securities we offer, other than shares of our Common Stock, will be new issues of securities with no established trading market. Any underwriters may make a market in these securities, but will not be obligated to do so and may discontinue any market making at any time without notice. Any shares of our Common Stock sold pursuant to a prospectus supplement will be quoted on the OTC Markets Group, Inc.'s OTCQX tier. We may apply to list any other securities sold pursuant to a prospectus supplement but we are not obligated to do so. Therefore, no assurance can be given as to whether an active trading market will develop for the offered securities. We cannot guarantee the liquidity of the trading markets for any securities.

Any underwriter may engage in over-allotment transactions, stabilizing transactions, short covering transactions, and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which creates a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchase of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a stabilizing or covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time. These transactions may be effected on any exchange or over-the-counter market or otherwise. We make no representations or predictions as to the direct or magnitude of any effect that such transactions may have on the price of the securities. For a description of these activities, see the information under the heading "Plan of Distribution" in the applicable prospectus supplement.

Underwriters, broker-dealers, or agents who may become involved in the sale of our Common Stock may engage in transactions with and perform other services for us in the ordinary course of their business for which they receive compensation.

Fees and Commissions

In compliance with the guidelines of the Financial Industry Regulatory Authority (“FINRA”), the aggregate maximum discount, commission, or agency fees or other items constituting underwriting compensation to be received by any FINRA member or independent broker-dealer will not exceed 8% of any offering proceeds pursuant to this prospectus and any applicable prospectus supplement or pricing supplement, as the case may be.

LEGAL MATTERS

Unless otherwise indicated in the applicable prospectus supplement, Baker & Hostetler LLP, Costa Mesa, California, will provide opinions regarding the validity of any securities offered by this prospectus. Baker & Hostetler LLP may also provide opinions regarding certain other matters. The legality of the securities for any underwriters, dealers, or agents will be passed upon by counsel as may be specified in the applicable prospectus supplement.
